## Infrastructure-as-Code

START

### DEVNET-2965

Key learnings when creating a network device monitoring tool with Device APIs

### DEVWKS-2255

Security at the speed of cloud

### DEVWKS-2529

Introduction to Git

### DEVWKS-2678

Demystifying Cisco FSO Stack APIs - Building a secure code pipeline with Concourse CI and Vault Integration

### DEVWKS-3360

Developer-Led Automation with Consul, Terraform, and Some Magic

### DEVWKS-2275

Supercharge your Wireless Network with Programmability!

CISCO *Live!*

# DevNet

## Infrastructure-as-Code

● **DEVWKS-3280**  
Writing Reusable Libraries  
(Parsers/APIs) using pyATS

● **DEVWKS-2170**  
Intersight Cloud Orchestrator

● **LABDEV-1976**  
Automation and programmability in  
Cisco UCS using Ansible and Python

● **LABDEV-1987**  
Zero Touch Cisco DNAC Automation  
and Assurance Implementation using  
APIs
