Cisco Stand | World of Solutions

Welcome to the new Cisco Stand

Join Cisco experts and gain access to over 100 demos, immersive experiences, and inspirational sessions designed to accelerate your business growth and unlock incredible value. Experience firsthand how Cisco empowers you to build, scale, and protect your data centres, future-proof your workplaces, and ensure your organisation's digital resilience.

Engage with experts to unlock a *unified* Cisco experience in the Stand located in the World of Solutions.

Cisco Stand > AI-Ready Data Centres

AI is evolving fast; agentic AI demands secure infrastructure that can keep up. Cisco's full-stack AI infrastructure, engineered as one system, unifies networking, compute, security, and observability to deliver AI-ready data centres anywhere, helping organisations accelerate AI initiatives with maximum agility and zero compromise.

LOCATION	DEMO NAME	DESCRIPTION	PRODUCTS AND SERVICES
AIDC-01	**Powering real-world AI use cases: Healthcare | Retail | Manufacturing**	Follow the customer journey from edge to core as AI moves from early use cases to broader business transformation. Across healthcare, manufacturing, and retail, see how Cisco helps turn data into real-world outcomes with the infrastructure, security, and visibility to scale.	Cisco Cloud Control, Unified Edge, Intersight, AI Canvas, Nexus Dashboard, Nexus Series Switches, AI PODs, Splunk, Cisco ThousandEyes, Intersight Fleet Management, Stack Automation by Quali
AIDC-02	**Computing with AI systems, not servers: Cisco Compute**	Scale AI from edge to core with full-stack solutions that bring compute, networking, security, management, and partner technologies together as a vertically integrated platform.	Cisco Secure AI Factory with NVIDIA, Cisco Unified Edge, Cisco UCS, Cisco Cloud Control/Cisco Intersight
AIDC-03	**Create full-stack infrastructures: Cisco Secure AI Factory with NVIDIA tour**	Piecing together AI infrastructure slows deployment and increases risk. Discover how Cisco's full-stack AI architecture and ISV partner ecosystem simplify and speed integration. See how a validated, integrated system helps you deploy, operate, and scale AI workloads faster and with confidence.	Cisco AI PODs, Cisco Secure AI Factory with NVIDIA
AIDC-04	**Stop zero-day and encrypted threats: Cisco Hybrid Mesh Firewall | Cisco Firewall**	See how Cisco Firewall uncovers threats in encrypted traffic and applies AI-driven, threat-aware policies. Leverage SnortML and user trust scores to enforce dynamic controls and stop advanced attacks. Gain deeper visibility, make smarter decisions, and prevent threats earlier with intelligent, context-aware firewalling across your network.	Hybrid Mesh Firewall, Cisco Firewall

AIDC-05	**Enable segmentation everywhere: Cisco Hybrid Mesh Firewall | Cisco Smart Switch**	Segmentation that meets you where you are. Learn how Cisco Hybrid Mesh Firewall can help you on your segmentation journey by providing agentless segmentation using Cisco Smart Switch and agent-based segmentation for your traditional and modern applications including Kubernetes, thereby minimising attack surface and stopping unauthorised lateral movement.	Hybrid Mesh Firewall, Cisco Smart Switch
AIDC-06	**Distributed security, fused into every layer: Cisco Security**	As attackers use AI to discover and launch attacks faster, traditional defenses can fall short. See how Cisco Hybrid Mesh Firewall protects east-west traffic and workloads across campus, data centre, and cloud—distributing security throughout the environment, fusing it into the network fabric, and unifying policy management in Cisco Cloud Control.	Hybrid Mesh Firewall, Cisco Firewall
AIDC-07	**Accelerate SecOps with network data: Splunk Enterprise Security | Cisco Firewall**	Leverage network and firewall telemetry to accelerate threat detection and response. Integrate firewall logs into Splunk, perform federated search across environments, and enable advanced threat hunting with enriched context. Correlate signals, uncover hidden threats, and act faster with unified visibility across network infrastructure and security operations.	Splunk, Cisco Firewall
AIDC-08	**Shield workloads and infrastructure: Cisco Hypershield | Live Protect**	AI-assisted exploitation is compressing the time between vulnerability disclosure and attempted exploitation, from weeks to hours or minutes. See how Live Protect helps customers reduce exposure to selected vulnerabilities by applying Cisco-validated runtime protections to protect Cisco infrastructure as well as customer applications.	Cisco Hypershield, Live Protect

AIDC-09	**Unify policy across every firewall: Cisco Cloud Control | Mesh Policy Engine**	See the agent-first operating model for Security in Cisco Cloud Control that proactively identifies upcoming issues, recommends resolutions tailored to your environment, and easily accepts them in one-click. Discover how to unify policies across disparate multi-vendor firewalls to close security gaps without adding more operational strain and costly rip-and-replace projects.	Cisco Cloud Control, Mesh Policy Engine
AIDC-10	**Harden infrastructure access: Cisco Duo | Privileged Access**	Critical work can't wait, but privilege should never outlive the task. See how Cisco Privileged Infrastructure Access brings identity-aware, short-lived, task-bound access to people, machines, workloads, and agents across critical infrastructure. Establish trust, govern and record privileged sessions, reduce standing privilege, strengthen your zero-trust foundation, and maintain operational speed.	Cisco Duo
AIDC-11	**Troubleshoot with agentic AI: Cisco Cloud Control | Nexus One | Native Splunk**	Troubleshoot complex data centre network issues in seconds, not hours. Discover how Cisco Cloud Control enables dynamic, AI-powered network management using multi-agent architectures and natural language. Learn how Native Splunk's integration with Nexus One delivers real-time insights, anomaly detection, and predictive analytics to help you proactively manage your network.	Cisco Cloud Control, Cisco Nexus One, Native Splunk in Nexus One
AIDC-12	**Build end-to-end AI networking: AI job aware | NCP RA and CRA | SRv6**	Don't let network latency throttle your AI workloads. See how Cisco Silicon One and NVIDIA Spectrum-X Ethernet silicon-based N9000 series switches maximise throughput and minimise job completion times—with Cisco Nexus One delivering reliable multi-tenancy and advanced job observability for your most complex AI workloads.	N9364E-SP2R-O (Fixed P200 switch, Plexiglass), Cisco N9164E-NS4-O Spectrum-4 Switch (Jensen signed), Cisco N9808, N9K-X9636E-SP2R-O line card (Modular P200 switch) – Pedestal, Cisco Nexus 9364 SG2-X-O

AIDC-13	**Automate your data centre fabric: Network-as-Code | Nexus Dashboard | APIs**	Manual fabric operations are slow, error-prone, and don't scale. Learn how Cisco Nexus One uses Nexus Dashboard APIs and Network-as-Code to automate data centre fabric deployments—eliminating manual errors, accelerating rollouts, and scaling your core network without added complexity.	Cisco N9364F-SG3-L (Plexiglass G300 liquid-cooled switch), Cisco N9364F-SG3 (Plexiglass G300 air-cooled switch), Cisco N9164F-NS6 Spectrum-6 Switch (Plexiglass), G300 ASIC
AIDC-14	**Unify ops from fabric to Kubernetes: Nexus One | Isovalent Network Bridge**	Experience total visibility with Nexus Dashboard, offering centralised management from fabrics to Kubernetes. Isovalent complements this by delivering cloud-native observability, security, and performance. The Isovalent Network Bridge facilitates smooth transitions, maintaining continuity for migrated workloads across your entire environment. Discover how to streamline your infrastructure with our integrated approach now.	Cisco Nexus One, Nexus Dashboard, Cisco Isovalent Cilum, Cisco Isovalent Network Bridge
AIDC-15	**Shield from vulnerabilities: Live Protect | Cisco Nexus One**	Live Protect shields Cisco N9000 switches from CVEs and zero-day threats in real time. Powered by eBPF, it closes the patching gap instantly. No reboots. No downtime. No emergency maintenance windows. Deploy surgical protection now, patch later. This is data centre network security, reimagined.	Cisco N9000 Series Switches, Nexus One, Nexus Dashboard, Live Protect
AIDC-16	**Fuse security with networking: Nexus Dashboard | Smart Switches | Hypershield**	Stop bolting security onto your network. Cisco Nexus One fortifies infrastructure with Live Protect. The N9300 Smart Switch with Cisco Hypershield fuses security and networking to reduce hair pinning and streamline operations. Plus, native Nexus Dashboard integration provides the visibility needed for a modern, highly secure network environment.	N9324C-SE1U Smart Switch (plexiglass), N9348Y2C6D-SE1U Smart Switch (Plexiglass)

AIDC-17	**Maximise GPU utilisation: Cisco Silicon One**	AI workloads demand extreme scale and efficiency. Cisco Silicon One powers AI-ready data centres with programmable architectures that optimise GPU utilisation and reduce job completion times. Experience how shared packet buffers and intelligent collective networking deliver the performance, security, and energy efficiency required for distributed AI.	Cisco Silicon One
AIDC-18	**Maximise data centre reliability: Cisco Pluggable Optics**	AI performance starts at the optical layer. See how Cisco pluggable optics—including Silicon Photonics, LPO integrated designs, and BiDi innovations—enable high-performance connectivity across AI front-end and back-end networks, with optics link health monitoring to keep everything running when it matters most.	Cisco Pluggable Optics, Optics portfolio, Cisco Optics QSFP-DD 400G BiDi, Cisco Optics QSFP28 100G-SR, Cisco Optics QSFP112 400G DR4, Cisco Optics QSFP112 400G VR4, Cisco Optics OSFP 800G DR8, Cisco Optics OSFP 800G VR8, Cisco Optics QSFP-DD 8x100G FR, Cisco Optics QSFP-DD 2x400G FR4, Cisco Optics QSFP-DD-400G HIGH-TX POWER, Cisco Optics OSFPR 800G DR8 (riding heat sink), Cisco Optics OSFP L800G MMF (LPO), Cisco Optics OSFP L800G DR8 (LPO), Cisco Optics OSFP 800G 2x400 LR4, Cisco Optics OSFP 800G 2x400 FR4, Cisco Optics OSFP 1.6T DR8P, Cisco Optics OSFPR 1.6T DR8P, Cisco Optics OSFP 2x800G FR4, Cisco Optics OSFPR 2x800G FR4, Cisco Optics QSFP-DD 800G ZR/ZR+, Cisco Optics OSFP 800G ZR/ZR+, Cisco Silicon Photonics 300mm wafer, Cisco ONS QSFP OTDR pluggable, Cisco Silicon One A100, Cisco Silicon One K100, Cisco Silicon One E100, Cisco Silicon One P200, Cisco Silicon One G300, Cisco 8223-64E-M, QSFP-DD 800G ZR/ZR+, OSFP 800G ZR/ZR+, QSFP-DD 2x400G FR4, QSFP-DD 8x100G FR, OSFP 800G DR8, OSFP 2x400G FR4, OSFP 800G LPO, Cisco Silicon One P200, Cisco Silicon One G200, Cisco OSFP 1.6T DR8, Cisco OSFPR 2x400G LR4

AIDC-19	**End-to-end networking from silicon to containers: Cisco AI Networking**	Power AI at scale with networking that connects silicon, fabrics, clusters, and containers, keeping workloads fast, visible, and resilient.	Cisco Cloud Control, Cisco Nexus One, Nexus Dashboard, Nexus Hyperfabric, Cisco N9300 Series AI Networking Switches, Cisco N9100 Series AI Networking Switches, Splunk, N9300 Smart Switches, Hypershield, Network-as-Code
AIDC-20	**Improve power efficiency: Power and cooling solutions**	Cisco is working across the ecosystem to provide power distribution and liquid cooling architectures that are essential for AI-ready data centres. We are demonstrating how these integrated systems work together to maximise energy utilisation and end-to-end liquid cooling architectures for optimised data centre performance.	Fault managed power (FMP); AI PODs, 51.2T Switch, rear door heat exchange cooling, direct to chip cooling
AIDC-21	**Services for AI-ready data centres: Accelerate time to first intelligence**	Cisco Services accelerates your AI journey by building and optimising AI-ready data centres. We use expert guidance and automation to reduce the gap between hardware delivery and operational use cases. Experience faster Time to First Intelligence and achieve measurable business value with our proven, efficient deployment methodologies.	Cisco IQ
AIDC-22	**Simplify with cloud management: Nexus One| Nexus Hyperfabric | Full-stack AI**	Transform your data centre with Cisco Nexus Hyperfabric, cloud-managed Nexus One, the ultimate "easy button" for modernisation. Experience a full-stack AI solution that's simple to deploy and manage, featuring dynamic resource allocation to meet the evolving demands of your business.	Cisco HF6100-32D, Cisco HF6100-60L4D, Cisco HF6100-64ED
AIDC-23	**AI applications for the edge: Cisco Unified Edge**	Your business is asking for AI—how fast can you deliver it? Explore real AI use cases running on Cisco Compute and Unified Edge and understand the full solution architecture across Cisco and ISV ecosystem partners so you can deploy faster and with confidence.	Cisco Unified Edge

AIDC-24	**Deploy infrastructure at cloud speed: Stack Automation by Quali**	Move from rack to app in hours, not weeks. With Stack Automation by Quali, co-developed with Cisco, your team can automate the deployment of software and full-stack solutions on-prem and to the cloud with out-of-the-box, Cisco-validated blueprints, or customise them with your iMac repositories and agentic tools, to accelerate time-to-value.	Stack Automation by Quali
AIDC-25	**Migrate to Nutanix virtualisation: Cisco Compute Hyperconverged with Nutanix**	Modernise your infrastructure to keep pace with AI. See how Cisco UCS and Nutanix Cloud Platform work together to unify Day 1 management, simplify virtualisation with AHV, and accelerate AI workloads with Cisco AI PODs from core to edge.	Cisco Compute Hyperconverged with Nutanix

Cisco Stand > Centre Stage
Join us in the Cisco Stand to hear from leaders and customers during sessions that will help you drive greater business impact and stay ahead of industry trends.

Cisco Stand > Cisco Customer Experience
Cisco Services is revolutionising how technology is deployed, adopted, and operated, blending agentic AI with human expertise to drive faster time-to-value, with every interaction personalised, proactive, and predictive.

LOCATION	DEMO NAME	DESCRIPTION	PRODUCTS AND SERVICES
CX-01	**Cisco IQ: Where human expertise meets agentic intelligence**	Get hands-on experience with Cisco IQ and see how it transforms IT support and lifecycle management. Understand how complete landscape clarity, proactive resilience, and rapid issue resolution combine to accelerate your operational excellence.	Cisco IQ
CX-02	**AI-powered support with Cisco IQ: Personalised | Proactive | Predictive**	Experience a new era of IT support with agentic automation. Powered by Cisco IQ, our AI-driven approach delivers complete landscape clarity, proactive resilience, rapid resolution, and personalised case management to maximise uptime and minimise risk. With Cisco Support, you accelerate operational excellence and elevate your team's technical proficiency, while also achieving efficiency by pinpointing exactly where to invest for maximum impact.	Cisco IQ
CX-03	**Resilient Infrastructure Services: Accelerate**	AI-enabled threats have reduced exploit windows to mere hours.	Cisco IQ

	resilience against AI-powered threats	Discover how Cisco Resilient Infrastructure Services, powered by the Cisco IQ step-by-step playbook, hardens your environment against these evolving threats. Maximise visibility, mitigate software and structural risks by fast-tracking exposure assessments, modernising aging infrastructure, and evolving your SOC to defend at machine speed.	
CX-04	**Customer Success: Adopt | Automate | Accelerate**	Experience the future of intelligent operations with Cisco Customer Success. Discover how our Technical Specialists leverage Cisco IQ and demonstrate the value of AgenticOps with Multi-Domain Controllers to turn telemetry and data into proactive outcomes. Visit our kiosk for demos, explore adoption roadmaps, and see how actionable, unified health checks optimise performance and provide a clear blueprint for operationalising AI across your Cisco architectures.	Cisco IQ
CX-05	**Professional services with Cisco IQ: Accelerate value | De-risk | Scale**	Discover how to de-risk operations, accelerate delivery, and achieve measurable results by leveraging 40 years of knowing how to design it right, migrate it clean, and deliver it faster. Explore innovations like Services as Code and automated validation, helping you streamline operations and execute changes 2.4x faster. Optimise capacity, strengthen reliability, and collapse the learning curve with data-driven best practices and guidance.	Cisco IQ

Cisco Stand > Cisco Industries

Explore how Cisco solves business challenges using the Cisco Industry Use Case Explorer. This interactive tool lets you browse use cases across industries including retail, healthcare, manufacturing, financial services, government, and education and highlights the products and architectures that support each business outcome.

LOCATION	DEMO NAME	DESCRIPTION	PRODUCTS AND SERVICES
IND-01	**Drive industry impact: Industry Use Case Explorer**	Discover how Cisco solves your industry's toughest challenges. This interactive tool maps industry-specific use cases across education, healthcare, manufacturing, retail, financial services, and government—connecting your business challenges directly to Cisco products, solutions, and partner engagements.	Industries

Cisco Stand > Cisco Platform Advantage

The stakes of the agentic era have never been higher; neither has the opportunity. Step into an experience that shows what it means to power, secure, and run your agentic enterprise. Get hands-on with Cisco Cloud Control, the platform that makes AgenticOps real. Leave with a personalised demo roadmap.

LOCATION	DEMO NAME	DESCRIPTION	PRODUCTS AND SERVICES
CPA-01	**Power your agentic enterprise**	The agentic era demands infrastructure built for it. In this experience, see how Cisco delivers the full stack—silicon, systems, software—with security and observability fused into every layer, and how Silicon One keeps pace with fast-moving AI standards. Come see the foundation your AI will run on.	Infrastructure/Silicon One
CPA-02	**Secure your agentic enterprise**	Frontier AI compressed the exploit window from weeks to hours. The median patch still takes 43 days. This experience walks you through three priorities that answer it: advance your operating model for resilient infrastructure, modernise your infrastructure, elevate your security posture. Come see continuous defense in practice.	Security, Cisco AI Defense
CPA-03	**Run your agentic enterprise with Cisco Cloud Control**	Watch AgenticOps in action. AI agents investigate and execute across your entire estate at machine speed, while your team governs decisions and risk. Cisco Cloud Control: the unified platform where autonomous infrastructure becomes operational reality.	Cisco Cloud Control
CPA-04	**Get started with Cisco Cloud Control**	Step into the future of IT operations as Cisco Cloud Control with AI Canvas brings intelligent AI agents to life—autonomously executing complex tasks at machine speed across networking, security, observability, compute, and collaboration, all while keeping humans in control. Experience Cisco Cloud Control's AI-native platform firsthand, where a single, unified interface seamlessly connects your entire Cisco estate, transforming complex management into effortless simplicity.	Cisco Cloud Control

Cisco Stand > Cisco Security
Cisco shines when security meets the network. Learn why Cisco and Splunk are innovating to deliver security solutions that drive digital resilience for your organisation. Understand our approach for leveraging AI to power your defenses for transformational cloud protection, user protection, and security analytics and response.

LOCATION	DEMO NAME	DESCRIPTION	PRODUCTS AND SERVICES
AIDC-04	**Stop zero-day and encrypted threats: Cisco Hybrid Mesh Firewall | Cisco Firewall**	See how Cisco Firewall uncovers threats in encrypted traffic and applies AI-driven, threat-aware policies. Leverage SnortML and user trust scores to enforce dynamic controls and stop advanced attacks. Gain deeper visibility, make smarter decisions, and prevent threats earlier with intelligent, context-aware firewalling across your network.	Hybrid Mesh Firewall, Cisco Firewall
AIDC-05	**Enable segmentation everywhere: Cisco Hybrid Mesh Firewall | Cisco Smart Switch**	Segmentation that meets you where you are. Learn how Cisco Hybrid Mesh Firewall can help you on your segmentation journey by providing agentless segmentation using Cisco Smart Switch and agent-based segmentation for your traditional and modern applications including Kubernetes, thereby minimising attack surface and stopping unauthorised lateral movement.	Hybrid Mesh Firewall, Cisco Smart Switch
AIDC-06	**Distributed security, fused into every layer: Cisco Security**	As attackers use AI to discover and launch attacks faster, traditional defenses can fall short. See how Cisco Hybrid Mesh Firewall protects east-west traffic and workloads across campus, data centre, and cloud—distributing security throughout the environment, fusing it into the network fabric, and unifying policy management in Cisco Cloud Control.	Hybrid Mesh Firewall, Cisco Firewall
AIDC-07	**Accelerate SecOps with network data: Splunk Enterprise Security | Cisco Firewall**	Leverage network and firewall telemetry to accelerate threat detection and response. Integrate firewall logs into Splunk, perform federated search across environments, and enable advanced threat hunting with enriched context. Correlate signals, uncover hidden threats, and act faster with unified visibility across network infrastructure and security operations.	Splunk, Cisco Firewall
AIDC-08	**Shield workloads and infrastructure: Cisco Hypershield | Live Protect**	AI-assisted exploitation is compressing the time between vulnerability disclosure and attempted exploitation, from weeks to hours or minutes. See how Live Protect helps customers reduce	Cisco Hypershield, Live Protect

		exposure to selected vulnerabilities by applying Cisco-validated runtime protections to protect Cisco infrastructure as well as customer applications.	
AIDC-09	**Unify policy across every firewall: Cisco Cloud Control | Mesh Policy Engine**	See the agent-first operating model for Security in Cisco Cloud Control that proactively identifies upcoming issues, recommends resolutions tailored to your environment, and easily accepts them in one-click. Discover how to unify policies across disparate multi-vendor firewalls to close security gaps without adding more operational strain and costly rip-and-replace projects.	Cisco Cloud Control, Mesh Policy Engine
DR-05	**Optimise AI at scale: Splunk Agent Observability | AI SRE**	Discover how to reduce MTTR by automatically detecting, troubleshooting, and remediating issues—while keeping you in the loop—with AI agents and assistants. Learn how to evaluate, observe, and control AI agent behavior and costs to reduce hallucinations, prevent inaccurate actions, and ensure the reliability of the GPUs, vector databases, and supporting infrastructure that power your AI applications.	Splunk Observability
DR-06	**Optimise network performance: Splunk Observability | Cisco Networking**	Is it the app or the network? See how Cisco brings application and network visibility together across Splunk and Cisco ThousandEyes, from the infrastructure you operate to the ISPs, DNS, and cloud paths you don't. Explore how app and network teams can work from the same evidence to find and fix problems faster.	Splunk Observability, Cisco ThousandEyes, Catalyst Center, Meraki, Nexus
FPW-05	**Secure AI apps and agents: Cisco AI Defense**	AI agents introduce new attack surfaces. See how Cisco AI Defense secures applications and agents from development through deployment using AI asset governance, agentic red team testing, real-time monitoring, and custom agentic guardrails.	Cisco AI Defense
FPW-06	**Simplify SASE with AgenticOps: Cisco Cloud Control | Cisco SASE**	Discover how Cisco SASE simplifies management, deployment, and procurement with a unified management of both SSE and SD-WAN, as well as site licenses, and a single SASE offer.	SASE, Cisco Cloud Control
FPW-07	**Automate identity-based segmentation: Cisco Cloud Control | Cisco ISE**	As attacks span across campus and branch networks faster, segmentation limits lateral movement and shrinks the blast radius. But implementation is hard: identity counts are exploding;	Cisco Cloud Control, Cisco ISE

		dependencies keep changing, and policies need monitoring. See how Cisco Cloud Control uses telemetry and ISE context to discover traffic, recommend policy, validate, and deploy controls—turning manual work into continuous protection.	
FPW-08	**Close the identity trust gap: Cisco Duo | Identity in Cisco Cloud Control**	Identity is the foundation of Zero Trust—and the source of most breaches. See how Cisco's security-first IAM solution stops identity-based attacks with end-to-end phishing resistance, protects Active Directory and legacy applications, and fortifies Entra ID. Discover how Cisco Identity Intelligence adds continuous risk insights, visibility, and dynamic access policies across your security portfolio.	Identity, Cisco Cloud Control, Duo
SGC-02	**Protect critical infrastructure: Cisco Service Provider Security**	Learn how Cisco protects the AI-driven network by leveraging real-time DDoS mitigation and quantum-resistant hardware security to ensure data integrity from the ground up. By combining deep traffic visibility with the predictive power of Secure Network Analytics and Edge Protect, defend your network against the threats of tomorrow.	Cisco Secure DDoS Edge Protection, Cisco Live Protect, SP Security Solutions

Cisco Stand > Digital Resilience

Disruption is inevitable. Downtime isn't. Cisco provides complete visibility across your digital footprint, combining the power of the network with security, observability, and assurance to keep your organisation securely up and running, no matter what.

LOCATION	DEMO NAME	DESCRIPTION	PRODUCTS AND SERVICES
DR-01	**Unlock intelligence at machine speed**	Your entire digital enterprise—one wall. The Pulse Wall visualises live traffic, threats, and performance across networking, infrastructure, and apps. See Cisco Data Fabric and Splunk in action, and watch agentic AI respond to real-time security and observability events.	Splunk Platform, Cisco Data Fabric, Splunk Enterprise Security Premiere, Observability Cloud, AppD, ITSI, Splunk Enterprise Security, SOAR, Asset and Risk Intelligence (ARI), Splunk Attack Analyzer (SAA), Splunk Observability Cloud, Splunk ITSI, Splunk AI, Splunk Platform
DR-02	**Build better dashboards with Splunk**	Drowning in data but starving for context? Splunk dashboards transform complex telemetry into clear, actionable insights in real time. Explore interactive dashboards that surface what matters—so you can make better decisions and respond faster when it counts.	Splunk Enterprise Security, SOAR, Asset and Risk Intelligence (ARI), Splunk Attack Analyzer (SAA), Splunk Observability Cloud, Splunk ITSI, Splunk AI, Splunk Platform

DR-03	**Unlock machine data for agentic action: Cisco Data Fabric powered by Splunk**	Cisco Data Fabric powered by Splunk unifies data and insights at scale with better economics no matter where data lives. This demo will showcase how we do this with new innovations across data management, federation, and machine data lake to build the data foundation to enable the agentic enterprise.	Splunk Platform, Cisco Data Fabric
DR-04	**Federate and correlate data at scale: Cisco Data Fabric powered by Splunk**	Cisco Data Fabric powered by Splunk fuels AgenticOps with contextualised machine data and AI native capabilities to active agentic workflows. Explore key innovations such as Splunk AITK, Splunk AI Assistant, Splunk MCP Server and Cisco Cloud Control with AI Canvas as critical building blocks to enable the agentic enterprise.	Splunk Platform, Cisco Data Fabric
DR-05	**Optimise AI at scale: Splunk Agent Observability | AI SRE**	Discover how to reduce MTTR by automatically detecting, troubleshooting, and remediating issues—while keeping you in the loop—with AI agents and assistants. Learn how to evaluate, observe, and control AI agent behavior and costs to reduce hallucinations, prevent inaccurate actions, and ensure the reliability of the GPUs, vector databases, and supporting infrastructure that power your AI applications.	Splunk Observability
DR-06	**Optimise network performance: Splunk Observability | Cisco Networking**	Is it the app or the network? See how Cisco brings application and network visibility together across Splunk and Cisco ThousandEyes, from the infrastructure you operate to the ISPs, DNS, and cloud paths you don't. Explore how app and network teams can work from the same evidence to find and fix problems faster.	Splunk Observability, Cisco ThousandEyes, Catalyst Center, Meraki, Nexus
DR-07	**Accelerate threat detection: Splunk Enterprise Security | Cisco Firewall**	Leverage network and firewall telemetry to accelerate threat detection and response. Integrate firewall logs into Splunk, perform federated search across environments, and enable advanced threat hunting with enriched context. Correlate signals, uncover hidden threats, and act faster with unified visibility across network infrastructure and security operations.	Firewall, Splunk
DR-08	**Defend at machine speed: Splunk Enterprise Security**	Unify security data, analytics, tools, and AI to automate routine tasks, surface complex insights, and proactively mitigate risk. Explore capabilities of Enterprise Security	Splunk Enterprise Security

		including SOAR, UEBA, Exposure Analytics, Detection Studio, and more.	
DR-09	**Assure cloud and SaaS: Cisco ThousandEyes**	Cloud environments are notoriously opaque, until something breaks. See how Cisco ThousandEyes Cloud Insights delivers AI-powered visibility inside AWS and Azure, connecting cloud performance to broader data centre and end-to-end visibility so you can assure the full path, not just your piece of it.	Cisco ThousandEyes, Assurance from domain to end-to-end visibility
DR-10	**Assure wireless experiences: Cisco ThousandEyes I Always-On Assurance**	Wireless issues are notoriously hard to pin down. See how Cisco ThousandEyes surfaces key Wi-Fi events with new Always-On Assurance capabilities, giving you the targeted visibility to cut through the noise and troubleshoot faster before users lose patience.	Cisco ThousandEyes, Assurance from domain to end-to-end visibility
DR-11	**Power network assurance with AI: Cisco AI Assistant I Cisco ThousandEyes MCP Server**	Explore the Cisco AI Assistant for Assurance, featuring event summarisation, dashboards, and Cisco AI Canvas. Use natural language to monitor, troubleshoot, and resolve user experience issues faster and more intuitively than ever.	Cisco ThousandEyes, Assurance from domain to end-to-end visibility
DR-12	**Assure end-to-end connectivity: Cisco ThousandEyes I Meraki I Catalyst Center**	What if you could resolve issues before users notice? See how Cisco ThousandEyes Network Assurance uses AI-driven predictions and agentic workflows to identify and resolve network issues faster, keeping your enterprise connected without the firefighting.	Cisco ThousandEyes, Assurance from domain to end-to-end visibility
DR-13	**Services for digital resilience: Unified observability for infrastructure**	Explore the latest Cisco Services that deliver digital resilience through deep expertise in designing and implementing unified observability across AI and network infrastructure. Leveraging validated best practices at every stage, we enable correlation of application, compute, and network telemetry for precise issue isolation from GPU to network edge, minimised alert noise, and dramatically reduced time to resolution.	Cisco ThousandEyes, Splunk Observability, Cisco IQ
IND-01	**Drive industry impact: Industry Use Case Explorer**	Discover how Cisco solves your industry's toughest challenges. This interactive tool maps industry-specific use cases across education, healthcare, manufacturing, retail, financial services, and government—connecting your business challenges directly to Cisco products, solutions, and partner engagements.	Industries

Cisco Stand > Future-Proofed Workplaces

Agentic AI is reshaping how and where work happens. Is your workplace ready? Experience how Cisco uniquely unifies networking, security, observability, and collaboration to power future-proofed workplaces that deliver agile, resilient experiences for employees, customers, and IT teams.

LOCATION	DEMO NAME	DESCRIPTION	PRODUCTS AND SERVICES
FPW-01	**Accelerate frontier model threat response across your network: Secure campus | Unified branch | Post Quantum Readiness**	Secure networking just got a lot more fun. Join us for an interactive video experience where you can learn key secure networking concepts, earn points for the Cisco Live Challenge in the mobile app; and explore our recent secure networking innovations that enable success in a post-Mythos world.	Enterprise Networking, Security
FPW-02	**Shield unpatched vulnerabilities: Live Protect | Smart Switches | Secure Routers | Catalyst Wireless**	Security teams struggle to patch critical network vulnerabilities quickly because traditional software upgrades require maintenance windows and can disrupt operations. See how Live Protect delivers targeted protections to smart switches and, coming soon, secure routers, helping reduce exposure, preserve uptime, and give teams more time to complete full upgrades safely.	Live Protect on Smart Switches, Live Protect coming on Secure Routers
FPW-03	**Simplify and secure your campus: Smart Switches | Cloud-Managed Fabric | Cisco Cloud Control**	Network teams often manage campus fabrics, switch configurations, and command-line workflows through separate tools, increasing complexity, slowing changes, and creating inconsistent policies. See how Cisco Smart Switches, Cloud-Managed Fabric, and Cloud CLI unify operations, simplify deployment, accelerate troubleshooting, and help teams secure every campus site with consistent control and visibility.	Smart Switches, Cloud-Managed Fabric
FPW-04	**Secure and automate branch and WAN: Unified branch | Secure Routers | Multicloud Fabric**	See how Cisco is transforming the branch with Cisco Unified Branch and AgenticOps to automate operations, integrate security and quantum resilience to protect distributed environments, and Cisco Multicloud Fabric to simplify site-to-cloud and cloud-to-cloud connectivity.	Secure Routers, Unified Branch, Multicloud Fabric, Agentic Workflows
FPW-05	**Secure AI apps and agents: Cisco AI Defense**	AI agents introduce new attack surfaces. See how Cisco AI Defense secures applications and agents from development through deployment using AI asset governance, agentic red team testing, real-time monitoring, and custom agentic guardrails.	Cisco AI Defense

FPW-06	**Simplify SASE with AgenticOps: Cisco Cloud Control | Cisco SASE**	Discover how Cisco SASE simplifies management, deployment, and procurement with a unified management of both SSE and SD-WAN, as well as site licenses, and a single SASE offer.	SASE, Cisco Cloud Control
FPW-07	**Automate identity-based segmentation: Cisco Cloud Control | Cisco ISE**	As attacks span across campus and branch networks faster, segmentation limits lateral movement and shrinks the blast radius. But implementation is hard: identity counts are exploding; dependencies keep changing, and policies need monitoring. See how Cisco Cloud Control uses telemetry and ISE context to discover traffic, recommend policy, validate, and deploy controls—turning manual work into continuous protection.	Cisco Cloud Control, Cisco ISE
FPW-08	**Close the identity trust gap: Cisco Duo | Identity in Cisco Cloud Control**	Identity is the foundation of Zero Trust—and the source of most breaches. See how Cisco's security-first IAM solution stops identity-based attacks with end-to-end phishing resistance, protects Active Directory and legacy applications, and fortifies Entra ID. Discover how Cisco Identity Intelligence adds continuous risk insights, visibility, and dynamic access policies across your security portfolio.	Identity, Cisco Cloud Control, Duo
FPW-09	**Turn your buildings into smart spaces: Cisco Spaces**	Turn your building into an intelligent workplace. See how the Cisco stack—powered by Cisco Networking, Collaboration, and Spaces—delivers indoor navigation, asset tracking, occupancy insights, guest onboarding, and automated AI workflows from a single platform.	Cisco Spaces
FPW-10	**Work: Agent-assisted operations: Cisco AI Assistant | Agentic workflows | Deep reasoning**	Discover how to leverage AgenticOps to troubleshoot, validate, and optimise your campus and branch networks proactively. In this demo, you will learn how AgenticOps transforms wired and wireless operations from manual, reactive tasks into intelligent, automated workflows that save time and improve user experience.	Cisco Cloud Control, Cisco Assurance

FPW-11	**Scale: MCP-powered intelligence: MCP for Catalyst and Meraki | MCP for ThousandEyes**	See how Cisco MCP Servers connect your AI tools and platforms with networking data and capabilities across Cisco ThousandEyes, Cisco Meraki, and Cisco Catalyst Center. Discover how a common, AI-ready interface enables agents and assistants to access network context, surface insights, and take action across domains—helping unlock new possibilities for agent-powered network operations.	
FPW-12	**Delegate: Agent-driven automation: Cisco Cloud Control | Actions | Experience metrics**	For decades, Cisco has set the standard for network expertise-the same rigor behind CCIE now grounds our agents. Discover how Cisco agents don't just surface insights but work to identify root causes, understand impact across the network, recommend actions, and autonomously resolve issues—dramatically reducing MTTR from days to minutes.	
FPW-13	**Services for future-proofed workplaces: Proactive resilience and rapid resolution**	Experience how to achieve complete landscape clarity with Cisco IQ. Stop managing noise and start driving the future. AI-powered dashboards provide personalised analytics and security assessments to proactively identify and remediate blind spots. Future-proof your workplace with intelligent asset insights, certificate management, peer-benchmarking, and quantum-readiness assessments for total peace of mind.	Cisco IQ for Landscape Clarity (Intelligent Asset Management + Quantum-Safe Infrastructure Network Assessments).

FPW-14	**Wireless | Switches | Routers | Collaboration**	Get hands-on with the workplace networking and collaboration hardware powering the AI era. Explore our next-generation routing, switching, wireless, and rugged enterprise portfolio. Paired with advanced cameras and collaboration devices, this infrastructure delivers the high performance and embedded security required for modern branch, campus, and industrial environments.	C9350 Smart Switches (24Y), C9350 Smart Switches (48HX), C9550 Smart Switch (48L4CD), C9550 Smart Switch (64C), C9550 Smart Switch (96L4D), Catalyst 9200 CX, Catalyst 9606R, Cisco 8100 Secure Router - 8110L-MX, Cisco 8100 Secure Router - 8151H-C, Cisco 8200 Secure Router – 8211, Cisco 8200 Secure Router – 8225, Cisco 8200 Secure Router - 8235-MX, Cisco 8300 Secure Router - 8355-MX, Cisco 8600 Secure Router – 8650, Wi-Fi 7 Access Points: CW9171I, CW9172H, CW9172I, CW9174E, CW9176D1 Wi-Fi 7 CW9176I, CW9177I Outdoor CW9178I, CW9179F CW9800H1-MCG, Campus Gateway CW9800L, CW-ANT-T-D2-D8 Antenna Desk Phone 9871, Desk Pro G2, Desk Pro G3 IE-3100H-8T-E, IE-3500H-8T-E. IR1001, IR1005, IR1101-K9, IW9165DH-B, IW9165DH-B IW9165E-A-WGB, IW9165E-A-WGB, IW9167EH-B, IW9167EH-B, MS130R Switch, MS MS150 Switch, MV23, MV73, MV84X Room Kit G3, Room Kit Pro G2, Room Vision PTZ, Silicon One A100 Chip., Silicon One E100 Chip, Silicon One K100 Chip, Wireless Phone 9821
FPW-15	**Build post-quantum resilience today: Secure Routers | Smart Switches | Wi-Fi 7**	See how Cisco is preparing enterprise networks for the quantum era with full-stack post-quantum cryptography (PQC). This demo showcases quantum-safe protection across the network—from Secure Boot and device integrity to IPsec and MACsec data-in-transit—helping defend against emerging threats such as “harvest now, decrypt later” while enabling organisations to build quantum resilience today.	Post Quantum Cryptography on Switches, Routers, Wireless

FPW-16	**Scale agentic AI in campus: Cisco Silicon One**	Agentic AI is rewriting the rules of network demand. See how Cisco Silicon One's programmable architecture delivers the hardware scale, congestion isolation, and identity-native visibility needed to handle AI-driven flow density and policy complexity—keeping your campus secure, optimised, and future-proofed.	Cisco Silicon One
FPW-17	**Supercharge outdoor wireless: Outdoor Wi-Fi 7 | Smart cameras**	Don't let walls limit your network. Cisco's CW9177 Series Wi-Fi 7 Access Points deliver reliable, enterprise-grade outdoor connectivity—from parking lots to EV charging stations. See how AI-driven management simplifies deployment and security beyond the building footprint.	Wireless
FPW-18	**Power AI-ready manufacturing with AgenticOps: Machine vision | Security | AgenticOps**	Don't just imagine the factory of the future—experience it. See how a high-performance, resilient, AI-ready industrial network delivers virtualised operations and machine vision-powered quality control on a fully functional factory floor, right here in the World of Solutions.	IE-3500-8U3X, IE-3500-8t3s, Cisco Cyber Vision, Splunk Secure Equipment Access
FPW-19	**Extend your network further, faster: Cisco Wireless with URWB**	Need more reliability than standard Wi-Fi? Ultra-Reliable Wireless Backhaul delivers near zero latency and continuous roaming for your most demanding applications. Cisco Wireless with URWB lets you run both technologies simultaneously from a single access point, simplifying operations with unified management.	IW9165E, IW9167, CW9176I Wireless Controller
FPW-20	**Extend your IT networks anywhere: Rugged IE Switches | Cameras | APs | Dashboard**	Bring enterprise-grade networking to the harshest environments. Cisco Rugged IE Switches on the Meraki dashboard deliver effortless management. Use the intuitive cloud platform to control PoE devices in extreme conditions—whether cold, hot, or humid—ensuring a resilient, high-performance network that stands up to any environment.	IE3500 IE3100 IE9300 Meraki Dashboard MV84X MV73X MV93X

FPW-21	**Industrial product portfolio**	Experience industry-leading solutions to simplify and scale IT for industrial networks. Rely on tougher, smarter IT solutions that bring IT and OT together, enhance efficiencies, and pave the way for AI-ready industrial operations.	IE3100 IE3100H IE3105 IE3500 IE3505 IE3500H IE9300 IR1001-G2 IR1101 IR8340 IR1835, IR8140 P-5GS6-R16SA-GL P-LTEA7-EAL P-LTE-450 P-LTE-GB IW9165D IW9165E IW9167E IW9167I IW9167E-HZ
FPW-22	**Power your roadway and rail assets: Rugged IR Routers | SD-WAN | Next-Generation Firewall (NGFW)**	Roads, intersections, and rail lines can't afford downtime. See how Cisco powers secure, reliable connectivity across transportation infrastructure—enabling smart systems, seamless communication, real-time data sharing, and enhanced safety and protection where it matters most.	SD-WAN, IR1101, Catalyst Center, IE3500, Meraki Camera MV93X
FPW-23	**Scale OT with Cisco Cyber Vision: OT visibility | Segmentation | Secure remote access**	Eliminate blind spots in your industrial networks. Cisco OT Defense delivers visibility tailored for OT and secure, least-privilege remote access to assets. See how Splunk acts as a unified SIEM platform, consolidating IT and OT data for real-time threat monitoring, analytics, and automated response.	Cisco Cyber Vision, SEA, Splunk, OT Security
FPW-24	**Build resilient power grids: Substations | Distribution | Renewables**	A grid failure isn't just an outage; it's a crisis. See how Cisco delivers secure, reliable connectivity across substations, distribution, and renewables—enabling real-time remote monitoring, resilient operations, and cybersecurity, while optimising performance and supporting smart grid transformation for modern energy infrastructure.	IR1101, IR8340, IE9300, P-5GS6-R16SA-GL, P-LTEA7-EAL, P-LTE-450, P-LTE-GB, Field Network Director, SD-WAN
FPW-25	**Unified IT management: Cisco Cloud Control | Collaboration Control Hub | AI Canvas**	See how Cisco is redefining IT management with Cloud Control, Collaboration Control Hub, and AI Canvas. Explore a unified, AI-powered approach that brings visibility, insights, troubleshooting, and action across collaboration, devices, networks, and cloud infrastructure-helping IT teams manage complexity faster and move toward autonomous operations.	Cisco Cloud Control + Control Hub

FPW-26	**Empower teams, delight customers: Cloud Contact Center | On-Premises**	Explore Cisco's AI-powered contact centre experience across cloud and on-premises environments. See how agents, supervisors, and administrators gain visibility, streamline workflows, and improve efficiency. Discover real-time assistance, reporting, and Topic Analytics that turn operational data into actionable insights for better team performance and customer interactions.	AI for agents and supervisors | Webex Contact Center
FPW-27	**Design your intelligent workplace: Cisco Workplace Designer**	Explore how Cisco helps customers turn goals into a design—from the network to the meeting room. See how Workplace Designer transforms wireless needs and room insights into proactive recommendations and an integrated plan across networking, collaboration, and Cisco Spaces—helping improve workplace experiences before employees feel the impact.	Workplace Designer
FPW-28	**Meet on any platform with Cisco devices: Microsoft Teams Rooms | Zoom Rooms**	The best Microsoft Teams and Zoom experiences are on Cisco collaboration devices. Get seamless interoperability, powered by NVIDIA, with industry-leading audio and video intelligence that delivers distance zero meeting experiences. And now, Cisco devices are certified under the Microsoft Device Ecosystem Platform (MDEP)—ensuring trusted, future-ready Teams Rooms.	Meeting interoperability | Microsoft Teams Rooms
FPW-29	**Managing the AI and human workforce: AI Workforce Engagement Management**	Optimise your entire contact centre workforce from natively within Webex Contact Center. An AI-first Workforce Engagement Management (WEM) suite enables leaders to manage quality programs, build optimised schedules, and offer performance insights as well as onboarding tools to agents. Unify WEM applications, uncover interaction insights, and drive smarter decisions for increased engagement and better customer experiences.	Webex AI Agent | Digital engagement | Self-service

FPW-30	**Scaling relationships in the AI era: Dialog | AI Agent Studio | AI Agent 360**	Discover new Dialog OS, Cisco's agentic operating system for transforming siloed conversational AI agent interactions into hyper-personalised customer relationship managers. See how within AI Agent Studio you can build experiences, such as AI Concierge, to orchestrate agents and connect intelligence to deliver highly conversational AI agents. With AI Agent 360, enterprises can access end-to-end observability, security, and monitoring to help teams govern and optimise every interaction.	Webex AI Agent | Digital interactions
FPW-31	**Power agentic experiences with AVoIP: Ceiling Microphone Pro | Room Vision PTZ | Room Kit Pro G2**	Power agentic experiences and cinematic meetings with Cisco AVoIP. Bring every participant closer with the Ceiling Microphone Pro, Room Kit Pro G2, and Room Vision PTZ camera. This flexible, integrated solution creates more equitable meetings while simplifying deployment and management.	Room Kit EQX | Room Vision PTZ | Ceiling Microphone Pro
FPW-32	**Productivity at the desk: Desk Series | Phones | Headsets**	Create distraction-free collaboration spaces with Cisco Desk Series, designed for audio and video excellence. Transform workspaces with the Desk Phone 9800 Series and the new Wireless Phone 9821, powered by PhoneOS for seamless, flexible communication. Pair with Cisco's range of wired, wireless, and DECT headsets for wherever you work.	Cisco Headsets | Wireless phones
FPW-33	**Transform workplace experiences: Roadmap to real estate power optimisation**	The workplace of the future runs on smarter power. See how Cisco's Energy Networking Systems bring together Fault Managed Power and PoE across collaboration devices, switches, lighting, and sensors—optimising energy use, delivering real-time occupancy insights, and creating sustainable, efficient workplaces.	Catalyst 9300 Switch; Panduit 380v AC Receiver; Panduit 48v Receiver; Panduit Transmitter; 55' Thinlabs Monitor
FPW-34	**AI built into every workflow: Webex Suite | Webex Calling | Cisco AI Assistant**	Discover how Webex Suite embeds AI at the core of how your teams meet, message, call, and get work done—not as a bolt-on feature, but as an intelligent layer woven through every interaction.	Webex Suite | Webex Calling | Cisco AI Assistant | Productivity Agents | AI Ecosystem
FPW-35	**Has Networking or Webex transformed your business? Share your experience with a review. Get rewarded.**	Has Cisco Networking or Webex transformed your business? Share your experience with a review. Get rewarded.	Webex Suite

Cisco Stand > Lightning Theatres
Hear from Cisco experts for 15-minute sessions that dive deeper into product features and announcements connected to the Cisco Stand demos.

Cisco Stand > Secure Global Connectivity
AI is reshaping the world, and connectivity is the catalyst. For network providers, enterprises, and the public sector, secure and high-performance connectivity isn't just infrastructure; it's the foundation for unlocking AI's full potential. Cisco's architecture maximises digital resilience, accelerates revenue growth, and powers operational excellence for your most critical missions.

LOCATION	DEMO NAME	DESCRIPTION	PRODUCTS AND SERVICES
SGC-01	**Monetise sovereign AI networks: Cisco Crosswork Automation and Assurance | SRv6**	This demo highlights how service providers can monetise secure, sovereign AI services by leveraging Cisco Cloud Control, Crosswork Network Automation and Assurance, and SRv6. Through intent-based orchestration, see how you can deliver Model-as-a-Service revenue while ensuring strict data sovereignty, monitor model performance, and remediate issues using AI-driven assurance and agents.	Crosswork Network Automation (Crosswork Network Controller, Crosswork Workflow Manager, Crosswork AI), Crosswork Assurance, SRv6
SGC-02	**Protect critical infrastructure: Cisco Service Provider Security**	Learn how Cisco protects the AI-driven network by leveraging real-time DDoS mitigation and quantum-resistant hardware security to ensure data integrity from the ground up. By combining deep traffic visibility with the predictive power of Secure Network Analytics and Edge Protect, defend your network against the threats of tomorrow.	Cisco Secure DDoS Edge Protection, Cisco Live Protect, SP Security Solutions
SGC-03	**Unify connectivity anywhere: Non-Terrestrial Networks | Routed PON**	Showcase how Cisco's comprehensive portfolio enables seamless, scalable, and secure provider connectivity by converging non-terrestrial and terrestrial networks. Highlight the integration of advanced satellite networking solutions and Routed PON to deliver high-performance, resilient, and AI-driven connectivity for service providers.	Non-Terrestrial (Satellite) Networking, NCS 540/5500, Routed PON, XGS PON Pluggable, Cisco ONT, Provider Connectivity Assurance

SGC-04	**Unlock growth, launch faster: Cisco Mobility Services Platform**	5G, IoT, and enterprise services represent a massive revenue opportunity—if you can move fast enough. See how Cisco Mobility Services Platform helps CSPs and enterprises accelerate service launch, simplify operations, and unlock new monetisation models with a cloud-native, scalable architecture that protects existing investments.	Cisco Mobility Services Platform
SGC-05	**Resolve issues before impact: Cisco Crosswork Automation and Assurance**	Stop reacting and start preventing. See how Cisco Crosswork uses AI agents to fix network issues faster—leveraging real-time visibility and autonomous troubleshooting to resolve performance problems before they ever impact your services.	Crosswork Network Automation (Crosswork AI), Crosswork Assurance
SGC-06	**Scale AI networks seamlessly: Cisco Routed Optical Networking and SRv6**	Experience how Cisco Routed Optical Networking and SRv6 scale AI connectivity. Converge IP and optical infrastructure to transform network economics, simplify operations, and ensure robust, policy-driven performance across data centres, campus, and metro environments. Learn to streamline AI traffic management from local fabrics to ultra-long-haul networks.	Cisco Routed Optical Networking, Cisco 100G, 400G, and 800G ZR/ZR+ Coherent Pluggable Optics, SRv6, Cisco Crosswork Network Automation, Cisco Hierarchical Controller, Cisco NCS 1010, Cisco NCS 1014, Cisco 2000

SGC-07	**Deploy Cisco Agile Services Networking | Embrace Cisco Routed Optical Networking | Power networks with Cisco Silicon One | Unleash disaggregated AI infrastructure**	Discover how Cisco's innovations in silicon, optics, routing, assurance, and AI redefine network economics. Our simplified architecture empowers flexible service deployment, ensures resilient experiences, and drives monetisation. See how we're transforming infrastructure to help you scale, secure, and succeed in a digital-first world.	Assurance Module, ENC-10G-ONT-10, ENC-10G-ONT-14A, ENC-10G-ONT-01PR, Cisco 8011-32Y8L2H2FH, Pluggable OLT (EML), Pluggable OLT (DML), Assurance SFP, Cisco 8404, Cisco 88-LC1-52Y8H-EM, Cisco 8711-28H8F-EM, Cisco 88-LC1-16H16F-EM, NCS 1014, CIM8 – pluggable optic, 2.4T Line Card for NCS 1014 (inserted to 1014), Cisco ONS QDD OLS and ONS-BRK-CS-8LC, Cisco Bright 100G ZR QSFP28, Cisco QSFP-DD 400G ZR+ High Tx Power, Cisco QSFP-DD 400G ZR/ZR+, Cisco QSFP-DD 400G ULH, Cisco QSFP-DD 800G ZR/ZR+, Cisco OSFP 800G ZR/ZR+, Cisco QSFP-DD PSM, Cisco ONS QSFP OTDR pluggable, Cisco Silicon One A100, Cisco Silicon One K100, Cisco Silicon One E100, Cisco Silicon One P200, Cisco Silicon One G300, Cisco 8223-64E-M, QSFP-DD 800G ZR/ZR+, OSFP 800G ZR/ZR+, QSFP-DD 2x400G FR4, QSFP-DD 8x100G FR, OSFP 800G DR8, OSFP 2x400G FR4, OSFP 800G LPO, Cisco Silicon One P200, Cisco Silicon One G200, Cisco OSFP 1.6T DR8, Cisco OSFPR 2x400G LR4

Cisco Stand > Security and Network Operations Centres
Get a behind-the-scenes look at how Cisco detects and responds to active threats in real-time conference traffic, in collaboration with the Network Operations Centre (NOC) and Endace. Join us on a daily tour to experience a live Agentic SOC, powered by Splunk Enterprise Security and Cisco Cloud Control.

Come visit the heartbeat of Cisco Live-the Network Operations Centre (NOC) in the Cisco Stand. Check out our live network dashboards, powered by Splunk and talk to the experts about what it takes to deploy, manage, and secure the Cisco Live network. New this year, engage with our NOC AI Agent to get real-time stats and ask about the equipment that powers your experience at Cisco Live.

Alphabetical Index of Products and Solutions

PRODUCTS / SOLUTIONS	AREA NAME	DEMO #	DEMO NAME
#			
2.4T Line Card for NCS 1014	Secure Global Connectivity	SGC-07	Deploy Cisco Agile Services Networking | Embrace Cisco Routed Optical Networking | Power networks with Cisco Silicon One | Unleash disaggregated AI infrastructure
400G	Secure Global Connectivity	SGC-06	Scale AI networks seamlessly: Cisco Routed Optical Networking and SRv6
51.2T Switch	AI-Ready Data Centres	AIDC-20	Improve power efficiency: Power and cooling solutions
55' Thinlabs monitor	Future-Proofed Workplaces	FPW-33	Transform workplace experiences: Roadmap to real estate power optimisation
800G ZR/ZR+ Coherent Pluggable Optics	Secure Global Connectivity	SGC-06	Scale AI networks seamlessly: Cisco Routed Optical Networking and SRv6
A			
Agentic Ops	Future-Proofed Workplaces	FPW-18	Power AI-ready manufacturing with AgenticOps: Machine vision | Security | AgenticOps
Agentic Workflows	Future-Proofed Workplaces	FPW-04	Secure and automate branch and WAN: Unified branch | Secure Routers | Multicloud Fabric
AI Canvas	AI-Ready Data Centres	AIDC-01	Powering real-world AI use cases: Healthcare | Retail | Manufacturing
AI Defense	Future-Proofed Workplaces	FPW-05	Secure AI apps and agents: Cisco AI Defense
	Cisco Platform Advantage	CPA-02	Secure your agentic enterprise
AI Ecosystem	Future-Proofed Workplaces	FPW-34	AI built into every workflow: Webex Suite | Webex Calling | Cisco AI Assistant
AI for agents and supervisors	Future-Proofed Workplaces	FPW-26	Empower teams, delight customers: Cloud Contact Center | On-Premises
AI PODs	AI-Ready Data Centres	AIDC-01	Powering real-world AI use cases: Healthcare | Retail | Manufacturing
	AI-Ready Data Centres	AIDC-20	Improve power efficiency: Power and cooling solutions

AppD	Digital Resilience	DR-01	Unlock intelligence at machine speed
Asset and Risk Intelligence (ARI)	Digital Resilience	DR-01	Unlock intelligence at machine speed
	Digital Resilience	DR-02	Build better dashboards with Splunk
Assurance from domain to end-to-end visibility	Digital Resilience	DR-09	Assure cloud and SaaS: Cisco ThousandEyes
	Digital Resilience	DR-10	Assure wireless experiences: Cisco ThousandEyes I Always-On Assurance
	Digital Resilience	DR-11	Power network assurance with AI: Cisco AI Assistant I Cisco ThousandEyes MCP Server
	Digital Resilience	DR-12	Assure end-to-end connectivity: Cisco ThousandEyes I Meraki I Catalyst Center
Assurance Module	Secure Global Connectivity	SGC-07	Deploy Cisco Agile Services Networking | Embrace Cisco Routed Optical Networking | Power networks with Cisco Silicon One | Unleash disaggregated AI infrastructure
Assurance SFP	Secure Global Connectivity	SGC-07	Deploy Cisco Agile Services Networking | Embrace Cisco Routed Optical Networking | Power networks with Cisco Silicon One | Unleash disaggregated AI infrastructure
B			
Bang & Olufsen Cisco 950	Future-Proofed Workplaces	FPW-32	Productivity at the desk: Desk Series | Phones | Headsets
C			
C9350 Smart Switches (24Y)	Future-Proofed Workplaces	FPW-14	Wireless | Switches | Routers | Collaboration
C9350 Smart Switches (48HX)	Future-Proofed Workplaces	FPW-14	Wireless | Switches | Routers | Collaboration
C9550 Smart Switch (48L4CD)	Future-Proofed Workplaces	FPW-14	Wireless | Switches | Routers | Collaboration
C9550 Smart Switch (64C)	Future-Proofed Workplaces	FPW-14	Wireless | Switches | Routers | Collaboration
C9550 Smart Switch (96L4D)	Future-Proofed Workplaces	FPW-14	Wireless | Switches | Routers | Collaboration
Catalyst	Future-Proofed Workplaces	FPW-11	Scale: MCP-powered intelligence: MCP for Catalyst and Meraki | MCP for ThousandEyes
Catalyst 9200 CX	Future-Proofed Workplaces	FPW-14	Wireless | Switches | Routers | Collaboration
Catalyst 9300 switch	Future-Proofed Workplaces	FPW-33	Transform workplace experiences: Roadmap to

			real estate power optimisation
Catalyst 9606R	Future-Proofed Workplaces	FPW-14	Wireless | Switches | Routers | Collaboration
Catalyst Center	Digital Resilience	DR-06	Optimise network performance: Splunk Observability | Cisco Networking
Catalyst Center	Future-Proofed Workplaces	FPW-22	Power your roadway and rail assets: Rugged IR Routers | SD-WAN | Next-Generation Firewall (NGFW)
Ceiling Microphone Pro	Future-Proofed Workplaces	FPW-31	Power agentic experiences with AVoIP: Ceiling Microphone Pro | Room Vision PTZ | Room Kit Pro G2
CIM8 – pluggable optic	Secure Global Connectivity	SGC-07	Deploy Cisco Agile Services Networking | Embrace Cisco Routed Optical Networking | Power networks with Cisco Silicon One | Unleash disaggregated AI infrastructure
Cisco 100G	Secure Global Connectivity	SGC-06	Scale AI networks seamlessly: Cisco Routed Optical Networking and SRv6
Cisco 2000	Secure Global Connectivity	SGC-06	Scale AI networks seamlessly: Cisco Routed Optical Networking and SRv6
Cisco 8011-32Y8L2H2FH	Secure Global Connectivity	SGC-07	Deploy Cisco Agile Services Networking | Embrace Cisco Routed Optical Networking | Power networks with Cisco Silicon One | Unleash disaggregated AI infrastructure
Cisco 8100 Secure Router - 8110L-MX	Future-Proofed Workplaces	FPW-14	Wireless | Switches | Routers | Collaboration
Cisco 8100 Secure Router - 8151H-C	Future-Proofed Workplaces	FPW-14	Wireless | Switches | Routers | Collaboration
Cisco 8200 Secure Router - 8211	Future-Proofed Workplaces	FPW-14	Wireless | Switches | Routers | Collaboration
Cisco 8200 Secure Router - 8225	Future-Proofed Workplaces	FPW-14	Wireless | Switches | Routers | Collaboration
Cisco 8200 Secure Router - 8235-MX	Future-Proofed Workplaces	FPW-14	Wireless | Switches | Routers | Collaboration
Cisco 8300 Secure Router - 8355-MX	Future-Proofed Workplaces	FPW-14	Wireless | Switches | Routers | Collaboration
Cisco 8600 Secure Router - 8650	Future-Proofed Workplaces	FPW-14	Wireless | Switches | Routers | Collaboration
Cisco 8223-64E-M	Secure Global Connectivity	SGC-07	Deploy Cisco Agile Services Networking | Embrace Cisco Routed Optical Networking |

			Power networks with Cisco Silicon One | Unleash disaggregated AI infrastructure
Cisco 8404	Secure Global Connectivity	SGC-07	Deploy Cisco Agile Services Networking | Embrace Cisco Routed Optical Networking | Power networks with Cisco Silicon One | Unleash disaggregated AI infrastructure
Cisco 8711-28H8F-EM	Secure Global Connectivity	SGC-07	Deploy Cisco Agile Services Networking | Embrace Cisco Routed Optical Networking | Power networks with Cisco Silicon One | Unleash disaggregated AI infrastructure
Cisco 88-LC1-16H16F-EM (Mohatta)	Secure Global Connectivity	SGC-07	Deploy Cisco Agile Services Networking | Embrace Cisco Routed Optical Networking | Power networks with Cisco Silicon One | Unleash disaggregated AI infrastructure
Cisco 88-LC1-52Y8H-EM	Secure Global Connectivity	SGC-07	Deploy Cisco Agile Services Networking | Embrace Cisco Routed Optical Networking | Power networks with Cisco Silicon One | Unleash disaggregated AI infrastructure
Cisco AI Assistant	Future-Proofed Workplaces	FPW-34	AI built into every workflow: Webex Suite | Webex Calling | Cisco AI Assistant
Cisco AI PODs	AI-Ready Data Centres	AIDC-03	Create full-stack infrastructures: Cisco Secure AI Factory with NVIDIA tour
Cisco Assurance	Future-Proofed Workplaces	FPW-10	Work: Agent-assisted operations: Cisco AI Assistant | Agentic workflows | Deep reasoning
Cisco Bright 100G ZR QSFP28	Secure Global Connectivity	SGC-07	Deploy Cisco Agile Services Networking | Embrace Cisco Routed Optical Networking | Power networks with Cisco Silicon One | Unleash disaggregated AI infrastructure
Cisco Cloud Control	Future-Proofed Workplaces	FPW-06	Simplify SASE with AgenticOps: Cisco Cloud Control | Cisco SASE

	Future-Proofed Workplaces	FPW-07	Automate identity-based segmentation: Cisco Cloud Control | Cisco ISE
	Future-Proofed Workplaces	FPW-08	Close the identity trust gap: Cisco Duo | Identity in Cisco Cloud Control
	Future-Proofed Workplaces	FPW-10	Work: Agent-assisted operations: Cisco AI Assistant | Agentic workflows | Deep reasoning
	Future-Proofed Workplaces	FPW-12	Delegate: Agent-driven automation: Cisco Cloud Control | Actions | Experience metrics
	AI-Ready Data Centres	AIDC-01	Powering real-world AI use cases: Healthcare | Retail | Manufacturing
	AI-Ready Data Centres	AIDC-09	Unify policy across every firewall: Cisco Cloud Control | Mesh Policy Engine
	AI-Ready Data Centres	AIDC-11	Troubleshoot with agentic AI: Cisco Cloud Control | Nexus One | Native Splunk
	AI-Ready Data Centres	AIDC-19	End-to-end networking from silicon to containers: Cisco AI Networking
	Cisco Platform Advantage	CPA-03	Run your agentic enterprise with Cisco Cloud Control
	Cisco Platform Advantage	CPA-04	Get started with Cisco Cloud Control
Cisco Cloud Control + Control Hub	Future-Proofed Workplaces	FPW-25	Unified IT management: Cisco Cloud Control | Collaboration Control Hub | AI Canvas
Cisco Cloud Control/Cisco Intersight	AI-Ready Data Centres	AIDC-02	Computing with AI systems, not servers: Cisco Compute
Cisco Compute Hyperconverged with Nutanix	AI-Ready Data Centres	AIDC-25	Migrate to Nutanix virtualisation: Cisco Compute Hyperconverged with Nutanix
Cisco Crosswork Network Automation	Secure Global Connectivity	SGC-06	Scale AI networks seamlessly: Cisco Routed Optical Networking and SRv6
Cisco Data Fabric	Digital Resilience	DR-01	Unlock intelligence at machine speed
	Digital Resilience	DR-03	Unlock machine data for agentic action: Cisco Data Fabric powered by Splunk
	Digital Resilience	DR-04	Federate and correlate data at scale: Cisco Data Fabric powered by Splunk
Cisco Duo	AI-Ready Data Centres	AIDC-10AIDC-10	Harden infrastructure access: Cisco Duo | Privileged Access (with Teleport)

Cisco Firewall	AI-Ready Data Centres	AIDC-04	Stop zero-day and encrypted threats: Cisco Hybrid Mesh Firewall | Cisco Firewall
	AI-Ready Data Centres	AIDC-06	Distributed security, fused into every layer: Cisco Security
	AI-Ready Data Centres	AIDC-07	Accelerate SecOps with network data: Splunk Enterprise Security | Cisco Firewall
Cisco Headsets	Future-Proofed Workplaces	FPW-32	Productivity at the desk: Desk Series | Phones | Headsets
Cisco HF6100-32D	AI-Ready Data Centres	AIDC-22	Simplify with cloud management: Nexus One| Nexus Hyperfabric | Full-stack AI
Cisco HF6100-60L4D	AI-Ready Data Centres	AIDC-22	Simplify with cloud management: Nexus One| Nexus Hyperfabric | Full-stack AI
Cisco HF6100-64ED	AI-Ready Data Centres	AIDC-22	Simplify with cloud management: Nexus One| Nexus Hyperfabric | Full-stack AI
Cisco Hierarchical Controller	Secure Global Connectivity	SGC-06	Scale AI networks seamlessly: Cisco Routed Optical Networking and SRv6
Cisco Hypershield	AI-Ready Data Centres	AIDC-08	Shield workloads and infrastructure: Cisco Hypershield | Live Protect
Cisco IQ	Digital Resilience	DR-13	Services for digital resilience: Unified observability for infrastructure
	AI-Ready Data Centres	AIDC-21	Services for AI-ready data centres: Accelerate time to first intelligence
	Customer Experience	CX-01	Cisco IQ: Where human expertise meets agentic intelligence
	Customer Experience	CX-02	AI-powered support with Cisco IQ: Personalised | Proactive | Predictive
	Customer Experience	CX-03	Resilient Infrastructure Services: Accelerate resilience against AI-powered threats
	Customer Experience	CX-04	Customer Success: Adopt | Automate | Accelerate
	Customer Experience	CX-05	Professional services with Cisco IQ: Accelerate value | De-risk | Scale
Cisco IQ for Landscape Clarity	Future-Proofed Workplaces	FPW-13	Services for future-proofed workplaces: Proactive resilience and rapid resolution

Cisco ISE	Future-Proofed Workplaces	FPW-07	Automate identity-based segmentation: Cisco Cloud Control | Cisco ISE
Cisco Isovalent Cilum	AI-Ready Data Centres	AIDC-14	Unify ops from fabric to Kubernetes: Nexus One | Isovalent Network Bridge
Cisco Isovalent Network Bridge	AI-Ready Data Centres	AIDC-14	Unify ops from fabric to Kubernetes: Nexus One | Isovalent Network Bridge
Cisco Mobility Services Platform	Secure Global Connectivity	SGC-04	Unlock growth, launch faster: Cisco Mobility Services Platform
Cisco N9000 series switches	AI-Ready Data Centres	AIDC-15	Shield from vulnerabilities: Live Protect | Cisco Nexus One
Cisco N9100 series AI networking switches	AI-Ready Data Centres	AIDC-19	End-to-end networking from silicon to containers: Cisco AI Networking
Cisco N9164E-NS4-O Spectrum-4 Switch	AI-Ready Data Centres	AIDC-12	Build end-to-end AI networking: AI job aware | NCP RA and CRA | SRv6
Cisco N9164F-NS6 Spectrum-6 Switch	AI-Ready Data Centres	AIDC-13	Automate your data centre fabric: Network-as-Code | Nexus Dashboard | APIs
Cisco N9300 series AI Networking switches	AI-Ready Data Centres	AIDC-19	End-to-end networking from silicon to containers: Cisco AI Networking
Cisco N9364F-SG3	AI-Ready Data Centres	AIDC-13	Automate your data centre fabric: Network-as-Code | Nexus Dashboard | APIs
Cisco N9364F-SG3-L	AI-Ready Data Centres	AIDC-13	Automate your data centre fabric: Network-as-Code | Nexus Dashboard | APIs
Cisco N9808	AI-Ready Data Centres	AIDC-12	Build end-to-end AI networking: AI job aware | NCP RA and CRA | SRv6
Cisco NCS 1010	Secure Global Connectivity	SGC-06	Scale AI networks seamlessly: Cisco Routed Optical Networking and SRv6
Cisco NCS 1014	Secure Global Connectivity	SGC-06	Scale AI networks seamlessly: Cisco Routed Optical Networking and SRv6
Cisco Nexus 9364 SG2-X-O	AI-Ready Data Centres	AIDC-12	Build end-to-end AI networking: AI job aware | NCP RA and CRA | SRv6
Cisco Nexus One	AI-Ready Data Centres	AIDC-11	Troubleshoot with agentic AI: Cisco Cloud Control | Nexus One | Native Splunk
	AI-Ready Data Centres	AIDC-14	Unify ops from fabric to Kubernetes: Nexus One | Isovalent Network Bridge
	AI-Ready Data Centres	AIDC-19	End-to-end networking from silicon to containers: Cisco AI Networking

Cisco ONS QDD OLS and ONS-BRK-CS-8LC	Secure Global Connectivity	SGC-07	Deploy Cisco Agile Services Networking | Embrace Cisco Routed Optical Networking | Power networks with Cisco Silicon One | Unleash disaggregated AI infrastructure
Cisco ONS QSFP OTDR pluggable	Secure Global Connectivity	SGC-07	Deploy Cisco Agile Services Networking | Embrace Cisco Routed Optical Networking | Power networks with Cisco Silicon One | Unleash disaggregated AI infrastructure
Cisco ONT	Secure Global Connectivity	SGC-03	Unify connectivity anywhere: Non-Terrestrial Networks | Routed PON
Cisco Optics OSFP 1.6T DR8P	AI-Ready Data Centres	AIDC-18	Maximise data centre reliability: Cisco Pluggable Optics

P-LTE-GB	Future-Proofed Workplaces	FPW-21	Industrial product portfolio
	Future-Proofed Workplaces	FPW-24	Build resilient power grids: Substations | Distribution | Renewables
Pluggable OLT (DML)	Secure Global Connectivity	SGC-07	Deploy Cisco Agile Services Networking | Embrace Cisco Routed Optical Networking | Power networks with Cisco Silicon One | Unleash disaggregated AI infrastructure
Pluggable OLT (EML)	Secure Global Connectivity	SGC-07	Deploy Cisco Agile Services Networking | Embrace Cisco Routed Optical Networking | Power networks with Cisco Silicon One | Unleash disaggregated AI infrastructure
Post Quantum Cryptography on Switches	Future-Proofed Workplaces	FPW-15	Build post-quantum resilience today: Secure Routers | Smart Switches | Wi-Fi 7
Productivity Agents	Future-Proofed Workplaces	FPW-34	AI built into every workflow: Webex Suite | Webex Calling | Cisco AI Assistant
Provider Connectivity Assurance	Secure Global Connectivity	SGC-03	Unify connectivity anywhere: Non-Terrestrial Networks | Routed PON
Q			
QSFP-DD 2x400G FR4	Secure Global Connectivity	SGC-07	Deploy Cisco Agile Services Networking | Embrace Cisco Routed Optical Networking | Power networks with Cisco Silicon One | Unleash disaggregated AI infrastructure
QSFP-DD 800G ZR/ZR+	Secure Global Connectivity	SGC-07	Deploy Cisco Agile Services Networking | Embrace Cisco Routed Optical Networking | Power networks with Cisco Silicon One | Unleash disaggregated AI infrastructure
QSFP-DD 8x100G FR	Secure Global Connectivity	SGC-07	Deploy Cisco Agile Services Networking | Embrace Cisco Routed Optical Networking | Power networks with

			Cisco Silicon One | Unleash disaggregated AI infrastructure
QuadCam	Future-Proofed Workplaces	FPW-31	Power agentic experiences with AVoIP: Ceiling Microphone Pro | Room Vision PTZ | Room Kit Pro G2
Quantum-Safe Infrastructure Network Assessments	Future-Proofed Workplaces	FPW-13	Services for future-proofed workplaces: Proactive resilience and rapid resolution
R			
Rear door heat exchange cooling	AI-Ready Data Centres	AIDC-20	Improve power efficiency: Power and cooling solutions
Room Bar	Future-Proofed Workplaces	FPW-28	Meet on any platform with Cisco devices: Microsoft Teams Rooms | Zoom Rooms | Google Rooms
Room Bar Pro	Future-Proofed Workplaces	FPW-28	Meet on any platform with Cisco devices: Microsoft Teams Rooms | Zoom Rooms | Google Rooms
Room Codec Pro G2	Future-Proofed Workplaces	FPW-31	Power agentic experiences with AVoIP: Ceiling Microphone Pro | Room Vision PTZ | Room Kit Pro G2
Room Kit EQX	Future-Proofed Workplaces	FPW-31	Power agentic experiences with AVoIP: Ceiling Microphone Pro | Room Vision PTZ | Room Kit Pro G2
Room Kit G3	Future-Proofed Workplaces	FPW-14	Wireless | Switches | Routers | Collaboration
Room Kit Pro G2	Future-Proofed Workplaces	FPW-14	Wireless | Switches | Routers | Collaboration
Room Vision PTZ	Future-Proofed Workplaces	FPW-14	Wireless | Switches | Routers | Collaboration
	Future-Proofed Workplaces	FPW-31	Power agentic experiences with AVoIP: Ceiling Microphone Pro | Room Vision PTZ | Room Kit Pro G2
Routed PON	Secure Global Connectivity	SGC-03	Unify connectivity anywhere: Non-Terrestrial Networks | Routed PON
Routers	Future-Proofed Workplaces	FPW-15	Build post-quantum resilience today: Secure Routers | Smart Switches | Wi-Fi 7
S			
SASE	Future-Proofed Workplaces	FPW-06	Simplify SASE with AgenticOps: Cisco Cloud Control | Cisco SASE
SD-WAN	Future-Proofed Workplaces	FPW-22	Power your roadway and rail assets: Rugged IR Routers | SD-WAN | Next-

			Generation Firewall (NGFW)
	Future-Proofed Workplaces	FPW-24	Build resilient power grids: Substations | Distribution | Renewables
SEA	Future-Proofed Workplaces	FPW-23	Scale OT with Cisco Cyber Vision: OT visibility | Segmentation | Secure remote access
Secure Equipment Access	Future-Proofed Workplaces	FPW-18	Power AI-ready manufacturing with AgenticOps: Machine vision | Security | AgenticOps
Secure Routers	Future-Proofed Workplaces	FPW-04	Secure and automate branch and WAN: Unified branch | Secure Routers | Multicloud Fabric
Security	Future-Proofed Workplaces	FPW-01	Accelerate frontier model threat response across your network: Secure campus | Unified branch | Post Quantum Readiness
	Cisco Platform Advantage	CPA-02	Secure your agentic enterprise
Self-service	Future-Proofed Workplaces	FPW-29	Managing the AI and human workforce: AI Workforce Engagement Management
Silicon One A100 Chip	Future-Proofed Workplaces	FPW-14	Wireless | Switches | Routers | Collaboration
Silicon One E100 Chip	Future-Proofed Workplaces	FPW-14	Wireless | Switches | Routers | Collaboration
Silicon One K100 Chip	Future-Proofed Workplaces	FPW-14	Wireless | Switches | Routers | Collaboration
Smart cameras	Future-Proofed Workplaces	FPW-17	Supercharge outdoor wireless: Outdoor Wi-Fi 7 | Smart cameras
Smart Switches	Future-Proofed Workplaces	FPW-03	Simplify and secure your campus: Smart Switches| Cloud-Managed Fabric | Cisco Cloud Control
SOAR	Digital Resilience	DR-01	Unlock intelligence at machine speed
	Digital Resilience	DR-02	Build better dashboards with Splunk
SP Security Solutions	Secure Global Connectivity	SGC-02	Protect critical infrastructure: Cisco Service Provider Security
Splunk	Digital Resilience	DR-07	Accelerate threat detection: Splunk Enterprise Security | Cisco Firewall
	Future-Proofed Workplaces	FPW-18	Power AI-ready manufacturing with AgenticOps: Machine vision | Security | AgenticOps
	Future-Proofed Workplaces	FPW-23	Scale OT with Cisco Cyber Vision: OT visibility |

			Segmentation | Secure remote access
	AI-Ready Data Centres	AIDC-01	Powering real-world AI use cases: Healthcare | Retail | Manufacturing
	AI-Ready Data Centres	AIDC-07	Accelerate SecOps with network data: Splunk Enterprise Security | Cisco Firewall
	AI-Ready Data Centres	AIDC-19	End-to-end networking from silicon to containers: Cisco AI Networking
Splunk AI	Digital Resilience	DR-01	Unlock intelligence at machine speed
	Digital Resilience	DR-02	Build better dashboards with Splunk
Splunk Attack Analyzer (SAA)	Digital Resilience	DR-01	Unlock intelligence at machine speed
	Digital Resilience	DR-02	Build better dashboards with Splunk
Splunk Enterprise Security	Digital Resilience	DR-01	Unlock intelligence at machine speed
	Digital Resilience	DR-02	Build better dashboards with Splunk
	Digital Resilience	DR-08	Defend at machine speed: Splunk Enterprise Security
Splunk Enterprise Security Premiere	Digital Resilience	DR-01	Unlock intelligence at machine speed
Splunk ITSI	Digital Resilience	DR-01	Unlock intelligence at machine speed
	Digital Resilience	DR-02	Build better dashboards with Splunk
Splunk Observability	Digital Resilience	DR-06	Optimise network performance: Splunk Observability | Cisco Networking
	Digital Resilience	DR-13	Services for digital resilience: Unified observability for infrastructure
	Digital Resilience	DR-05	Optimise AI at scale: Splunk Agent Observability | AI SRE
Splunk Observability Cloud	Digital Resilience	DR-01	Unlock intelligence at machine speed
	Digital Resilience	DR-02	Build better dashboards with Splunk
Splunk Platform	Digital Resilience	DR-01	Unlock intelligence at machine speed
	Digital Resilience	DR-02	Build better dashboards with Splunk
	Digital Resilience	DR-03	Unlock machine data for agentic action: Cisco Data Fabric powered by Splunk
	Digital Resilience	DR-04	Federate and correlate data at scale: Cisco Data Fabric powered by Splunk
SRv6	Secure Global Connectivity	SGC-01	Monetise sovereign AI networks: Cisco

			Crosswork Automation and Assurance | SRv6
	Secure Global Connectivity	SGC-06	Scale AI networks seamlessly: Cisco Routed Optical Networking and SRv6
Stack Automation by Quali	AI-Ready Data Centres	AIDC-24	Deploy infrastructure at cloud speed: Stack Automation by Quali
T			
Table Mic	Future-Proofed Workplaces	FPW-31	Power agentic experiences with AVoIP: Ceiling Microphone Pro | Room Vision PTZ | Room Kit Pro G2
Table Navigator	Future-Proofed Workplaces	FPW-32	Productivity at the desk: Desk Series | Phones | Headsets
U			
Unified Branch	Future-Proofed Workplaces	FPW-04	Secure and automate branch and WAN: Unified branch | Secure Routers | Multicloud Fabric
Unified Edge	AI-Ready Data Centres	AIDC-01	Powering real-world AI use cases: Healthcare | Retail | Manufacturing
W			
Wall Navigator	Future-Proofed Workplaces	FPW-28	Meet on any platform with Cisco devices: Microsoft Teams Rooms | Zoom Rooms | Google Rooms
Wall Navigator	Future-Proofed Workplaces	FPW-31	Power agentic experiences with AVoIP: Ceiling Microphone Pro | Room Vision PTZ | Room Kit Pro G2
Webex AI Agent	Future-Proofed Workplaces	FPW-29	Managing the AI and human workforce: AI Workforce Engagement Management
	Future-Proofed Workplaces	FPW-30	Scaling relationships in the AI era: Dialog | AI Agent Studio | AI Agent 360
Webex Board	Future-Proofed Workplaces	FPW-09	Turn your buildings into smart spaces: Cisco Spaces
Webex Calling	Future-Proofed Workplaces	FPW-34	AI built into every workflow: Webex Suite | Webex Calling | Cisco AI Assistant
Webex Contact Center	Future-Proofed Workplaces	FPW-26	Empower teams, delight customers: Cloud Contact Center | On-Premises
Webex Suite	Future-Proofed Workplaces	FPW-34	AI built into every workflow: Webex Suite | Webex Calling | Cisco AI Assistant

	Future-Proofed Workplaces	FPW-35	Has Networking or Webex transformed your business? Share your experience with a review. Get rewarded.
Wireless	Future-Proofed Workplaces	FPW-15	Build post-quantum resilience today: Secure Routers | Smart Switches | Wi-Fi 7
Wireless Controller	Future-Proofed Workplaces	FPW-19	Extend your network further, faster: Cisco Wireless with URWB
Wireless Phone 9821	Future-Proofed Workplaces	FPW-14	Wireless | Switches | Routers | Collaboration
Wireless Phone 9821 + charging stand	Future-Proofed Workplaces	FPW-32	Productivity at the desk: Desk Series | Phones | Headsets
Wireless phones	Future-Proofed Workplaces	FPW-32	Productivity at the desk: Desk Series | Phones | Headsets
Workplace Designer	Future-Proofed Workplaces	FPW-27	Design your intelligent workplace: Cisco Workplace Designer
X			
XGS PON Pluggable	Secure Global Connectivity	SGC-03	Unify connectivity anywhere: Non-Terrestrial Networks | Routed PON
