## Cisco Showcase > Work from Home

Work from home should be an inclusive experience—as collaborative and productive as being in the office. Whether you work from a dedicated home office or at the kitchen table, Cisco enables a work environment that is free from distractions and operates at the speed of business.

LOCATION	DEMO NAME	DESCRIPTION	PRODUCTS AND SERVICES	RELATED ARCHITECTURES
WFH-01	<b>Home Office</b>	Transform any space to your office for the day	<b>Webex Desk Pro Webex Room Bar Webex Room Navigator Webex 980 Headset Webex B&amp;O Headset</b>	Collaboration
WFH-02	<b>Nook</b>	For many, remote work means finding a suitable place to work at the kitchen table, or in a corner of a busy living space. See how Webex Desk Mini and Cisco Headsets enable you to turn any space into your personal workspace and cut out the distractions - so you can make the perfect impression in every video call.	<b>Webex Desk Mini Webex 730 Wireless Headset</b>	Collaboration
WFH-03/part of Nook	<b>Remote Work Gateway Meraki Z3</b>	The Meraki Z3 Teleworker Gateway packs a powerful punch in a sleek form factor: enterprise security with always-on VPN and Cisco Umbrella integration, corporation SSID at home, ML-powered analytics to slash MTTR, and more. Trusted by thousands of organizations for security, convenience, and optimized access to what teleworkers need to thrive.	<b>Meraki Z3 Teleworker Gateway</b>	Enterprise Networking & Cloud, Meraki
WFH-04/part of Home Office	<b>Remote Work Gateway Catalyst CG113</b>	The Cisco Catalyst Wireless Gateway CG113 is a brand-new remote worker device that combines the latest in wireless and cellular technologies. CG113 is perfect for work from home—supporting Wi-Fi 6, wired, and backup 4G LTE for WAN connectivity. It provides wired and wireless connectivity for both WAN and LAN.	<b>Cisco Catalyst Wireless Gateway CCG113</b>	Enterprise Networking & Cloud

## Cisco Showcase > Work from Office

Work in the office has evolved—with redefined expectations for safety and workspace efficiency. Across your office environments, Cisco enhances everyone’s productivity and safety wherever and however you work. We deliver everything you need from secure wired and wireless connectivity to inclusive collaboration experiences.

LOCATION	DEMO NAME	DESCRIPTION	PRODUCTS AND SERVICES	RELATED ARCHITECTURES
WFO-01	<b>Meeting Room</b>	Discover how to enable inclusive hybrid teamwork in your meeting spaces. Make effective use of spaces with smart scheduling. Easily meet on Webex, Microsoft, Google, or Zoom with one-button-to-join. Ensure everyone feels included with People Focus views. Connect and share wirelessly with Apple Airplay. Leverage sensors and integrations to create a comfortable environment.	<b>Webex Assistant Webex Board Pro 75 Webex Room Navigator</b>	Collaboration
WFO-02	<b>Cloud Calling</b>	Learn how combining cloud calling and collaboration empowers you to be more productive working from anywhere. Experience new phones and devices with enhanced Webex Calling capabilities and artificial intelligence.	<b>8875, 8865, 6871, 6825, 840/860 Cisco Phones Webex Calling Microsoft Teams integration for Webex Calling 320, 730, and 980 Cisco Headsets</b>	Collaboration
WFO-03	<b>Cloud Communications Platform</b>	Learn how Webex Connect orchestrates and automates end-to-end cross-channel customer journeys by bringing together existing backend systems with multiple communication channels to create richer, frictionless customer experiences - reducing complexity and enabling rapid innovation.	<b>Webex Connect</b>	Collaboration
WFO-04	<b>Customer Experience</b>	See the power of a connected, personalized customer experience journey across automated customer interactions, self-service, and assisted service with Webex Connect and Webex Contact Center.	<b>Webex Contact Center Webex Connect IMI mobile (acquisition)</b>	Collaboration

LOCATION	DEMO NAME	DESCRIPTION	PRODUCTS AND SERVICES	RELATED ARCHITECTURES
WFO-05	<b>Contact Center</b>	See how Webex Contact Center allows businesses to create memorable customer experiences. Follow a customer's journey from interacting with an AI-powered virtual agent, then going deeper via digital communication with a live agent with full visibility into the customer's journey. Experience how agents are empowered with customer sentiment and the ability to engage experts via the Webex App.	<b>Webex Contact Center IM/mobile (acquisition)</b>	Enterprise Networking & Cloud
WFO-06	<b>Experience the Smart, Sustainable Workplace</b>	Welcome to Penn 1 in New York City, Cisco's first fully operational PoE-powered Smart Building. It is the first of our creative hybrid workplaces that can help attract and retain our best talent, ensure their wellbeing, and provide more flexible ways of working, which is the foundation of the future of work.	<b>Meraki MV32 Camera Catalyst 9136 Access Point Catalyst 9300 Series Switches Catalyst 9400 Series Switches Webex Board Pro 75 Cisco DNA Spaces Webex Desk Mini Cisco IP Phone 8800 Series Webex Room Panorama Webex Room Navigator Cisco Microphones, Cisco Ceiling Microphone Virtual Video Wall with Cisco Vision Webex Board 85 Webex Room Kit Webex Room 55 Board Webex Board Pro 55 Webex Room Hub Cisco Workspaces Webex Desk Hub Webex Desk Pro</b>	Enterprise Networking & Cloud, Meraki, Collaboration
WFO-07	<b>Cisco DNA Spaces</b>	The workplace has evolved and so has the way we work. This demo showcases a new contextual awareness platform called Smart Workspaces. Smart Workspaces delivers a visual dashboard that allows employees, guests, and facilities to see population density, air quality, temperature, available meeting rooms, desks, important points of interest, and more	<b>Cisco DNA Spaces</b>	Enterprise Networking & Cloud

LOCATION	DEMO NAME	DESCRIPTION	PRODUCTS AND SERVICES	RELATED ARCHITECTURES
WFO-08	<b>Shared Spaces</b>	Think differently about desk space allocation. Discover how we have redefined the hotdesking experience for the era of video collaboration with Webex Desk devices. See how to reserve and securely login to any desk with a QR-code, mobile device, or ID badge. See your personal calendar and meet with one button to join.	<b>Webex Desk Hub Webex 730 Headset Webex Desk Camera 4k Desk Mini Webex Desk</b>	Collaboration
WFO-09	<b>Sustainable PoE Connectivity</b>	You need to reimagine your workplace to make hybrid work, work. Sustainability, flexibility, and visibility are key, with PoE and smart building technology as the foundational enablers.	<b>Catalyst 9300 Series Switch</b>	Enterprise Networking & Cloud
WFO-10	<b>Hybrid Events</b>	Create connected event experiences for audiences no matter how they attend - virtual, in-person or both. Webex Events provides a flexible event management platform for hosting engaging events that center around the attendee experience.	<b>Webex Events Web and Mobile</b>	Collaboration
WFO-11	<b>Event Registration</b>	Streamline your in-person events with connected event registration and badge solutions for engagements of any size or type. Webex Events provides endless customization options to curate attendee experiences from the very first touch point - all the way through your entire event.	<b>Webex Events Check-in &amp; Badges</b>	Collaboration
WFO-12	<b>Ideation Spaces</b>	Enable people and teams to co-create and solve problems together with visual collaboration tools designed for hybrid work. Start a Webex whiteboard and share it with colleagues. Present your ideas and work on them together in real-time in ideation spaces equipped with the Webex Board Pro. Use embedded third party apps like Miro.	<b>Webex Board Pro 75</b>	Collaboration

LOCATION	DEMO NAME	DESCRIPTION	PRODUCTS AND SERVICES	RELATED ARCHITECTURES
WFO-13	<b>Webinars</b>	Simplify your webinar delivery for training, marketing lead generation or townhalls. Webex Webinars takes the complexity out of hosting webinars and provides rich branding capabilities with reliable technology for audiences of up to 100,000 participants.	<b>Webex Webinars</b>	Collaboration
WFO-14/part of Meeting Room and Shared Spaces	<b>Wi-Fi 6E Access Point Catalyst 9100 Series</b>	The Cisco Catalyst 9100 Series Access Points are the next generation of enterprise access points supporting the new 6-GHz band for Wi-Fi. They are resilient, secure, and intelligent.	<b>Catalyst 9166 Access Point Catalyst 9164 Access Point</b>	Enterprise Networking & Cloud

## Cisco Showcase > Work Anywhere

**Work Anywhere** is about freedom—the choice to work in any spaces, even those that used to be off-limits. Busy, noisy areas are no longer a limitation for collaborating. Public spaces are no longer a network security threat. When you are out and about, Cisco delivers the secure work from anywhere experience you need to perform at your best.

LOCATION	DEMO NAME	DESCRIPTION	PRODUCTS AND SERVICES	RELATED ARCHITECTURES
WFA-01	<b>Webex Go</b>	Webex Go brings Webex collaboration and enterprise-grade calling features to personal mobile devices. Learn how users connect their Webex Calling number to their personal mobile phone, giving them the ability to use the phone's native dialer to make and receive high quality business calls on a cellular network.	<b>Webex Go</b>	Collaboration
WFA-02	<b>Webex App</b>	Webex App provides a unified and intuitive experience for seamless and continuous collaboration across synchronous and asynchronous modes - call, message, meet and more from your desktop, tablet, mobile, or web browser.	<b>Webex App</b>	Collaboration
WFA-03/part of Webex App	<b>Wi-Fi 6E Access Point Meraki MR57</b>	The Meraki MR57 Wi-Fi 6E Access Point combines ultra-high wireless performance, enhanced security, and the freedom of the 6Ghz band with the power of the Meraki platform. Designed for next-generation deployments in dense environments the MR57 can power your smarter campuses and customer experiences today and into the future. Wi-Fi 6E never looked this good.	<b>Wi-Fi 6E Access Point Meraki MR57</b>	Enterprise Networking & Cloud, Meraki
WFA-04/part of Webex App	<b>Meraki Smart Camera MV22</b>	With up to 3X optical zoom, Meraki MV22 cloud-managed smart cameras provides flexibility for your indoor deployments. MV smart cameras combining physical security and intelligence into a single package, enabling organizations to create smart spaces and safe environments.	<b>Meraki Smart Camera MV22</b>	Enterprise Networking & Cloud, Meraki
WFA-05/part of Webex Go	<b>Meraki Smart Camera MV12</b>	Compact, and easy to install, Meraki MV12 cloud-managed smart cameras combines physical security and analytics into one, making it easy to create smart spaces and safe environments.	<b>Meraki Smart Camera MV12</b>	Enterprise Networking & Cloud, Meraki

## Showcase > IT Operations Center

Open the ‘curtain’ into our first-ever IT Operations Center and learn about Cisco’s innovative software solutions powering hybrid work. From cloud-managed NetOps and insights to threat intelligence monitoring and collaboration control, discover 15 demos showcasing the latest Cisco software platforms that enable management and visibility of your networks. And check out Cisco on Cisco demos to see how we are empowering our global workforce.

LOCATION	DEMO NAME	DESCRIPTION	PRODUCTS AND SERVICES	RELATED ARCHITECTURES
ITO-01	<b>SD-WAN On-Premises Cisco vManage</b>	Check out the latest innovations in Cisco SD-WAN vManage offering a simplified, more visual interface for configuration, visibility, and troubleshooting. The demo also covers the latest Cisco vAnalytics enhancements and ThousandEyes capabilities.	<b>Cisco SD-WAN, ThousandEyes</b>	Enterprise Networking & Cloud, ThousandEyes, Security
ITO-02	<b>SD-WAN Cloud-Managed Cisco Meraki SD-WAN</b>	Meraki has a globally proven platform and cloud-first dashboard that natively combines best-in-class connectivity (SD-WAN and access), network security (cloud and on-premises), deep public IaaS integrations, and platform-wide web application troubleshooting supercharged with machine learning. This platform approach to SD-WAN and SASE empowers IT admins to build a best-in-class hybrid work solution that suits their needs today and easily adapts to future needs.	<b>Meraki SD-WAN, Meraki Dashboard</b>	Enterprise Networking & Cloud, Meraki
ITO-03	<b>SASE: Cisco+ Secure Connect Now</b>	Radically simplify the way users securely access applications and resources from anywhere. See how Cisco+ Secure Connect Now combines Cisco’s Networking, security, and unified visibility with client and branch connectivity in a single, turnkey SASE as-a-service subscription that is quick to deploy and easy to manage.	<b>Cisco+ Secure Connect Now, Meraki SD-WAN, Duo, Umbrella, ThousandEyes</b>	Enterprise Networking & Cloud, Meraki, Security, ThousandEyes
ITO-04	<b>NetOps Cloud-Managed Cisco Meraki</b>	Find out Your IT operations model, your way. Find out how you can build flexibility and simplicity into your network infrastructure. Satisfy the unique security, networking, and infrastructure needs of your business through the Meraki platform.	<b>Meraki Dashboard, Meraki MR Series, Meraki MS Series Switches Catalyst 9162, Catalyst 9164, Catalyst 9166</b>	Enterprise Networking & Cloud, Meraki
ITO-05	<b>NetOps On-Premises Cisco DNA Center</b>	Find out how Cisco DNA Center enables hybrid work by leveraging the power of automation, insights, and integrations. Initiate automated troubleshooting and remediate problems easily and remotely.	<b>Cisco DNA Center</b>	Enterprise Networking & Cloud

LOCATION	DEMO NAME	DESCRIPTION	PRODUCTS AND SERVICES	RELATED ARCHITECTURES
ITO-06	<b>Indoor Location Services Cisco DNA Spaces</b>	Location, IoT analytics, onboarding and more come together in Cisco DNA Spaces. In this demo we'll showcase the entire DNA Spaces solution, including the dashboard and integrations. We'll also discuss hybrid work and how location analytics, applications, IoT services, and more can enhance your health and safety plan.	<b>Cisco DNA Spaces, Cisco Catalyst 9100 Access Points, Cisco Catalyst 9000 Switches, Meraki Access Points, Meraki Smart Cameras</b>	Enterprise Networking & Cloud, Meraki
ITO-07	<b>Threat Intelligence Cisco Talos</b>	Cisco Talos is the threat intelligence organization behind Cisco Secure solutions. These experts protect our customers via Cisco Talos Incident Response and Talos Threat Hunting services. Our responders and hunters stand beside our customers, giving access to our world-class intelligence, detection, and response – making our customers more resilient than their competition.	<b>All Cisco Secure Products</b>	Security
ITO-08	<b>SecOps Management Cisco SecureX</b>	SecureX, our cloud-native security platform that includes XDR capabilities, connects the breadth of Cisco's integrated security portfolio and your entire security infrastructure. By delivering a consistent, built-in experience across all of your products you will experience unified visibility, intuitive automation, and robust security across your network, endpoint, cloud, and applications.	<b>All Cisco Secure Products</b>	Security
ITO-09	<b>Hybrid Work Index</b>	Hybrid Work Index demonstrate hybrid work trends that are based on real data and highlights the ability of different Cisco platforms to provide insights for IT practitioners in support of hybrid work deployment. Demo shows how Cisco is a key enabler of hybrid work across collaboration, networking, and security. Demo will also showcase Hybrid Work Maturity Model with 4 levels of Hybrid Work Maturity that are based on a holistic view of the organization's approach to Hybrid Work.	<b>Webex, Umbrella Secure Access by Duo, Meraki, ThousandEyes</b>	Collaboration, Security, Enterprise Networking & Cloud, Meraki, ThousandEyes

LOCATION	DEMO NAME	DESCRIPTION	PRODUCTS AND SERVICES	RELATED ARCHITECTURES
ITO-10	<b>App &amp; Cloud Observability</b> <b>AppDynamics</b> <b>Internet &amp; Cloud</b>	AppDynamics Cloud solution will provide observability into the applications and underlying cloud structure, including databases and networking, Introspect Kubernetes containers, conduct alerting, root cause analysis, and visualization of correlated MELT data for public cloud applications. Identify, triage, and troubleshoot cloud applications in less time and with greater success.	<b>AppDynamics</b>	AppDynamics, Enterprise Networking & Cloud
ITO-11	<b>Internet &amp; Cloud Insights</b> <b>Cisco</b> <b>ThousandEyes</b>	Homegrown monolithic applications are atomizing to service-oriented architectures and migrating to cloud infrastructures create a visibility gap for SRE and DevOps teams. Learn how ThousandEyes combines real-user monitoring with synthetic proactive transactions to detect and resolve performance bottlenecks pre-production and before they impact the users.	<b>ThousandEyes</b>	ThousandEyes
ITO-12	<b>Hybrid Cloud Operations</b> <b>Cisco Intersight</b>	Cisco Intersight delivers the key pillars of the cloud operating model enabling customers to deploy, operate, and optimize infrastructure and applications on-premises, in public cloud, and in multicloud. In this demo we will show how the Cisco Intersight platform provides visibility, automation, orchestration, cloud native services, and workload optimization that lower costs and accelerate hybrid cloud journey for IT operations teams.	<b>Cisco Intersight, Cisco Intersight Kubernetes Service, Cisco Workload Optimizer</b>	Enterprise Networking & Cloud
ITO-13	<b>Cloud Networking</b> <b>Cisco Nexus Cloud</b>	Nexus Cloud is a cloud operations platform that delivers the simplest way to configure, operate and analyze Cloud Networking. Manage global hybrid cloud network lifecycle operations with a centralized management platform. Get comprehensive network infrastructure visibility, accelerate troubleshooting, analyze impact of changes with predictive analytics for compliance, and continuous assurance.	<b>Nexus Cloud</b>	Enterprise Networking & Cloud

LOCATION	DEMO NAME	DESCRIPTION	PRODUCTS AND SERVICES	RELATED ARCHITECTURES
ITO-14	<b>Collaboration Webex Control Hub</b>	Where the dashboard is the platform. Here we will demonstrate the value of critical new capabilities in control hub with ThousandEyes fault isolation, azure AD user integration, coaching/ guided setups, new collaboration restriction group policies for messaging/ meeting, and BYOK encryption.	<b>Webex</b>	Collaboration ThousandEyes
ITO-15	<b>Remote Operations for OT IoT Operations Dashboard</b>	IoT Operational Dashboard enables remote, zero-touch provisioning and monitoring of network devices for operation teams. Within the Dashboard, Secure Equipment Access allows secure configuration and troubleshooting of connected assets, for internal workers and external technicians, using just a browser.	<b>IoT Operations Dashboard, Secure Equipment Access, Industrial Asset Vision, Edge Intelligence, IR1100, IR1800, IG20, IG31R</b>	Internet of Things
COC-01	<b>Cisco on Cisco: Work from Office</b>	Experience how Cisco IT has created collaboration centers that our employees are proud and excited to work in, that are sustainable and safe. We'll show how the combination of network infrastructure from Catalyst, Meraki, and DNA Spaces and cloud-based security from Umbrella provide all of that, and more!	<b>SD-WAN, DNAC, DNA Spaces, Meraki wireless - MR, Meraki Camera, MV Security- ISE, Duo, DHA, Collab-Webex Endpoints, DNA Spaces, Webex Room Navigator</b>	Enterprise Networking & Cloud, Security, Collaboration
COC-02	<b>Cisco on Cisco: IT Operations: Behind the Curtain</b>	Employees can work from anywhere, and data and applications can be in the cloud or on-prem. How does Cisco IT provide secure access and ensure user experience in this brave, new, hybrid world? You'll see how secure endpoint and access management is provided by Cisco SecureX, AMP, and Duo. You'll also discover how Cisco controllers and platforms, as well as ThousandEyes and AppDynamics are used to manage and assure User Experience.	<b>AppDynamics, ThousandEyes (possibly ServiceNow CMDB, AWS CloudWatch), Cisco Secure Endpoint, Umbrella, DNAC, vManage, vAnalytics, Meraki Dashboard</b>	AppDynamics, ThousandEyes Enterprise Networking & Cloud, Security
COC-03	<b>Cisco on Cisco: Collaboration Experience</b>	Cisco IT has enabled our employees to connect, collaborate, and get work done - regardless of where they work from. Come see the applications, video devices, and infrastructure that empower our employee experience, as well as enable the IT organization to manage the environment.	<b>Webex App, Webex Control Hub</b>	Collaboration, Meraki, Enterprise Networking & Cloud

LOCATION	DEMO NAME	DESCRIPTION	PRODUCTS AND SERVICES	RELATED ARCHITECTURES
COC-04	<b>Cisco on Cisco: Work Anywhere</b>	In the new Hybrid World, the majority of our employees will be working from somewhere other than the office the majority of their time. See how Cisco IT enables our employees to work from home with the same experience as working in the office leveraging AnyConnect to provide a software VPN solution and Duo Zero Trust to provide VPN less connectivity.	<b>Zero Trust (Duo Network gateway), Duo Trusted Endpoints, Duo Health App, Umbrella/NVM, Webex App</b>	Enterprise Networking & Cloud, Security, Collaboration
COC-05	<b>Cisco on Cisco: Work from Home</b>	In the new hybrid world, the majority of our employees will be working from home the majority of their time. See how Cisco IT enables our employees to work from home with the same experience as working in the office. You'll see how we use Cisco's Meraki and ISR platforms to provide a hardware-based VPN solution and AnyConnect to provide a software VPN solution. Finally, discover how Duo Zero Trust provides VPN less connectivity.	<b>CVO/ISR, MVO/Meraki, VPN/AnyConnect Security- Zero Trust (Duo Network gateway) Duo trusted Endpoints, Duo Health App, AMP for Endpoints, Umbrella/NVM Webex Headset, Webex App, Webex Endpoints (Desk Pro/ WebexDesk, Webex Desk Mini), Webex Control Hub, Webex Camera</b>	Enterprise Networking & Cloud, Security, Collaboration

## Cisco Showcase > Full-Stack Observability

Businesses are rapidly evolving towards full-stack observability to manage the complexities of the modern application landscape. You need visibility across the entire stack: applications, network, infrastructure, and security, in hybrid environments. Learn how AppDynamics, ThousandEyes, Cisco Intersight, and Secure Application can accelerate your digital transformation journey to the cloud and observe what matters.

LOCATION	DEMO NAME	DESCRIPTION	PRODUCTS AND SERVICES	RELATED ARCHITECTURES
FSO-01	<b>Experience Optimization</b>	Walk through the fundamentals of application monitoring with AppDynamics and its integration capabilities to handle real scenarios with automated decision making. Use cases such as auto-scaling servers in your application infrastructure with Cisco Intersight and AppDynamics, enforcing remediation against threats with Cisco Secure Application for AppDynamics, and tackling network connectivity issues with ThousandEyes and AppDynamics.	<b>AppDynamics, Cisco Intersight, ThousandEyes, Cisco Secure Application for AppDynamics</b>	AppDynamics, ThousandEyes
FSO-02	<b>Solving Internet Scale Problems</b>	Applications are more distributed with an increasing reliance on third-party services, APIs, SaaS, and the Internet, making troubleshooting end-user experience more challenging than ever. Learn how Cisco ThousandEyes can assist in solving Internet problems that impact your business by surfacing events that allow enterprises to focus their efforts.	<b>ThousandEyes</b>	ThousandEyes
FSO-03	<b>Ensuring Optimal SaaS Performance</b>	Learn how to use ThousandEyes monitoring to gain real-time visibility to any Web application. You will hear about some best practices, relevant caveats, and tips to understand the tests results, experience scores, and local network metrics for the endpoint vantage points.	<b>ThousandEyes</b>	ThousandEyes, Enterprise Networking and Cloud
FSO-04	<b>Application Security</b>	Modern hybrid and distributed applications are constantly prone to threats and attack. With Cisco Secure Application for AppDynamics, learn how the solution secures your code, Kubernetes containers, and APIs across the entire application stack and brings together development, performance, and security insights to protect your brand against slowdowns and exploits.	<b>Cisco Secure Application for AppDynamics</b>	AppDynamics

LOCATION	DEMO NAME	DESCRIPTION	PRODUCTS AND SERVICES	RELATED ARCHITECTURES
FSO-05	<b>Application Resource Management</b>	Delivering the right type and amount of infrastructure for your applications to shine while balancing cloud cost, is an increasingly complex problem. In this demo see how AppDynamics and Cisco Intersight Workload Optimizer provide a SaaS delivered, automated and real-time decision engine to assure performance and minimize cost.	<b>AppDynamics, Cisco Intersight</b>	AppDynamics, Enterprise Networking & Cloud

## Cisco Showcase > Hybrid Cloud

Accelerate your business from the data center to the network edge and cloud, with infrastructure built for scale and performance. Cisco Cloud and Data Center offers industry-leading automation, programmability, and real-time visibility for the speed of today's business.

LOCATION	DEMO NAME	DESCRIPTION	PRODUCTS AND SERVICES	RELATED ARCHITECTURES
HYC-01	<b>UCS X-Series Powers any App</b>	Modernize compute infrastructure with the UCS X-Series Modular System by combining the density and efficiency of blade servers with the expandability of rack servers. With 100G unified fabric and UCS X-Fabric Technology for GPU acceleration, X-Series is a future-ready platform for any application.	<b>UCS X-Series</b>	Enterprise Networking & Cloud
HYC-02	<b>HyperFlex Simplifies Hybrid Cloud</b>	Simplify and accelerate your hybrid cloud journey with Cisco HyperFlex Systems, combining a purpose-built data platform, Cisco-engineered hardware, and lifecycle management with the Cisco Intersight cloud operations platform. HyperFlex includes hybrid, all-flash, all-NVMe, HyperFlex Express and Edge offerings that bring the full potential of hyperconvergence to a wide range of workloads and use cases.	<b>HyperFlex</b>	Enterprise Networking & Cloud
HYC-03	<b>Automate Hybrid Cloud Networks</b>	Nexus Dashboard provides a single and unified platform to enable consistent operations and easily connect and manage your hybrid cloud network operations. Connect, monitor, analyze and troubleshoot all your data center fabrics in real time using Nexus Dashboard.	<b>Nexus Dashboard, ACI, Cloud ACI, Nexus Dashboard Insights, Nexus Dashboard Broker, AppDynamics</b>	Enterprise Networking & Cloud, AppDynamics, ThousandEyes
HYC-04	<b>Simplify Hybrid Cloud Networks</b>	Data center fabric controllers optimize and accelerate the entire life cycle of your switches in both physical and virtual environments. APIC and Nexus Dashboard Fabric Controller provide turnkey automation solutions for ACI and NX-OS based LAN, SAN, and IP Media Fabrics with Open API's and IaC automation capabilities.	<b>APIC, NDFC</b>	Enterprise Networking & Cloud
PEDESTAL A	<b>UCS X-Series Modular System</b>	Cisco UCS X-Series Modular System powered by Cisco Intersight is an adaptable, future-ready system engineered to simplify IT and innovate at the speed of software. Take a closer look at the new seven RU, midplane-free chassis with eight front slots for modules, and rear slots for Ethernet and X-Fabric.	<b>UCS X-Series Optics</b>	Enterprise Networking & Cloud

LOCATION	DEMO NAME	DESCRIPTION	PRODUCTS AND SERVICES	RELATED ARCHITECTURES
PEDESTAL B	<b>Cisco HyperFlex HX225c &amp; HX245c</b>	Cisco HyperFlex M6 Systems-engineered on the Cisco UCS platform. Explore the latest 3rd gen AMD EPYC based 1RU and 2RU nodes.	<b>Cisco HyperFlex HX225c &amp; HX245c</b>	Enterprise Networking & Cloud
PEDESTAL C	<b>5th Gen UCS Unified Fabric</b>	The Cisco UCS 6536 Fabric Interconnect is part of an end-to-end solution for Cisco UCS Unified Fabric. It supports lossless, line rate 100Gbps Ethernet, Fibre Channel, and management traffic for UCS X-Series, UCS C-Series, and UCS B-Series servers.	<b>6500 Fabric Interconnect</b>	Enterprise Networking & Cloud
PEDESTAL D	<b>Cisco Nexus 9808 Switch</b>	The Nexus 9808 is a new platform designed for high density and performance for 400G and future transition to 800G and higher speeds.	<b>Cisco Nexus 9808</b>	Enterprise Networking & Cloud
PEDESTAL E	<b>Cisco 64G Storage Networking</b>	Explore Cisco's latest innovations in SAN; the MDS 9700 64G Fibre Channel Module and the MDS 9100 Series 64G Fibre Channel Switches. Cisco MDS storage networks deliver superior 64G Fibre Channel, NVMe enhanced analytics and investment protection to support your next generation workloads.	<b>MDS 9700 / MDS 9124V / MDS 9148V</b>	Enterprise Networking & Cloud
PEDESTAL F	<b>Cisco Nexus 9300/9400 Series</b>	The 9364 is a new addition to the 9300 Series 400G switches. The Nexus 9408 is a new compact modular 400G platform.	<b>Nexus 9364 Nexus 9408 Optics</b>	Nexus 9364 Nexus 9408 Optics

## Cisco Showcase > Industries and Internet of Things (Use Cases)

Discover how we're powering a more inclusive future for all, with technologies and solutions that address current operational challenges. Learn how to leverage your network knowledge and utilize the Cisco IoT portfolio to transform the operational space across a wide variety of industrial use cases. Be sure to explore the Internet of Things product wall.

LOCATION	DEMO NAME	DESCRIPTION	PRODUCTS AND SERVICES	RELATED ARCHITECTURES
IND-01	<b>Education</b>	Cisco securely connects educators, administrators, and students to power inclusive learning from anywhere, at any time and on any device. Our complete portfolio coupled with our global partner ecosystem solutions can help you transform teaching, learning and research for the future.	<b>All Cisco Portfolio</b>	Industries: Education
IND-02	<b>Government</b>	Cisco securely connects governments and constituents with transformative technologies that power inclusive future for all. Together with our ecosystem of solution partners, we help you as you reimagine your countries and communities through an integrated security platform that simplifies your experience, accelerates your mission's success, and secures your agency's future.	<b>All Cisco Portfolio</b>	Industries: Government
IND-03	<b>Sports/Media/Entertainment</b>	Today's Sports, Media, and Entertainment experiences do not start and end at a game. Visibility to systems like ticketing platforms, point of sale, streaming, and merchandising are critical in the guest experience. Cisco provides the vision needed to reduce downtime and enhance system dependability in today's complex ecosystems.	<b>All Cisco Portfolio</b>	Industries: Sports/Media/Entertainment, Transportation
IND-04	<b>Financial Services</b>	Cisco empowers your workers whether at home, in the office, or anywhere. Provide hybrid work experiences so you can deliver a flexible, collaborative, and trusted experience both remotely and in the branch. With solutions that are inclusive, flexible, supportive, secure, and managed, Cisco helps you not just recover and adjust in the face of change but thrive.	<b>All Cisco Portfolio</b>	Industries: Financial Services

LOCATION	DEMO NAME	DESCRIPTION	PRODUCTS AND SERVICES	RELATED ARCHITECTURES
IND-05	<b>Healthcare</b>	Cisco securely connects providers, patients, and staff to transformative technologies that power inclusive care. From the hospital to the clinic to the home, together with our ecosystem of solution partners and the leading expertise of our Customer Experience organization, we help you transform care for the future.	<b>All Cisco Portfolio</b>	Industries: Healthcare
IOT-01	<b>Secure the Operational Space</b>	Cisco Cyber Vision offers visibility into the industrial environment to inventory all connected assets, maps their communications and evaluates the ICS security posture. It shares this information with ISE to enable Zero Trust into the industrial workplace as well as with SecureX to enable threat investigation and remediation across the converged IT/OT domains.	<b>Cyber Vision, IR1101, IR8300, IR1800, IE3400</b>	Internet of Things, Security, Enterprise Networking & Cloud
IOT-02	<b>Bring the Network to the OT Space</b>	Management of industrial switching environments is critical to operating industrial systems on factory floors, substations, roadway aggregation points, etc. Using Assurance from DNA-C, learn how to create templates, workflows, access profiles so on and off-site and employees can access the right system for their operational roles.	<b>DNA-C w/ Assurance &amp; Automation, SD-Access, Industrial Ethernet, IE9300, IE3400, IE3300, IE3200</b>	Internet of Things, Enterprise Networking & Cloud, Service Provider
IOT-03	<b>Meraki Cloud-Managed IoT</b>	Powered by the Meraki cloud platform, MT sensors and MV cameras provide organizations data-powered solutions to monitor conditions in real-time with advanced video analytics and environmental insights. Meraki IoT provides the visibility needed for customers to create smart spaces and automate to optimize processes, minimize costs, and increase sustainability.	<b>MV Smart Cameras MT Sensors</b>	Internet of Things, Meraki

LOCATION	DEMO NAME	DESCRIPTION	PRODUCTS AND SERVICES	RELATED ARCHITECTURES
IOT-04	<b>Ultra-Reliable Wireless Anywhere</b>	Wireless technologies enable successful automation of processes and tasks. Cisco Ultra-Reliable wireless backhaul provides highly available, ultra-low-latency, zero packet loss and seamless-handoffs wireless connectivity. So, you can connect your moving assets or extend your network where running fiber isn't feasible or is too costly.	<b>IG20, IG21R, IG30, IG31R, IR1101, IR1800</b>	Internet of Things, Enterprise Networking & Cloud, Security
IOT-05	<b>Ultra-Reliable Wireless Anywhere</b>	Wireless technologies enable successful automation of processes and tasks. Cisco Ultra-Reliable wireless backhaul provides highly available, ultra-low-latency, zero packet loss and seamless-handoffs wireless connectivity. So, you can connect your moving assets or extend your network where running fiber isn't feasible or is too costly.	<b>Industrial Wireless 9167</b>	Internet of Things, Enterprise Networking & Cloud
IOT-06	<b>Easily Gain Operational Insights</b>	Monitoring and reporting on industrial asset status (temperature, humidity, vibration) is key to an efficient operation. Cisco's Industrial Asset Vision addresses digital blind spots. As an IoT Operations Dashboard module, IAV is a simple all-in-one solution, (sensors, gateway, and dashboard), designed for the operational environment, and is ready to go.	<b>IXM Gateway, Edge Intelligence, Industrial Asset Vision, IoT Operations Dashboard</b>	Internet of Things, Enterprise Networking & Cloud, Security, Service Provider
IOT-07	<b>The Cisco IoT Experience</b>	Explore the market-leading Cisco IoT portfolio featuring highly secure, scalable, and easy-to-manage solutions with comprehensive features for industrial environments. Designed for extreme environments while adhering to industrial network design, compliance, and performance requirements expected by operational teams. Be sure to check out the new IW9167 for use cases where reliable wireless connectivity is critical.	<b>Cyber Vision, DNA-C w/ Assurance &amp; Automation, SD-Access, IE9300, IE3400, IE3300, IE3200, IR1101, IR8300, IR1800, IE3400, IG20, IG21R, IG30, IG31R, IR1101, IR1800, IoT Operations Dashboard, Industrial Asset Vision, Edge Intelligence, Design-In</b>	Internet of Things, Enterprise Networking & Cloud, Meraki, Security, Service Provider

## Cisco Showcase > Innovations

For Cisco, Innovation is at the core of our business. Connect with experts from Meraki, Emerging Technologies and Incubation (ET&I), and Service Provider to explore the latest innovations in smart space analytics and cloud native application security and networking. Plus, learn how to monetize differentiated experiences across your communications network.

LOCATION	DEMO NAME	DESCRIPTION	PRODUCTS AND SERVICES	RELATED ARCHITECTURES
INN-01	<b>Wonder Wall</b>	Reduce the complexity and improve the efficiency of your network by converging layers and integrating automation. End-to-end visibility and control improve network resiliency, offer more complete utilization of assets, and provide the ability to build differentiated SLAs offering new revenue streams for unique network experiences.	<b>Highlights MIG portfolio, UCS, Routers, Automation, Optics</b>	Service Provider
INN-02	<b>Crosswork Network Automation</b>	Mass-scale networks must integrate automation to reduce time to market for services, enable real-time network adaptations to optimize asset utilization, and accelerate assurance data. Cisco Crosswork automation offers an automation platform that spans both cloud/SaaS and on-premises tooling to accelerate network planning, simplify implementation, proactively operate, and optimize multi-vendor and multi-domain networks.	<b>Crosswork Portfolio including: EPNM, NSO, Crosswork Health Insights, Crosswork Data Gateway, Crosswork Cloud</b>	Service Provider
INN-03	<b>Routed Optical Networking</b>	Reduce the complexity and cost of expanding your network footprint and more fully utilize capacity with a simplified IP and Optical architecture that simplifies operations and improves network resiliency and flexibility. This architecture provides deeper visibility into the network and coordinates IP and Optical CAPEX and management improving network management.	<b>CHC (f/k/a Sedona), 400G optics, Cisco MIG routers</b>	Service Provider

LOCATION	DEMO NAME	DESCRIPTION	PRODUCTS AND SERVICES	RELATED ARCHITECTURES
INN-04	<b>Private 5G: Simple and Intuitive</b>	5G, Wi-Fi, and IoT working in concert will transform industries as profoundly as the cloud transformed IT. Once physical operations connect with information systems, analytics and automation can produce massive productivity gains for your business. Powered by a solution that reduces technical, operational, and business risks so you can get started now.	<b>Private 5G solution</b>	Service Provider
INN-05	<b>Global CDN for Next-Gen Streaming</b>	Enable next-gen streaming experiences and set the business and technological foundation for delivering volumetric media for supporting use cases like cloud gaming and augmented collaboration to viewers around the world. A consistent subscriber experience will require a distributed, high-performance content delivery network.	<b>Highlights partnership products with Unity and Qwilt, but the CDN transport is all of the MIG transport networking products</b>	Meraki, Internet of Things
INN-06	<b>Smarter Spaces with Meraki IoT</b>	Meraki MV cameras create safer workplaces for hybrid work, with occupancy analytics, including desk and meeting room availability. Custom computer vision models provide new ways to monitor and manage distributed locations through video. Combine with MT sensor data for complete visibility, creating smart spaces to improve employee productivity and guest experience.	<b>IoT Control Center</b>	Meraki, Internet of Things
INN-07	<b>Monetize Your IoT Business</b>	From connected cars to smart utility meters, Cisco IoT Control Center has intuitive automation, AI/ML analytics, and security to quickly and reliably scale your IoT business off your 5G infrastructure. This solution gives you the insight and agility to quickly capitalize on new 5G market opportunities.	<b>IoT Control Center</b>	Service Provider, Internet of Things

LOCATION	DEMO NAME	DESCRIPTION	PRODUCTS AND SERVICES	RELATED ARCHITECTURES
INN-08	<b>Cloud Native Networks/Security</b>	Businesses are adopting Cloud Native microservice architectures to enable rapid application development with flexibility, stability, portability, and scale. Cisco provides comprehensive solutions to enable you to realize these benefits by securing your containers, workloads, pipelines, and APIs, as well as by simplifying the management of your service mesh.	<b>Panoptica and Calisti</b>	ET&I, Software, Security
INN-09	<b>Observability Innovations</b>	This demonstration monitors cloud native business applications via OpenTelemetry for visibility, performance, and troubleshooting. Microservices are mapped to highlight dependencies and interconnections. The solution also details the resources and attributes of each application component, as well as how these communicate with each other via a distributed tracing timeline.	<b>Telescope</b>	ET&I, Software

## Cisco Showcase > Networking

Connect, secure, and automate your digital business—from user to app—in a cloud-first world. Cisco Networking provides AI-powered automation, control, and trusted-based security to simplify and scale IT operations, deliver unparalleled experiences for users, and help organizations accelerate their digital-first strategy. Explore hardware solutions including optics on the Networking/SD-WAN & SASE/Security solutions wall.
