# <u>Cisco Showcase > Showcase Map > Location: Hall D-E.</u>

#### Welcome to the new Cisco Showcase

Dive into the Cisco Showcase where innovation comes alive. Discover 150+ cutting-edge technologies, inspiring sessions, and immersive experiences designed to empower you to build, scale, and protect your data centers, future-proof your workplaces, and ensure your organization's digital resilience.

Engage with experts to unlock a unified Cisco experience in the Showcase located in the World of Solutions, Hall D-E.

#### **Cisco Showcase > Al-Ready Data Centers**

Discover how Cisco helps organizations modernize and transform data centers to power traditional and AI workloads anywhere. Learn about how Cisco unifies networking, compute, security, and observability to deliver AI-ready data centers. With Cisco, organizations can accelerate AI initiatives without compromise—maximizing agility while building digital resilience.

LOCATION	DEMO NAME	DESCRIPTION	PRODUCTS AND SERVICES
AIDC-01	Manage your AI fabric: Automate AI: Nexus Dashboard   Flow intelligence: Nexus Dashboard	Learn how you can simply manage and automate the networking operations and analytics for Cisco Secure AI factory with NVIDIA in one, easy-to-use Cisco Nexus Dashboard.	Nexus Dashboard (Nexus 9364E- SG2-O and Nexus 9364D-GX2A)
AIDC-02	Integrated rack design: Liquid cooling for networking   Linear pluggable optics   Rack system cooling	For customers looking for a liquid cooling solution without data center layout changes, Cisco is partnering with Vertiv to demonstrate power, cooling, and IT infrastructure solutions from cloud to edge, addressing critical cooling challenges in data centers.  The Cisco and Vertiv validated solution integrates with Cisco hardware, supporting 50kW high-density racks with complete cooling infrastructure and services. We are also demonstrating energy management capabilities to visualize, optimize, and automate energy efficiency throughout the data center.  Cisco will demonstrate 20% power consumption savings using Cisco 800G LPO optics on the Nexus 64-port switch N9364E-SG2-O. These innovative optics designed with Cisco Silicon Photonics technology only consume half the power compared with traditional 800G optics and saves at least 500W on each fully loaded switch with optics.	UCS-X, Nexus 51.2T Switch, 64 LPO Optics, Nexus Dashboard, L2A CDU, LC UCS-C215 M8

AIDC-03	Visual AI agents: Unlock insights from petabytes of visual data	NVIDIA AI Blueprint for Video Search and Summarization (VSS) provides developers with the tools to build and deploy AI agents to perform contextualized video summarization, Q&A, and alerts by analyzing large quantities of live and recorded video.	NVIDIA AI Blueprint for Video Search and Summarization (VSS), NVIDIA RTX PRO™ 6000 Blackwell Server Edition
AIDC-04	Networking for AI: Cisco Silicon One	Cisco Silicon One is transforming the industry by enabling rapid large-scale AI/ML buildouts that previous networks couldn't support. It powers both Cisco and third-party systems, delivering breakthrough innovation and best-in-class features to enhance these networks. The technology efficiently processes workloads, supports scalable clusters, enables sustainable data centers, and offers advanced capabilities for managing and securing these environments. Discover how Silicon One, in conjunction with Cisco Optics and systems, is reshaping network infrastructure to meet the demands of AI/ML centers with exceptional efficiency and scalability.	Cisco Silicon One
AIDC-05	Full-stack Al infrastructure: Al Infra: Nexus Hyperfabric Al   Experience: Nexus Hyperfabric Al	Learn how you can build your Secure Al Factory with a vertically integrated, cloud-managed, full-stack Al infrastructure solution that helps mitigate deployment risk and accelerates time to value.	Cisco Hyperfabric AI (HF6100- 32D, HF6100-60L4D and Cisco HF6100-64D)
AIDC-06	Improving power usage effectiveness: Immersion cooling   Energy management	For customers who need to solve data center hot spots or enable new highefficiency facilities, Cisco is partnering with Green Revolution Cooling (GRC), to demonstrate single-phase immersion cooling technologies. The Cisco and GRC validated solution integrates Cisco Compute hardware with GRC immersion cooling, providing 368kW cooling per tank in a stand-alone, liquid-to-air cooling solution specifically designed to support high-density, Al-powered servers are cooled effectively and efficiently while immersed. The system is a self-contained cooling system with a liquid-to-air heat rejection at the rear of the unit.	UCS-CMxxx (Immersion Modified), Nexus 9K 100 400 Gb, Catalyst 9300, 100G Fiber for UCS-Nexus, 10G DAC Nexus-to- UCS, RJ45 for PC to UCS Management Port
AIDC-07	Unlock hybrid cloud: Cisco UCS   Nutanix   HCI	See how Cisco Compute Hyperconverged with Nutanix can accelerate AI and IT modernization initiatives from the data center to the edge.	UCS X-Series Modular System, UCS C-Series Rack Servers

AIDC-08	Accelerate AI deployments: Cisco AI PODs	Experience the power of Cisco AI PODs. Discover how our purpose-built AI infrastructure solution simplifies deployment, boosts scalability, and accelerates results for your AI workloads. Tailored for diverse industries, Cisco AI PODs empower businesses to unlock innovation and achieve measurable outcomes with ease.	UCS X-Series Modular System
AIDC-09 and AIDC-10	Cisco on Cisco: Cisco IT: Deploying Al-ready data centers	Learn how Cisco IT designed Al-ready infrastructures with Cisco compute, best-in-class NVIDIA GPUs, and Cisco networking that supports Al model training and inferencing across dozens of use cases for Cisco product and engineering teams.	Nexus Dashboard, Sonic, Cisco Hyperfabric AI, Secure Firewall
AIDC-11	Simplify IT operations: Cisco Intersight   Cisco Intersight add-on for Splunk	Discover the power of Cisco Intersight, a SaaS-based IT operations platform that simplifies infrastructure management, automates workflows, and enhances security. Boost efficiency, reduce downtime, and drive innovation with Aldriven insights and end-to-end lifecycle management. Join our demo to transform your IT operations and achieve real-world outcomes tailored to your needs.	Cisco Intersight
AIDC-12	Intelligent unified operations: Simplify ops: Nexus Dashboard   Unified fabric: Nexus Dashboard	Transform data center operations with Cisco Nexus Dashboard. Gain unified management, Al-powered insights, and automation across LAN, SAN, IPFM, and Al/ML fabrics to optimize performance, prevent outages, and enhance security. Streamline workflows, enforce policies consistently, and achieve smarter, more efficient network management across VXLAN-EVPN and Cisco ACI fabrics.	Nexus 9332D-H2R, Nexus 93400LD-H1, Nexus 93180YC- FX3, Nexus 9808
AIDC-13	Simple cloud operations: Cisco Nexus Hyperfabric	Explore Cisco Nexus Hyperfabric, the cloud-managed network fabric solution for data centers. Delivered as a service, it allows customers to effortlessly design, deploy, manage, and scale multiple fabrics worldwide with minimal expertise. Join us for a demo to experience its capabilities firsthand.	
AIDC-14	Secure data center networking: Cisco N9300 Smart Switch   Hypershield   Nexus Dashboard	Experience where security meets the network with Cisco N9300 Series Smart Switches, featuring Cisco Hypershield and Nexus Dashboard. Discover unparalleled protection, optimal performance, and programmable services in a compact design. Join us for a demo to see these innovations in action.	N9324C-SE1U Smart Switch, N9348Y2C6D-SE1U Smart Switch

AIDC-15	Fusing security and	Integrate security directly into your	Hypershield, Smart Switch,
	networking: Hypershield   Smart Switch   Hybrid Mesh Firewall	network infrastructure with Hypershield and Smart Switch capabilities within Cisco Hybrid Mesh Firewall. Learn how this solution enables device consolidation through high-capacity L4 enforcement supplemented at the DC network fabric level, allowing for security enforcement and policy validation at every connection point without compromising performance.	Hybrid Mesh Firewall
AIDC-16	Global intent-based policy: Cisco Security Cloud Control   Hybrid Mesh Firewall	Cut management time drastically by taking advantage of our AI native capabilities in Security Cloud Control, the management layer for Cisco Hybrid Mesh Firewall, while creating policy once and enforcing on Cisco and non-Cisco firewalls for consistent policy enforcement across your enterprise.	Cisco Security Cloud Control, Hybrid Mesh Firewall
AIDC-17	Simplify threat protection: Cisco Secure Firewall   Hybrid Mesh Firewall	See how you can leverage Cisco Hybrid Mesh Firewall to detect attackers hiding in encryption while also layering in segmentation to stop lateral movement for a defense in depth approach to protecting data centers.	Cisco Secure Firewall, Hybrid Mesh Firewall
AIDC-18	Protecting AI applications: AI Defense   Hybrid Mesh Firewall	Protect your AI infrastructure with AI Defense. Learn how this solution provides the discovery of AI assets across your enterprise and visibility into your AI ecosystem, while delivering specialized protection against emerging threats targeting AI applications. Maintain security and compliance for your AI investments with centralized oversight and protection.	Cisco Al Defense
AIDC-19	Segment your hybrid cloud apps: Secure Workload   Isovalent   Hybrid Mesh Firewall	Segmentation that meets you where you are. Learn how Cisco Hybrid Mesh Firewall can help you on your segmentation journey by providing agentless and agent-based segmentation for your traditional and modern applications, thereby minimizing attack surface, and stopping unauthorized lateral movement.	Secure Workload, Isovalent, Hybrid Mesh Firewall
AIDC-20	Seamless VM Migration: Isovalent Networking for virtualization	Seamlessly migrate your VMs across virtualization platforms. Join our demo and learn how to automate seamless migration of VMs with the Isovalent Network Bridge from traditional virtualization platforms to platforms like OpenShift, Kubernetes, or OpenStack. The demo showcases connecting environments, offering modernized networking, microsegmentation, and unified visibility to provide a platform to automate migration of VMs across environments while providing reliable and secure connectivity.	Isovalent Networking for Kubernetes

AIDC-21	Secure Kubernetes Networking: Isovalent Networking for Kubernetes	Unlock unmatched security, reliability, and performance for cloud native environments like Kubernetes! This demo showcases Isovalent Networking for Kubernetes, based on Cilium, delivering zero-trust policies, seamless observability, high-performance connectivity, and load balancing, all tailored for modern cloudnative environments.	Isovalent Load Balancer, Isovalent Networking for Kubernetes
AIDC-22	Secure and Observe Applications: Isovalent Runtime Security and Splunk	Isovalent's Runtime Security uses eBPF to give security teams deep visibility and control for application runtime and network behavior, while requiring no application changes and incurring minimal performance overhead. An out-of-the-box integration with Splunk enables powerful workflows for threat detection, incident investigations, continuous compliance monitoring and zero-touch CVE mitigation.	Isovalent Runtime Security
AIDC-23	Digital resilience with Splunk: Splunk AI Assistants	Learn about the generative AI assistants Splunk is developing which allow you to onboard users more quickly and gain even more value from the Splunk platform.	Splunk AI Assistant in Security, Splunk AI Assistant for SPL
AIDC-24	Maximize value: Adoption- boosting automation and personalized guidance	Extract maximum value from your data center investment with adoption-boosting automation and personalized guidance. Learn how Cisco Services can help you maximize your existing data center value or build new AI capabilities. Ensure optimal network performance for AI workloads with expert guidance and proven methodologies.	Cisco Lifecycle Services, Cisco Solution Attached Services, Cisco Advanced Services
AIDC-25	Accelerate and optimize deployment: Implementation and modernization services	Unlock the potential of AI-ready data centers. Cisco Services can help you implement and modernize your data center with speed and confidence. Learn about services for customizing and optimizing Cisco AI PODs and ensuring your infrastructure meets AI's demanding compute, storage, and throughput needs.	Cisco Lifecycle Services, Cisco Solution Attached Services, Cisco Advanced Services
AIDC-26	Enable resilient operations: Modern Al- powered proactive and predictive support	Enable reliable, resilient, and secure operations for your Al-ready data center. Learn how Cisco's modern Al-powered support helps you maximize uptime and minimize risk. Our approach moves beyond reactive fixes, by delivering a personalized, proactive, and predictive support experience that is essential for the Al era.	Cisco Lifecycle Services, Cisco Solution Attached Services, Cisco Advanced Services

#### **Cisco Showcase > AI Theater**

30-minute sessions focused on Cisco's holistic Al strategy, combining infrastructure, application, automation, and responsible Al governance. The sessions are recorded and posted in the Cisco Live On-Demand Library.

#### **Cisco Showcase > Center Stage**

Join dynamic discussions featuring Cisco leaders and customers highlighting real-world use cases, architectures, and outcomes. Gain practical insights to help you drive greater business impact, implement scalable solutions, and stay ahead of evolving industry demands.

#### **Cisco Showcase > Cisco Customer Experience**

Cisco Services, Support, and Customer Success are your partners across the technology lifecycle. Learn how you can get to your desired outcomes across networking, compute, security, observability, and collaboration with speed and confidence. See how our lifecycle approach and modern, personalized support enable reliable, resilient, and secure operations.

LOCATION	DEMO NAME	DESCRIPTION	PRODUCTS AND SERVICES
CX-01	Simplified Cisco services portfolio: Full lifecycle coverage with flexible choices	Optimize your IT experience with professional services and support that are personalized, proactive, and predictive. Learn how Cisco Services has simplified our portfolio of lifecycle and support services to make it even easier for you to access AI-powered expertise and personalized insights for your unique infrastructure engineering, operations, and business needs.	AS-T, Lifecycle Services (LCS), Success Tracks, TAC, Expert Care
CX-02	Professional services: Accelerate and optimize IT modernization	Efficiently optimize your IT environment through expert advice to accelerate deployment and time to value. Explore how Cisco Services can maximize your IT investments with data-driven insights, crash risk mitigation, and configuration best practices to achieve streamlined operations, reliability, and optimal device capacity.	AS-T, Lifecycle Services (LCS), Success Tracks, TAC, Expert Care
CX-03	Modern Al-powered support: Enable reliable, resilient, and secure operations	Experience a new era of IT support with Aldriven automation and intelligence. Learn how modern Al-powered support enables reliable, resilient, and secure operations that maximizes uptime and minimizes risk. Our approach moves beyond reactive fixes, delivering a personalized, proactive, and predictive support experience that is essential for the Al era.	AS-T, Lifecycle Services (LCS), Success Tracks, TAC, Expert Care
CX-04	Customer success: Value- boosting automation and personalized guidance	Looking to get more from your technology investments? Explore how Cisco Customer Success leverages value-boosting automation and personalized recommendations to help you realize value faster by using more technology features to simplify operations, improve performance, and achieve your business outcomes.	AS-T, Lifecycle Services (LCS), Success Tracks, TAC, Expert Care

#### **Cisco Showcase > Cisco Platform Advantage**

Discover how Cisco's platform approach integrates our extensive product portfolio, offering compounding value with less management effort for each new investment. Learn about how Cisco's platform advantage across networking, security, silicon, data, and Al delivers greater insights, automation, and protection as your adoption grows.

LOCATION	DEMO NAME	DESCRIPTION	PRODUCTS AND SERVICES
CPA-01	Unify security management: Security Cloud Control   Cloud Protection Suite	Discover how Cisco's Al-powered Security Cloud Control streamlines security management, eliminates misconfigurations, and enhances operations. Explore use cases like hybrid access, unified product queries, and optimized firewall rule management across Cisco and third-party systems. Experience seamless workflows and robust protection for hybrid and multicloud environments.	Cisco Security Cloud Control, Cisco Cloud Protection Suite, User Protection Suite, Cisco Secure Access
CPA-02	Al for Security: Cisco Foundation Al   Talos   XDR	Explore how Cisco is leveraging AI technology to empower security operations and deliver outcomes. Learn about Cisco Foundation AI open-source, purpose-build security models that can empower your cybersecurity applications; discover Talos threat research innovations, and experience Cisco XDR's agentic AI, automating investigations, reducing MTTR, and fortifying defenses across the enterprise.	Cisco Foundation AI, XDR, Security Cloud Control, Talos Threat Intelligence
CPA-03	Outsmart identity attacks: Trusted Identity Edge   Identity Intelligence   ISE   Duo	Discover how Cisco's Trusted Identity Edge integrates identity context across users and devices to fortify identity security and deliver dynamic access policies. Explore seamless integration of Cisco Identity Services Engine (ISE), Cisco Identity Intelligence (CII), and Duo across Cisco Security Cloud to deliver continuous identity visibility and security. Learn the latest innovations that enhance zero trust access and provide robust identity protection across your environments.	Duo, Cisco Identity Intelligence (CII), ISE (Identity Service Engine), Cisco Secure Access, Cisco XDR
CPA-04	Phish-proof your organization: Duo   Secure Access   XDR   User Protection Suite	Make your organization phishing resistant with a layered defense approach. Discover how Cisco Security Suite integrates email threat defense, phishing-resistant authentication, and Cisco Identity Intelligence (CII) with Cisco XDR to detect and stop identity-based attacks. Learn how user trust scores further strengthen zero trust access and prevent imposters from accessing sensitive data.	Duo, Cisco Identity intelligence (CII), ISE (Identity service Engine), Cisco Email threat defense, Cisco Secure Access, Cisco XDR

CPA-05	XDR for the Meraki IT Pro:	Discover how Cisco's integrated solutions	Cisco Meraki, Secure Connect,
	Meraki   XDR   Secure Access   Security Suites	simplify your security and networking operations while streamlining zero trust implementation. Explore the seamless integration of Cisco Meraki, Cisco XDR, and Cisco Secure Access to prevent, detect, and respond to threats effectively. Learn how Cisco's platform complements Microsoft E3, protecting your investments and enhancing operational efficiency.	Secure Access, Cisco XDR, Cisco User Protection Suite, Cisco Breach Protection Suite
CPA-06	Distributed analytics: Cisco Secure Firewall   Secure Network analytics   Splunk	Discover how the Splunk Federated Data Platform integrates with Cisco Security solutions to enhance security operations. Leverage distributed analytics to analyze firewall and other network security events, providing visibility into threats without ingesting raw logs into Splunk. Empower teams with advanced analytics and real-time threat intelligence.	Cisco Secure Firewall, SAL (Security Analytic Logs), Secure Network Analytics, Splunk, XDR, Breach Protection Suite
CPA-07	Create data dashboards: Splunk Dashboard Studio	Master the art of data visualization with Splunk Dashboard Studio to accelerate decision-making and insight generation. Learn how to build and manage custom, presentation-ready Splunk dashboards to help you derive more value from your data.	Splunk Dashboard Studio
CPA-08	Streamline data pipelines: Splunk Data Management and Federated Analytics	Learn how Splunk empowers organizations to streamline data pipelines with advanced filtering, masking, and enrichment capabilities and to establish routing rules to optimize storage, boost search performance, and meet compliance. Then leverage data federation to apply analytics wherever your data resides.	Splunk's Federated Analytics
CPA-09 and CPA-10	Networking for AI: Cisco Silicon One	Cisco Silicon One is transforming the industry by enabling rapid large-scale AI/ML buildouts that previous networks couldn't support. It powers both Cisco and third-party systems, delivering breakthrough innovation and best-in-class features to enhance these networks. The technology efficiently processes workloads, supports scalable clusters, enables sustainable data centers, and offers advanced capabilities for managing and securing these environments. Discover how Silicon One, in conjunction with Cisco Optics and systems, is reshaping network infrastructure to meet the demands of AI/ML centers with exceptional efficiency and scalability.	Cisco Silicon One

CPA-11	App Marketplace and APIs: Cisco Networking APIs   App Marketplace	Hybrid Work, IoT, AI, and Distributed Data—these elements are driving network complexity, leading to fragmented solutions and limited IT visibility. Stop in for a demo to learn more about Cisco's APIs and ecosystem partnerships that help simplify management, enhance performance, and enable scalable, unified network infrastructures—helping businesses adapt quickly and efficiently.  For IT teams seeking comprehensive visibility and agility in managing their digital infrastructure, Cisco's APIs and Ecosystem offer a transformative solution.	Cisco Networking App Marketplace Featured ecosystem partners: Splash Access, EVERYANGLE
CPA-12	One license, unified support: Cisco Networking Subscription	The Cisco Networking Subscription is a new licensing model designed to deliver a seamless, secure, and integrated network experience across cloud, on-premises, and hybrid environments. Unified licensing unlocks advanced features across platforms and provides consistent and reliable support for both hardware and software.	Cisco Networking Subscription
CPA-13	On-prem network management: Catalyst Center Global Manager   RBAC	Catalyst Center Global Manager streamlines large, complex global networks, offering unified operations with global visibility into campus networks and policies. Simplify access management with integrated Role-Based Access Control (RBAC). From monitoring to streamlined access, these solutions accelerate operations so you can scale securely with confidence.	Cisco Catalyst Center Global Manager, Networking Cloud Control: RBAC
CPA-14	Cloud network management: Cisco Meraki Dashboard   AI Assistant   RBAC	The Cisco Meraki dashboard enables a unified management experience for seamlessly managing cloud, on-prem, or hybrid networks. Deliver exceptional experiences by letting the AI Assistant handle the complexity: summarizing docs, troubleshooting issues, and triggering workflows across domains - through one secure and intuitive interface. With its powerful capabilities, you can proactively manage networks, eliminate silos, optimize performance, and reduce human workloads.	Cisco Meraki Dashboard, Cisco Al Assistant, RBAC

CPA-15	Assurance with Cisco: Networking   Cisco ThousandEyes   Al Assistant	Get deep visibility across every network—owned or unowned—with Cisco ThousandEyes built into Networking Cloud Control and Catalyst Center. See how the AI Assistant streamlines troubleshooting and surfaces device health insights—from org-wide views down to the individual device, for faster, smarter assurance across your entire network.	Cisco ThousandEyes, Cisco Al Assistant
CPA-16	AgenticOps for networking: Al Assistant   Cisco Workflows	Learn about Cisco Workflows, the free, low/no-code cross-domain automation solution that is now directly integrated into the Cisco Meraki dashboard. Easily consume, create, and manage autonomous workflows and automations that dramatically reduce OPEX, eliminate manual errors, and simplify operations.	Cisco Workflows, Cisco Meraki Dashboard, Cisco Al Assistant
CPA-17	AgenticOps in motion: Al Assistant	Cisco is unveiling a new generation of AI capabilities designed to transform how NetOps teams see, solve, and share problems. No more swivel-chairing across dashboards. No more escalation pingpong. No more guesswork. Just AI that assists, accelerates, and automates—across your entire network.	Cisco Al Assistant
CPA-18	Internet of Agents and Quantum: Explore Outshift by Cisco's latest Incubations	Want to see how the Internet of Agents (IoA) and quantum networking are shifting the vision for emerging tech? Visit the Outshift by Cisco demo station to learn about our advancements in quantum networking and see how IoA, an open, interoperable internet for agent-to-agent collaboration, is accelerating how work gets done.	Outshift, Internet of Agents and Quantum Networking

#### **Cisco Showcase > Cisco Security**

Cisco shines when security meets the network. Discover how Cisco and Splunk are innovating to deliver security solutions that drive digital resilience for your organization. Explore how we leverage AI to power your defenses for transformational cloud protection, user protection, and security analytics and response. You can find these Security demos throughout the Showcase in AI-Ready Data Centers, Cisco Platform Advantage, Digital Resilience, Future-Proofed Workplaces, and the Security Operations Center (SOC).

LOCATION	DEMO NAME	DESCRIPTION	PRODUCTS AND SERVICES
AIDC-15	Fusing security and networking: Hypershield   Smart Switch   Hybrid Mesh Firewall	Integrate security directly into your network infrastructure with Hypershield and Smart Switch capabilities within Cisco Hybrid Mesh Firewall. Learn how this solution enables device consolidation through high-capacity L4 enforcement supplemented at the DC network fabric level, allowing for security enforcement and policy validation at every connection point without compromising performance.	Hypershield, Smart Switch, Hybrid Mesh Firewall

AIDC-16	Global intent-based policy: Cisco Security Cloud Control   Hybrid Mesh Firewall	Cut management time drastically by taking advantage of our AI native capabilities in Security Cloud Control, the management layer for Cisco Hybrid Mesh Firewall, while creating policy once and enforcing on Cisco and non-Cisco firewalls for consistent policy enforcement across your enterprise.	Cisco Security Cloud Control, Hybrid Mesh Firewall
AIDC-17	Simplify threat protection: Cisco Secure Firewall   Hybrid Mesh Firewall	See how you can leverage Cisco Hybrid Mesh Firewall to detect attackers hiding in encryption while also layering in segmentation to stop lateral movement for a defense in depth approach to protecting data centers.	Cisco Secure Firewall, Hybrid Mesh Firewall
AIDC-18	Protecting AI applications: AI Defense   Hybrid Mesh Firewall	Protect your Al infrastructure with Al Defense. Learn how this solution provides the discovery of Al assets across your enterprise and visibility into your Al ecosystem, while delivering specialized protection against emerging threats targeting Al applications. Maintain security and compliance for your Al investments with centralized oversight and protection.	Cisco Al Defense
AIDC-19	Segment your hybrid cloud apps: Secure Workload   Isovalent   Hybrid Mesh Firewall	Segmentation that meets you where you are. Learn how Cisco Hybrid Mesh Firewall can help you on your segmentation journey by providing agentless and agent-based segmentation for your traditional and modern applications, thereby minimizing attack surface and stopping unauthorized lateral movement.	Secure Workload, Isovalent, Hybrid Mesh Firewall
AIDC-20	Seamless VM Migration: Isovalent Networking for virtualization	Seamlessly migrate your VMs across virtualization platforms. Join our demo and learn how to automate seamless migration of VMs with the Isovalent Network Bridge from traditional virtualization platforms to platforms like OpenShift, Kubernetes, or OpenStack. The demo showcases connecting environments, offering modernized networking, microsegmentation, and unified visibility to provide a platform to automate migration of VMs across environments while providing reliable and secure connectivity.	Isovalent Networking for Kubernetes
AIDC-21	Secure Kubernetes Networking: Isovalent Networking for Kubernetes	Unlock unmatched security, reliability, and performance for cloud native environments like Kubernetes! This demo showcases Isovalent Networking for Kubernetes, based on Cilium, delivering zero-trust policies, seamless observability, high-performance connectivity, and load balancing, all tailored for modern cloudnative environments.	Isovalent Load Balancer, Isovalent Networking for Kubernetes
AIDC-22	Secure and Observe Applications: Isovalent	Isovalent's Runtime Security uses eBPF to give security teams deep visibility and	Isovalent Runtime Security

	Runtime Security and Splunk	control for application runtime and network behavior, while requiring no application changes and incurring minimal performance overhead. An out-of-the-box integration with Splunk enables powerful workflows for threat detection, incident investigations, continuous compliance monitoring and zero-touch CVE mitigation.	
CPA-01	Unify security management: Security Cloud Control   Cloud Protection Suite	Discover how Cisco's Al-powered Security Cloud Control streamlines security management, eliminates misconfigurations, and enhances operations. Explore use cases like hybrid access, unified product queries, and optimized firewall rule management across Cisco and third-party systems. Experience seamless workflows and robust protection for hybrid and multicloud environments.	Cisco Security Cloud Control, Cisco Cloud Protection Suite, User Protection Suite, Cisco Secure Access
CPA-02	Al for Security: Cisco Foundation Al   Talos   XDR	Explore how Cisco's Al-driven solutions simplify modern security challenges and empower security operations. Learn to manage third-party shadow Al, leverage Al for threat detection and response, and discover Talos threat research innovations. Experience how Cisco XDR uses agentic Al to automate investigations, reduce MTTR, and fortify defenses across hybrid and multicloud environments.	Al Defense, Al-Access (as part of Secure Access) XDR, Security Cloud Control, Talos Threat Intelligence
CPA-03	Outsmart identity attacks: Trusted Identity Edge   Identity Intelligence   ISE   Duo	Discover how Cisco's Trusted Identity Edge integrates identity context across users and devices to fortify identity security and deliver dynamic access policies. Explore seamless integration of Cisco Identity Services Engine (ISE), Cisco Identity Intelligence (CII), and Duo across Cisco Security Cloud to deliver continuous identity visibility and security. Learn the latest innovations that enhance zero trust access and provide robust identity protection across your environments.	Duo, Cisco Identity Intelligence (CII), ISE (Identity Service Engine), Cisco Secure Access, Cisco XDR
CPA-04	Phish-proof your organization: Duo   Secure Access   XDR   User Protection Suite	Make your organization phishing resistant with a layered defense approach. Discover how Cisco Security Suite integrates email threat defense, phishing-resistant authentication, and Cisco Identity Intelligence (CII) with Cisco XDR to detect and stop identity-based attacks. Learn how user trust scores further strengthen zero trust access and prevent imposters from accessing sensitive data.	Duo, Cisco Identity Intelligence (CII), ISE (Identity Service Engine), Cisco Email Threat defense, Cisco Secure Access, Cisco XDR
CPA-05	XDR for the Meraki IT Pro: Meraki   XDR   Secure Access   Security Suites	Discover how Cisco's integrated solutions simplify your security and networking operations while streamlining zero trust implementation. Explore the seamless integration of Cisco Meraki, Cisco XDR, and	Cisco Meraki, Secure Connect, Secure Access, Cisco XDR, Cisco User Protection Suite, Cisco Breach Protection Suite

		Cisco Secure Access to prevent, detect, and respond to threats effectively. Learn how Cisco's platform complements Microsoft E3, protecting your investments and enhancing operational efficiency.	
CPA-06	Distributed analytics: Cisco Secure Firewall   Secure Network analytics   Splunk	Discover how the Splunk Federated Data Platform integrates with Cisco Security solutions to enhance security operations. Leverage distributed analytics to analyze firewall and other network security events, providing visibility into threats without ingesting raw logs into Splunk. Empower teams with advanced analytics and real-time threat intelligence.	Cisco Secure Firewall, SAL (Security Analytic Logs), Secure Network Analytics, Splunk, XDR, Breach Protection Suite
DR-01	Power the SOC of the future	See Cisco's unified threat detection, investigation, and response capabilities to help with an incident involving lateral movement on the network and ransomware.	Cisco XDR, Splunk Enterprise Security, Splunk SOAR, AI Assistant
DR-02	Unify and automate SecOps: Splunk Enterprise Security   Splunk SOAR	Experience how Enterprise Security surfaces lateral movement detections from tools like Cisco XDR, and how ES automates responses using SOAR across both your Cisco and non-Cisco security tools (Endpoint, Firewall, Identity).	Splunk Enterprise Security (ES), Splunk SOAR
DR-03	Federated data management: Splunk Platform   Splunk Enterprise Security	Learn how to effectively address complex data management needs. Seamlessly access data stored across different data stores for search and analytics.	Splunk Platform, Splunk Enterprise Security (ES)
DR-04	Gain asset and attack insights: Splunk Asset and Risk Intelligence   Splunk Attack Analyzer	Learn how to gain continuous asset discovery and compliance monitoring with comprehensive asset inventories.  Additionally, learn how to automate threat analysis of suspected malware or credential phishing threats to help analysts better understand active threats.	Splunk Asset and Risk Intelligence (ARI), Splunk Attack Analyzer (SAA)
DR-05	Al-guided investigations: Al Assistant in security	Learn how Splunk Enterprise Security leverages the newly available AI Assistant to expedite incident investigations, enhancing security operations efficiency and accuracy.	Splunk Enterprise Security (ES)
DR-06	Instant attack verification: Cisco XDR   Splunk Enterprise Security	Go from endless investigation to remediating the highest priority incidents with Al-enhanced speed, efficiency, and decisiveness with a network-centric XDR.	Cisco XDR, Splunk Enterprise Security
DR-07	Simplify security operations: Cisco XDR   Meraki MX	Discover how the Cisco XDR incident view in the Meraki dashboard simplifies network security operations, providing a seamless user experience that improves threat detection and incident response.  Experience the unified visibility and enhanced threat detection the Cisco XDR	Cisco XDR, Cisco Meraki MX

	1	I	T
		integration with Meraki MX offers to security and network defenders.	
FPW-07	SASE with Cisco: Secure Access and SD-WAN: Catalyst   Meraki   Secure Firewall	See how Universal ZTNA enables hybrid private access by enforcing zero trust locally for a consistent user experience when at home, at HQ, or at the branch office. Learn how Cisco SASE (Cisco Catalyst, Meraki, and FTD SD-WAN with Cisco Secure Access) enables flexibility, simplicity, and security. Learn about FedRAMP certification for SASE with Cisco.	Security Cloud Control, Cisco Catalyst SD-WAN, Meraki SD- WAN, FTD SD-WAN, Cisco Secure Access, Cisco Secure Access for Government
FPW-08	SASE with Cisco: Meraki SD- WAN with Cisco Secure Access	See how Meraki SD-WAN now integrates with Cisco Secure Access to enable a common SSE solution across all our SD-WAN options.	Cisco Meraki SD-WAN, Cisco Secure Access
FPW-09	User protection for GenAI: Universal ZTNA: Cisco Secure Access	Users are engaging with LLM models, but do you know which ones? And how to ensure they are using them appropriately? Learn how to implement safe and secure access to GenAl apps with our automated guardrails policy.	Cisco Secure Access
FPW-10	Identity and user trust: Universal ZTNA: Cisco Secure Access   Duo   ISE	Discover how Cisco Duo User Trust Score, Identity Intelligence, and Secure Access accelerate zero trust maturity by combating identity attacks with Continuous Identity Security. Experience zero trust segmentation with Cisco ISE, enforcing the least privilege access for IOT—across highly distributed environments.	Cisco Secure Access, Duo, Cisco Identity Intelligence, Cisco ISE
SOC-01	Security Operations Center (SOC)	Get a behind-the-scenes look at how active threats are detected by Cisco Security and Splunk in real-time traffic, in partnership with the Network Operations Center (NOC). Sign up for daily tours.	Cisco Catalyst 9800-40 Wireless Controller, Cisco Catalyst 9800- 80 Wireless Controller, Cisco Catalyst 9500X-60L4D, Cisco Secure Firewall Management Center, Cisco Firepower 9300 Series, Cisco Catalyst 9606R, Cisco Catalyst C8500-20X6C, Cisco Nexus 9504, Cisco UCS 6536 Fabric Interconnect, Cisco UCS X-Series, X-Fabric Module, Cisco Nexus 9336C-FX2, Cisco Nexus 93180YC-FX, Splunk Edge Hub, Cisco UCS C220 M4, Cisco Catalyst Center, Cisco Secure Firewall 3100 Series, Cisco UCS C220 M5, Cisco Nexus 9372PX, Cisco Access Point

#### **Cisco Showcase > Digital Resilience**

Discover how Cisco keeps your organization securely up and running in the face of any disruption. Learn how Cisco provides visibility and insights across the entire digital footprint, uniquely combining the power of the network with security, observability, and assurance.

LOCATION	DEMO NAME	DESCRIPTION	PRODUCTS AND SERVICES
DR-01	Power the SOC of the future	See Cisco's unified threat detection, investigation, and response capabilities to help with an incident involving lateral movement on the network and ransomware.	Cisco XDR, Splunk Enterprise Security, Splunk SOAR, AI Assistant
DR-02	Unify and automate SecOps: Splunk Enterprise Security   Splunk SOAR	Experience how Enterprise Security surfaces lateral movement detections from tools like Cisco XDR, and how ES automates responses using SOAR across both your Cisco and non-Cisco security tools (Endpoint, Firewall, Identity).	Splunk Enterprise Security (ES), Splunk SOAR
DR-03	Federated data management: Splunk Platform   Splunk Enterprise Security	Learn how to effectively address complex data management needs. Seamlessly access data stored across different data stores for search and analytics.	Splunk Platform, Splunk Enterprise Security (ES)
DR-04	Gain asset and attack insights: Splunk Asset and Risk Intelligence   Splunk Attack Analyzer	Learn how to gain continuous asset discovery and compliance monitoring with comprehensive asset inventories.  Additionally, learn how to automate threat analysis of suspected malware or credential phishing threats to help analysts better understand active threats.	Splunk Asset and Risk Intelligence (ARI), Splunk Attack Analyzer (SAA)
DR-05	Al-guided investigations: Al Assistant in security	Learn how Splunk Enterprise Security leverages the newly available Al Assistant to expedite incident investigations, enhancing security operations efficiency and accuracy.	Splunk Enterprise Security (ES)
DR-06	Instant attack verification: Cisco XDR   Splunk Enterprise Security	Go from endless investigation to remediating the highest priority incidents with AI-enhanced speed, efficiency, and decisiveness with a network-centric XDR.	Cisco XDR, Splunk Enterprise Security
DR-07	Simplify security operations: Cisco XDR   Meraki MX	Discover how the Cisco XDR incident view in the Meraki dashboard simplifies network security operations, providing a seamless user experience that improves threat detection and incident response.  Experience the unified visibility and enhanced threat detection the Cisco XDR integration with Meraki MX offers to security and network defenders.	Cisco XDR, Cisco Meraki MX
DR-08	Assure every digital experience: Cisco ThousandEyes	Explore Cisco ThousandEyes in action with end-to-end visibility across owned and unowned networks, guided by the Cisco Al Assistant. Get assurance for mobile, Azure, and IIoT, plus integrations with Cisco Security and Observability. Finish with	ThousandEyes Assurance, Cisco AI Assistant for ThousandEyes, ThousandEyes 2-Way Integration with Splunk ITSI

		network assurance and drill into device health—from a global view to individual endpoints.	
DR-09	Assure wireless networks: Cisco ThousandEyes	Explore new Wi-Fi Assurance capabilities to surface key wireless events, for faster, more targeted, troubleshooting.	Cisco ThousandEyes
DR-10	Assure enterprise networks: Cisco ThousandEyes	Discover SD-WAN Assurance capabilities (Enhanced Traffic Insights) including AI/ML driven predictions and agentic workflows to identify and resolve network issues faster.	Cisco ThousandEyes
DR-11	Assure cloud and SaaS: Cisco ThousandEyes	Experience ThousandEyes Cloud Insights for AI-powered visibility across AWS and Azure. See how it connects to broader cross-domain assurance themes, including AI-ready data center assurance and end-to-end observability.	Cisco ThousandEyes
DR-12	Al-powered network assurance: Cisco Al Assistant	Explore the new Cisco AI Assistant featuring event summarization and dashboards. Use natural language to monitor, troubleshoot, and resolve user experience issues faster and more intuitively than ever.	Cisco ThousandEyes, Cisco Al Assistant
DR-13	Assurance and Observability: Cisco ThousandEyes I Splunk Observability	See how ThousandEyes and Splunk work better together, combining bi-directional AlOps assurance with ITSI. Launch into broader cross-domain themes with unified insights across network and application performance.	Cisco ThousandEyes
DR-14	Cisco on Cisco: Cisco IT: Enhancing our digital resilience	Discover how Cisco is enhancing our own digital resilience with security, observability, and assurance through realworld deployment success stories. Learn how Cisco IT delivers end-to-end network observability and event processing to simplify network operations and drive efficiency with ThousandEyes, Splunk, Cisco Telemetry Broker, and more.	Splunk, Catalyst Center, Catalyst SD-WAN, ThousandEyes
DR-15	Build a leading observability practice	Discover how Splunk Observability and Cisco ThousandEyes ensure the resilience of applications, infrastructure and business processes by providing complete visibility into performance problems, their root causes, and their business impact, so teams can resolve issues faster and focus on what matters most.	Splunk IT Service Intelligence (ITSI), Cisco ThousandEyes, Splunk Observability Cloud, Splunk AppDynamics, Splunk Al Assistant, Cisco CX
DR-16	Observability and Security: Secure Application and Splunk Enterprise Security	Learn how the Secure Application and Splunk Security integration helps you meet organizational security SLAs by streamlining workflows between Application and Security teams to ensure	Splunk AppDynamics, Secure Application, Splunk Enterprise Security

		rapid triaging and remediation of emerging exploits.	
DR-17	AI in Observability: Splunk AI	Discover how Splunk AI uses agentic and generative AI to help you accelerate data insights so you can act quickly to troubleshoot and prevent disruptions.	Splunk Al Assistant for SPL, Splunk Al Assistant in Observability Cloud
DR-18	Observability for Al applications: Splunk AppDynamics and Observability Cloud	Discover how Splunk's observability of Al applications gives you visibility of your LLM stack and correlates model and infrastructure performance to rapidly detect anomalies, refine deployments and boost the reliability of your Al-driven applications.	Splunk AppDynamics, Splunk Observability Cloud
DR-19	Unified Observability Experience: Splunk Observability	Discover how Splunk ITSI, Splunk Observability Cloud, and AppDynamics work seamlessly to deliver troubleshooting workflows, to see the business impact of every performance problem across N-tier and microservices applications.	Splunk Observability Cloud, Splunk AppDynamics, Splunk ITSI
DR-20	Observability and Networking: Splunk Observability and Cisco Networking	See how Splunk delivers out-of-the-box network event correlation by integrating data from Cisco ThousandEyes, Catalyst Center, and Meraki to deliver cross-domain visibility spanning owned and unowned networks, infrastructure, and applications.	Splunk ITSI, Splunk Observability Cloud, Splunk AppDynamics, Cisco ThousandEyes, Cisco Catalyst Center, Cisco Meraki
DR-21	Accelerate digital resilience: Deploy and adopt faster with professional services	In today's rapidly changing environment, accelerating resiliency is dependent on leveraging an observability and security platform that is personalized to your unique needs. Explore how Cisco Services accelerates resiliency with expert lead personalized design, deployment, and optimization services that maximize your assurance, observability, and security strategies.	Cisco Lifecycle Services, Solution Attached Services, Advanced Services, Splunk Professional Services
DR-22	Resolve issues faster: Improve uptime with modern AI-powered support	When an incident occurs, rapid mitigation is key to maximizing uptime and critical for delivering seamless customer experiences. Learn how modern Al-powered support improves uptime with hyper-fast accurate remediation delivered through Al-enabled automated fault responses and guided mitigation workflows.	Modern Al-Powered Support (via Success Tracks)
DR-23	Proactively resolve problems: Resolve beforehand with modern Al-powered support	Security threats and service interruptions can disrupt your operations and damage your reputation. Explore how modern Alpowered support proactively addresses the source of security vulnerability threats and service interruptions before they occur with proactive risk-mitigation strategies, in-product alerts, and fast-tracking hardware replacement.	Modern Al-Powered Support (via Success Tracks)

DR-24	Prevent risk: Avoid	Maintaining business continuity requires	Modern Al-Powered Support (via
	downtime with modern Al-	minimizing downtime. Explore how	Success Tracks)
	powered support	modern AI-powered support reduces risk	
		by preventing issues with AI-powered	
		assessments and health checks for security	
		vulnerabilities, scalability, and	
		configuration best practices.	

# **Cisco Showcase > Future-Proofed Workplaces**

Discover how Cisco helps organizations build modern workplaces that deliver exceptional experiences for employees, customers, and IT. Learn about how Cisco uniquely unifies networking, security, collaboration, and observability to power future-proofed workplaces.

LOCATION	DEMO NAME	DESCRIPTION	PRODUCTS AND SERVICES
FPW-01	Experience: Al-ready secure campus	Experience the future of work in our office campus demo. Transform the employee experience with Al-powered meeting rooms, advanced networking, and smart sensors that provide insights on space use, environmental data, and efficiency.	
FPW-02	Distance zero experiences: Room Kit EQX   Room Vision PTZ   Ceiling Microphone Pro	Experience Cinematic Meetings with the Cisco Room Kit EQX, Ceiling Microphone Pro, and the NEW Room Vision PTZ camera. Make meetings more equitable and ensure everyone feels like they are in the room — even when they can't be - with this flexible, integrated solution that's simple to deploy and manage.	Cisco Room Kit EQX, Cisco Ceiling Microphone Pro, Room Vision PTZ Camera, PoE Switch, Cisco Table and Wall Navigators, Cisco Table Microphone Pro, Cisco Meraki MT15, MT30, MT40, and MV23, Splunk Edge Hub
FPW-03	One device, any meeting: Meeting interoperability   Microsoft Teams Rooms	Explore two seamless interoperability options with Cisco Collaboration devices. Join any meeting—Microsoft Teams, Google Meet, or Zoom—with the press of a button, or experience our native Microsoft Teams Rooms solution. Enjoy Microsoft Teams and Webex meetings on the same device without rebooting, enhanced by Alpowered features like intelligent framing and noise removal.	Cisco Devices Interop - MTR Experience, Cisco Room Bar Pro, Cisco Room Bar, Cisco Wall and Table Navigators, Microsoft Teams Meetings
FPW-04	Smart building solutions Sensors   Switches   Collaboration	Explore a smart building infrastructure featuring collaboration devices, switches, PoE lighting, and sensors. See how integrated technologies enhance collaboration, optimize energy use, and provide real-time insights into occupancy and environmental conditions, creating smarter, sustainable, and more efficient workplaces.	Cisco Room Bar Pro, PTZ Camera, Cisco Wall and Table Navigators, C9200CX-12P-2X2G Switch, Meraki MT15 Air Quality Monitor with CO2, MV23 Meraki Security Camera, Meraki MT30 Smart Button, Meraki MT40 Smart Power Controller, PoE Lights with MHT Power Control, Splunk Edge Hub , Splunk Dashboard
FPW-05	A new architecture for campus networks: Secure networking for the Already campus	Connectivity requirements are exploding, with countless devices, agents, and workloads at the edge. The attack surface is expanding just as quickly, with attacks on data and network devices. Meanwhile, IT	

FPW-06	Cisco Spaces: Explore and navigate	teams are overwhelmed and unable to keep pace with the sprawl of infrastructure and the rise of Al-powered security threats. See how a new Al-ready architecture for the campus can help you scale, secure, and adapt your network for the Al Era.  Use the Cisco Spaces map to explore the Cisco Showcase floor and discover 150+ demos and experiences. Click on a demo	Cisco Spaces
		and scan the QR code to navigate your way there using Cisco APs.	
FPW-07	SASE with Cisco: Secure Access and SD-WAN: Catalyst   Meraki   Secure Firewall	See how Universal ZTNA enables hybrid private access by enforcing zero trust locally for a consistent user experience when at home, at HQ, or at the branch office. Learn how Cisco SASE (Cisco Catalyst, Meraki, and FTD SD-WAN with Cisco Secure Access) enables flexibility, simplicity, and security. Learn about FedRAMP certification for SASE with Cisco.	Security Cloud Control, Cisco Catalyst SD-WAN, Meraki SD- WAN, FTD SD-WAN, Cisco Secure Access, Cisco Secure Access for Government
FPW-08	SASE with Cisco: Meraki SD-WAN with Cisco Secure Access	See how Meraki SD-WAN now integrates with Cisco Secure Access to enable a common SSE solution across all our SD-WAN options.	Cisco Meraki SD-WAN, Cisco Secure Access
FPW-09	User protection for GenAl: Universal ZTNA: Cisco Secure Access	Users are engaging with LLM models, but do you know which ones? And how to ensure they are using them appropriately? Learn how to implement safe and secure access to GenAl apps with our automated guardrails policy.	Cisco Secure Access
FPW-10	Identity and user trust: Universal ZTNA: Cisco Secure Access   Duo   ISE	Discover how Cisco Duo User Trust Score, Identity Intelligence, and Secure Access accelerate zero trust maturity by combating identity attacks with Continuous Identity Security. Experience zero trust segmentation with Cisco ISE, enforcing least privilege access for IOT - across highly distributed environments.	Cisco Secure Access, Cisco Duo, Cisco Identity Intelligence, Cisco ISE
FPW-11	All-in-one Al-powered collaboration: Webex Suite   Cisco Al Assistant	Experience the ultimate Al-powered collaboration with Webex Suite! Explore our latest Al innovations that will elevate your collaboration experience and empower you to seamlessly connect, communicate, engage, and get work done, anywhere.	Webex Suite, Cisco Al Assistant
FPW-12	Modern Webex Calling: Al Receptionist   Customer Assist   Webex Go	Discover how Webex Calling Customer Assist empowers employees with Alpowered tools in the Webex app. Enhance mobile productivity with Webex Go and deliver advanced calling features to power users in Microsoft Teams through Cisco Call for Microsoft Teams—all in one seamless, enterprise-grade experience.	Webex Calling, AI Receptionist, Customer Assist, Webex Go, Cisco Call for Microsoft Teams

FPW-13	Experience: Al-ready secure unified branch	See how Cisco technology can help you scale out, secure, and simplify the management of every kind of distributed site, from retail to financial services, and everything in between.	
FPW-14	Personalize every interaction with AI: Webex AI Agent   Digital engagement   Self-service	Unleash your creativity and design the Guitar of the Future in this immersive activation! Chat with a Webex AI Agent, customize your dream guitar, and watch as your ideas inspire a stunning design. Get real-time updates and walk away with an AI-generated one-of-a-kind masterpiece, right to your phone.	Webex Al Agent
FPW-15	Harmonize the digital and physical	Transform retail, financial services, and other customer spaces with technology that bridges digital and physical experiences. See how the network powers technology like electronic shelf labeling (ESL), location analytics, and other wireless experiences to transform your branches.	Electronic Shelf Labeling (ESL), Location Analytics
FPW-16	Secure and assure the edge: Secure Routers   Secure Firewall   SD-WAN	Exceptional customer experiences depend on secure, assured, and highly available connectivity. See how Cisco networking and security solutions work together in harmony to accelerate your growth and differentiate your customer experiences.	Cisco Secure Routers, Cisco Secure Firewall, SD-Wan
FPW-17	Anticipate needs, engage intelligently: Webex Al Agent   Digital interactions	Explore the new Webex Al Agent, now generally available, powering more human-like experiences across voice and digital channels. See how the Webex Al Agent can amplify customer experience in a retail environment with both scripted and autonomous agents.	Webex Al Agent, Webex Connect
FPW-18	A new architecture for the unified branch: Simplified network and security operations   Branch as code	This demo offers an animated exploration of branch complexities and definitions, emphasizing the significant role of Cisco Validated Designs within a simulated branch setup. It demonstrates the process of branch deployment through code and showcases the cloud dashboard to verify the successful deployment of branches.  The Branch as code real-time demo highlights the centralization of on-prem Cisco Secure Router management using an all-in-one cloud dashboard. It streamlines security by allowing unified policy settings, eliminating the need for separate security policy configurations. The Security Control Center facilitates effortless deployment of configuration and security policies to Cisco Secure Routers.	Curated Switching, Routing and Wireless Products, Cisco Meraki Dashboard, Cisco Secure Router Management in Meraki Dashboard, Cisco 8000 Secure Routers in Security Cloud Control

FPW-19	Smarter, safer spaces: Physical security   Video analytics	Revolutionize your physical security and remote branch monitoring with AI-powered, cloud-managed smart cameras for enhanced security and data-driven insights. Get a peek inside a retail branch and see how you can pair these devices with a cloud-managed network to protect what matters—people, spaces, and your critical infrastructure.	Meraki MV Smart Cameras, Meraki MT Sensors, Meraki Dashboard
FPW-20	Connected journeys, smart analytics: Webex Al- powered customer experience solutions	Discover how Webex Customer Experience solutions make it possible to deliver intelligent engagements at every point throughout a customer's journey. Delivering connected experiences across proactive communications, AI agents, and human-assisted service to build lasting loyalty.	End-to-End CX Customer Journeys, Webex Contact Center Analytics
FPW-21	Empower teams, delight customers: Al for agents and supervisors   Webex Contact Center	Empower your agents and supervisors to handle customer inquiries within intuitive and powerful interfaces. Uncover what it means to be a supervisor using Webex Contact Center—view how to manage a team and have optimal visibility into the day-to-day.	Webex Contact Center
FPW-22	Cisco on Cisco: Cisco IT: Future-proofing our workplaces	Connect with Cisco IT experts to discover how Cisco is modernizing everywhere our people and technology work and serve customers. Hear real-world success stories and deployments of secure networking, IoT scaling, Smart Building Technology, Power over Ethernet, Zero Trust Network Access (ZTNA) Duo and Cisco Secure Access, and more.	Meraki Smart Cameras, Sensors, Smart Button, and Access Points, Cisco Spaces, Webex Connect, Duo, Cisco Catalyst 9000 Switches, Cisco Catalyst 9136 Access Points, Cisco Desk Pro, Cisco Desk Hub, Cisco Desk Camera, Cisco Precision 60 Camera, Cisco Room Bar, Cisco Room Kit, Cisco Board Pro, Cisco Room Navigator
FPW-23	Cisco Industry Portfolio Explorer: Explore use cases and architectures driving industry impact	Tour Cisco's Industry Portfolio Explorer and explore use cases aligned to Future-Proofed Workplaces. Connect with the Cisco Industries Marketing team to discover tailored solutions, use cases, and architectures designed to address key challenges and drive innovation across twelve industries.	Portfolio Explorer
FPW-24	Experience: Modernize industrial operations	Discover how Cisco can help modernize your industrial networks for security, performance, and simplified operations with an expanded industrial networking portfolio built for the plant, the grid, the roadway and beyond.	
FPW-25	Unifying IT and OT security: AI-based Cyber Vision OT	Get visibility into the industrial security posture and drive cybersecurity best practices with switches and routers capable	Cyber Vision, Splunk, IR1101, IR8340,

	segmentation with Splunk integration	of identifying connected assets, their profiles, vulnerabilities, and communications patterns thanks to Cisco Cyber Vision.	IE-3500-8U3X, IE-3505-8P3s
FPW-26	Future-ready industrial infrastructure: Industrial ethernet   Wi-Fi and URWB	Industry-leading solutions to simplify and scale IT for industrial networks. Rely on tougher, smarter IT solutions that bring IT and OT together, enhance efficiencies, and pave the way for AI-ready industrial operations.	IE-3500-8U3X, IE-3500H-12P2MU2X, IE-3500H-12FT4T, IE-3500H 16T, IE-3505-8P3S, IE-3100H-6FT2T-E, IE-3100H-8T-E, IE-3100-3P1U2S-E 4PP0E, IE-3100-6P2U2C-E
FPW-27	Future-ready collaboration: Webex Suite   Collaboration devices	Stay connected in industrial settings with Cisco collaboration devices. DECT and Wireless Phones provide ruggedized calling with push-to-talk and customizable action buttons for safety and efficiency. The Desk Series delivers seamless, in-person-like video calls. Apple Vision Pro revolutionizes industrial operations by merging digital content with physical spaces, enhancing workflows and design.	Apple Vision Pro, Cisco Desk, Cisco Desk Mini, Cisco IP DECT 6825 Ruggedized, Cisco Wireless Phone 860S, Cisco DBS110/210
FPW-28	Powering smart transportation: Cloud- based secure management of transport assets	Cisco delivers secure, reliable connectivity to roadways, enabling smart transportation systems, real-time data sharing, and enhanced safety. Our solutions power connected roadway and intersection infrastructure, ensuring seamless communication and protection across critical transportation networks.	
FPW-29	Building resilient power grids: Drive scale throughout your utility operations	Cisco delivers secure, reliable connectivity to utility grids, enabling real-time data, remote monitoring, and resilient operations. These solutions (Substation, Distribution and Metering) ensure cybersecurity, optimize performance, and support smart grid transformation for modern energy infrastructure.	IR1101, IR8340, IR8140, IE9300, P-LTEAP-GL, P-5GS6-GL, P-LTE-450, P-LTE-EA, P-LTE-MNA
FPW-30	Al-based adaptive robotics: Al inferencing with virtualized robotic controllers	We are showcasing a virtualized robotic controller - disaggregated from dedicated hardware. The virtualized controller is doing AI inferencing on camera data so the robot arm can follow an object. Robot controllers are decoupled from dedicated hardware and virtualized in factory data centers or on edge servers with high CPU/GPU capacity - ideally suited for the Modern Network.	IE-3500-8U3X, IE-3500H-12P2MU2X, IE-3500H-12FT4T, IE-3500H 16T, IE-3505-8p3s, IE-3100H-6FT2T-E, IE-3100H-8T-E, IE-3100-3P1U2S-E 4PP0E, IE-3100-6P2U2C-E
FPW-31	Al-driven industrial manufacturing: Real-time adaptive Al manufacturing with Denali	Experience Al-driven guitar tuning in a manufacturing demo that showcases the power of Cisco Security and industrial networking. See how intelligent automation and secure connectivity optimize precision, performance, and protection in real-time production environments.	IE-3500-8U3X, Cyber Vision, Splunk Secure Equipment Access

FPW-32	Real-time video-based traceability: Vision systems for food and beverage	Discover high-definition visual inspection powered by Cisco Industrial Switching. We are showcasing real-time quality control, low-latency data transfer, and intelligent automation for enhanced accuracy and efficiency on the factory floor.	Cyber Vision, Splunk Secure Equipment Access
FPW-33	URWB: Beyond Wi-Fi technology: Blending Wi-Fi and URWB for limitless possibilities	Wireless is a critical application for industrial operations. Cisco's URWB seamlessly integrates with traditional Wi-Fi to enhance wireless performance, delivering greater reliability, reduced latency, and broader coverage. It optimizes spectrum usage for next-gen connectivity across enterprise and high-density environments.	IW9165D, IW9165E, IW9167I, IW9167E
FPW-34	Cloud-managed rugged networking: IE switching   MV cameras   Meraki Dashboard	Experience seamless rugged networking with the Cisco IE3500, now supported on the Meraki Dashboard. With enhanced PoE, power APs and cameras with cloudmanaged simplicity. Gain centralized visibility, simplified control, and resilient performance for harsh industrial environments.	IE-3500-8U3X, MV73, MV84x, MV93, Meraki Dashboard
FPW-35	Industrial product portfolio	Industry-leading solutions to simplify and scale IT for industrial networks. Rely on tougher, smarter IT solutions that bring IT and OT together, enhance efficiencies, and pave the way for AI-ready industrial operations	IE-3500-8U3X, IE-3500-83s, IE-3500H-12P2MU2X, IE-3500H-12FT4T, IE-3500H 16T, IE-3505-8p3s, IE-3100H-6FT2T-E, IE-3100-3P1U2S-E 4PP0E, IE-3100-6P2U2C-E, IE9300, IEM-4MU, IEM-16p, IEM-6t2s, IEM-8t, Cisco Catalyst IE3100 Rugged, Cisco Catalyst IE3105 Rugged, Cisco Catalyst IE3400-8T2S, Cisco Catalyst IE9300, Cisco Catalyst IW9165D Rugged Access Point and Wireless Client, Cisco Catalyst IW9165E Rugged Access Point and Wireless Client Cisco Catalyst IW9165E Rugged Access Point and Wireless Client Cisco Catalyst IW9167E, PWR IE65W PC-AC, PWR-IE50W-AC-IEC=, PWR-IE50W-AC-L=, PWR IE480W-PCAC-L=, Cisco Catalyst IR1101, Cisco Catalyst IR8340, P-LTEAP-GL, P-5GS6-GL, P-LTE-450, P-LTE-EA, P-LTE-MNA
FPW-36	Campus and branch switching	Innovation, depth, and flexibility. See in person how Cisco networking solutions help you deliver a complete end-to-end architecture, managed in a unified, Alnative platform, designed specifically to	Meraki MS150, Meraki MS130R, Cisco Catalyst C9200CX, Cisco Catalyst 9500, Cisco Catalyst 9400, Cisco Catalyst 9200, Cisco Catalyst 9300-M

FPW-37	Secure WAN solutions	simplify, secure, and assure every connection across campus, branch, and industrial sites.  Innovation, depth, and flexibility. See in person how Cisco networking solutions help	Meraki MX68CW, Meraki MX75, Meraki MX450, Meraki MG52,
		you deliver a complete end-to-end architecture, managed in a unified, Alnative platform, designed specifically to simplify, secure, and assure every connection across campus, branch, and industrial sites.	Cisco Secure Firewall 4200, Cisco Secure Firewall 1200, Cisco Secure Firewall 3100
FPW-38	Wi-Fi 7 and IoT	Innovation, depth, and flexibility. See in person how Cisco networking solutions help you deliver a complete end-to-end architecture, managed in a unified, Alnative platform, designed specifically to simplify, secure, and assure every connection across campus, branch, and industrial sites.	Cisco Wireless CW9172I, Cisco Wireless CW9178I, Cisco Wireless CW9176D1, Cisco Wireless CW9172H, Meraki MT20 Door Sensor, Meraki MT30 Smart Button, Meraki MT15 Air Quality Sensor, Meraki MT40 Smart Power Controller, Meraki MV84X Multi Imager, Meraki MV53X Bullet Camera, Meraki MV13 Mini Dome Camera, Meraki MV33 Fisheye Camera, Meraki MV93 Fisheye Camera, Cisco IE3500H, Cisco Catalyst IR1101
FPW-39	Stay connected, anywhere you work: Cisco Headsets   Wireless Phones	Discover the perfect "on-the-go" and frontline experience with a broad selection of headsets and wireless phones tailored to any need. Opt for wired, wireless, and DECT headsets, or explore durable devices that equip workers with ruggedized IP and DECT phones for the toughest environments.	Bang & Olufsen Cisco 980, Cisco Headset 730, Cisco Headset 722 Webex, Cisco Headset 562, Cisco Headset 532, Cisco Headset 522, Cisco Headset 522, Cisco Headset 561, Multibase Cisco Headset 721, Microsoft with charging stand, Cisco Desk Camera 4K, Cisco Desk Camera 1080p, Cisco Wireless Phone 860, Cisco Wireless Phone 860S, Cisco Wireless Phone 840, Cisco Wireless Phone multi charging stand, Cisco Wireless Phone 840S Scanner handle, Cisco IP DECT Phone 6823, Cisco IP DECT Phone 6825 Ruggedized, Cisco Desk Phone 9871, Cisco Accessory Hub - Desktop App

FPW-40	Collaboration at your desk: Cisco Desk Series   Desk phones	Design desk spaces prioritizing audio and video excellence with the Cisco Desk Series for engaging, distraction-free collaboration. Opt for scalability with the Desk Phone 9800 Series, featuring PhoneOS for flexible calling and seamless user experiences. Key features include AI-powered audio, hot desking, one-touch meetings, and customizable action buttons, creating adaptable work environments.	Cisco Desk Pro, Cisco Desk Mini, Cisco Desk Camera 4K, Cisco Desk Camera 1080p, Cisco Desk Phone 9871, Cisco Desk Phone 9861, Cisco Desk Phone 9851, Cisco Desk Phone 9841, Cisco Desk Phone 9800 Series, KEM Video Phone 8875
FPW-41	Modernizing campus networks:  Agentic campus operations  Smart Switches   Post-quantum security  Campus Gateway   Wi-Fi 7	See how a large enterprise campus hybrid deployment can save time and simplify deployments with agentic workflows that auto migrate switch port configs from an existing to a new switch. Easily manage switches in the cloud or on-prem with unified licensing, toggle between cloud and on-premises dashboards, tailor admin access levels for switches with RBAC, and gain global visibility into on-prem campus networks in one place.	Networking Cloud Control with SSO and RBAC, Cisco Al Assistant and Agentic Workflows, Cisco Catalyst Center Global Manager, C9350 Switching, Unified Licensing
		layer, from the device itself to the data, to every connected client. But you can't simply sacrifice sophistication for simplicity See how a lean IT team can use Cisco Switches, advanced post-quantum security, and more flexible architectures to define and network security policies at scale with a cloud-orchestrated fabric- to protect users, guests, and corporate devices from costly ransomware attacks.	
		Let's talk large-scale campus wireless. Stop by this demo for a deep dive into how we're combining cloud management, more flexible architectures, and Al-powered assurance to scale wireless connectivity to campuses of every shape and size	
FPW-42	Cisco C9000 Smart Switches	Get face-to-face with the latest switching innovations from Cisco for access, distribution, and core. Whether you're looking for a step up in throughput, post-quantum encryption, or better energy efficiency, these new devices will help you prepare your networks to scale requirements for AI workloads and accelerate your network modernization.	Cisco C9350 Series Smart Switches, C9610 Smart Switches, Cisco Silicon One A- Series, Cisco Silicon One K- Series
FPW-43	Al-powered automation and expertise: Deploy with speed and confidence   Guidance to maximize value   Modern support for resilient ops	Distributed work and AI are reshaping workplaces, yet legacy infrastructure struggles to meet these demands. Cisco Services accelerates the value, reliability, resilience, and security of future-proofed workplaces through AI-powered automation and support, expert design, deployment, and optimization for a	Cisco Lifecycle Services, Cisco Solution Attached Services, Cisco Advanced Services

		connected, secure, and productive	
		workplace.	
		Modernizing your workplace starts with design and deployment. Cisco Services accelerates future-proofed workplaces with speed and confidence. Access AI-enabled automation and optimization expertise for Cisco Spaces, SD-WAN, Wi-Fi 7, Webex, and Secure Access. Reduce risk and maximize success using automated testing and infrastructure as code principles.	
		Maximize the value on your workplace modernization initiatives. Learn how Cisco Services help you swiftly utilize the latest technology features, such as AI agents for Webex Contact Center, and empowers you with expert insights and recommendations to get more value from your technology investments.	
		Enable reliable, resilient, and secure operations for your future-proofed workplaces technology. Learn how Cisco's modern Al-powered support helps you maximize uptime and minimize risk. Our approach moves beyond reactive fixes, delivering a personalized, proactive, and predictive support experience that is essential for the Al era and the future of workplaces.	
FPW-44	Cisco 8000 Secure Routers	Security? Check. Enterprise Routing? Check? Foundation for SASE? Check, check. Go hands-on with the newest, most secure routers in the Cisco portfolio, built for Aldriven branch and campus deployments. See all the ways we're delivering the low-latency WAN connectivity you need to meet the demands of today's high-bandwidth applications, while preparing your branches for future Al innovations.	Cisco 8100, 8200, 8300, 8400, and 8500 Series Secure Routers
FPW-45	Cisco Spaces: The network for smart spaces	See how healthcare customers are transforming hospitals into smart spaces through multi-sensor gateways integrated into Cisco APs to enable use cases like asset tracking, staff duress, and infant protection. Learn about Cisco's key healthcare partners and the Spaces IoT Marketplace, where customers can easily purchase and deploy these devices.	Cisco Spaces
		IT professionals can explore how to set up environments for optimal outcomes and connectivity through Cisco wireless and collaboration density — driving increased purchases of wireless and collaboration devices. Attendees can also learn how to	

		enable other departments with their use cases using the Spaces OS, preventing the need to manage shadow networks. We'll demonstrate how APs can be automatically placed over 3D maps and highlight other location-based IT use cases, such as client location tracking and rogue AP detection.	
FPW-46	Cisco Wireless	Five years ago, the FCC paved the way for the biggest leap in wireless we've ever seen when they approved the 6Ghz spectrum. Cisco is leading the way to a better wireless future with a full portfolio of Wi-Fi 7 solutions. And, we're just warming up. Stop by and see how the next five years will bring more intelligence and unlock edge-Al workloads at campus scale, and experiences we haven't even named yet — all powered by the Cisco 6 GHz portfolio.	Cisco Campus Gateway, Cisco Wireless CW9179F, Cisco Catalyst IW9165E, Cisco Catalyst IW9165D, Cisco Catalyst IW9167E
FPW-47	Unified IT management: Networking   Meraki Dashboard and Catalyst Center	Get hands-on with the only networking platform that offers a unified, Al-native platform, designed to work seamlessly in the cloud, on-premises, or in hybrid networks. See how Cisco's unified network management platform simplifies, secures, and assures every connection between campus and branch. Organizations building their network experiences on Cisco can not only maximize the value of their current networking investments but will smoothly transition their organizations into the era of Al without risking downtime or security gaps.	Cisco Catalyst Center, Meraki Dashboard
FPW-48	Unified IT management: Security   Security Cloud Control and SD-WAN Manager	Imagine a world where your security operations are no longer a maze of disconnected tools, but a seamless powerhouse of intelligence and control. Cisco Security Cloud Control is exactly that—providing one sleek interface to manage all Cisco security technologies and select third-party appliances. With Al-driven recommendations, it helps fix misconfigurations, streamline policy updates, and troubleshoot faster.  And now, it's even integrated with SD-WAN Manager. Discover how your network and security teams can seamlessly collaborate to manage their respective domains of Cisco Secure Routers. Network teams can continue leveraging SD-WAN Manager, while security teams manage all Cisco NGFWs under one unified platform.	Security Cloud Control, SD-WAN Manager
FPW-49	Unified IT management: Workplaces   Webex Control Hub and Cisco Spaces	Cisco Spaces and Webex Control Hub simplify IT manageability in workplaces by providing real-time insights and centralized control. Cisco Spaces offers analytics on	Cisco Spaces, Webex Suite. Cisco Devices

		workspace usage and environmental metrics, while Control Hub enables seamless management of devices, users, and services. Together, they optimize workplace efficiency, enhance employee experiences, and streamline IT operations.	
FPW-50	IT Operations Center	Cisco Catalyst 9300 and 9350 switches with UPoE+ Energy Networking capabilities deliver up to 90W of power over standard category cabling.  Panduit's Fault-Managed Power System ensures the delivery of safe, centralized & reliable power up to 2km from distribution.	Cisco Catalyst 9300 and 9350 Switches with UPoE+ Energy Networking Capabilities, Panduit's Fault-Managed Power System
FPW-51	Energy networking: Splunk energy management	By aggregating your Operational Technology Intelligence data, we deliver real-time insights into your Energy Networking infrastructure. These insights are visualized in a unified Splunk Dashboard, enabling you to effectively monitor and optimize smart building operations and infrastructure.	Splunk Dashboard, Cisco Catalyst 9300X-48H, Thinlabs 55" PoE All-in-One Computers

## **Cisco Showcase > Lightning Theaters**

15-minute sessions aligned to the Showcase demos, going deeper into product features and announcements. These sessions are not recorded.

#### Cisco Showcase > Network Operations Center (NOC)

Watch what it takes to deploy, manage, and secure the Cisco Live network in real-time and see the "live" equipment powering Cisco Live on the show floor. Attendees can also learn about the San Diego deployment from engineers and solutions experts. The NOC is sponsored by Legrand and NetApp.

#### Cisco Showcase > Secure Global Connectivity

Service providers have an opportunity to capitalize on the rapidly evolving AI opportunity by providing the key players in the ecosystem with secure global connectivity that helps to unlock AI's full potential. Cisco can help—with a robust flexible platform designed to maximize digital resilience and revenue generation.

LOCATION	DEMO NAME	DESCRIPTION	PRODUCTS AND SERVICES
SGC-01	Accelerate AI mobility services: Cisco Mobility Services Platform	Go beyond connectivity with a programmable platform that enables you to deliver new, innovative services for your customers fast and without the burden of deploying your own infrastructure. Learn about the adaptability of Mobility Services Platform to accelerate the creation of new enterprise and IoT services for any industry, across any use case, and with multiple deployment models.	Mobility Services Platform, IoT as a Service (IoT CC + Core), Private Networks, Programmable Core

SGC-02	Scale converged access services: Cisco Routed PON   Satellite solutions for global reach	Explore how converged access delivers intelligent, simple, and resilient experiences for Agile Services Networking. Discover how the integration of terrestrial solutions like Cisco Routed RON with Cisco's satellite networking enables seamless, secure, Al-ready connectivity no matter where you are.	Routed PON, Non-Terrestrial (Satellite) Networking, NCS 540/5500, XGS PON Pluggable, Cisco ONU, Provider Connectivity Assurance, 8712-MOD-M
SGC-03	Optics for AI connectivity: Cisco Optics performance and reliability	Discover Cisco Optics innovations that enable high-performance reliability and resilience for AI front-end, back-end, and transport networks. Find out how Cisco Silicon Photonics technology improves power efficiency and signal integrity to ensure resilient AI connectivity. See how to optimize connectivity with seamless field firmware upgrades for Cisco high-speed optics. Ensure reliable AI networking with failure monitoring, anomaly detection, and prediction, leveraging real-time telemetry from optics, switching, and GPU servers.	Cisco Optics
SGC-04	Simplify networks DCI to subsea: Cisco Routed Optical Networking	Discover how to simplify the delivery of high-performance connectivity for AI traffic and services. See how a converged IP and optical backbone for DCI, metro, and long-haul networks can enable you to flexibly control and manage your network and shift from capacity to value-based pricing for B2B connectivity.	Cisco Routed Optical Networking, Cisco Optical Networking
SGC-05	Accelerate Al-powered automation: Autonomous networking with Crosswork Network Automation	The shift from task automation to fully autonomous networking is becoming a strategic imperative. Learn how Alpowered automation reduces complexity, enhances resiliency, and drives towards self-optimizing, autonomous networks. Discover how multi-agent frameworks powered by predictive, prescriptive Al operations help improve capacity planning, detect anomalous behavior, and minimize network drift enhancing customer experience.	Cisco Crosswork Network Automation

SGC-06	Deliver high-performance networks: Al-powered Cisco Provider Connectivity Assurance	Industries that run critical network infrastructure require resilient network performance to minimize latency and unplanned downtime. We will showcase proactive end-to-end assurance with real-time visibility across domains and precise detection of network issues, root cause analytics, noise reduction, and how unified data intelligence and AlOps paves a path to autonomous networks.	Cisco Provider Connectivity Assurance; Cisco PCA User Experience
SGC-07	Optimize networks and operations: Cisco services for Agile Services Networking deployment	Service providers need optimized network performance and resilience to compete in today's global market. Cisco Services delivers this for Agile Services Networking with modern, personalized services to simplify operations, reduce costs, improve energy efficiency, seamlessly migrate, and transition to Aldriven autonomous networks.	NSO, PCA, CNC
SGC-08	Secure networking and services: Service provider security	In the new era of AI, Service Provider infrastructure is vital, making security a fundamental requirement to protecting critical infrastructure, ensuring uninterrupted service, and safeguarding customer data. Discover how Cisco empowers SPs to meet modern security demands through Agile Networking Services, establishing trust at the physical layer, defending against DDoS attacks in real-time, and preparing for future threats in a post-quantum world.	Crosswork Trust Insights; HW- TAM ChIP; SW-IOS XR7 Crypto Signatures; RT-HASH Data, Cisco Secure DDoS Edge Protection, Quantum Key Derivation Approach Using Cisco's SKS or SKIP Integration Protocol
SGC-09	Agile Services Networking in action	Hear how customers like you are deploying Cisco Agile Services Networking to gain an architecture for connecting AI networks. Discover how to fulfill your Agentic AI use cases with a WAN Interconnect that delivers the necessary bandwidth, latency, and security.	Cisco Agile Services Networking

**Secure Global Connectivity** SGC-10 Pluggable OLT (EML), Pluggable Check out innovations in silicon, optics, **Product Zone: Deploy Agile** routing, AI, assurance, and automation, OLT (DML), Assurance SFP, **Services Networking |** all designed to help change the Assurance module, **Embrace Routed Optical** economics of your network. Plus, learn NCS 540, Networking | Unleash Alhow Cisco can help you deliver a Cisco 8711-32FH-M, Native Infrastructure | simplified network architecture Cisco 8608, **Power Networks with Silicon** optimized for flexible service Cisco 8202-32FH-M, deployment, built for resilient One ASR 9903, NCS 57C3, experiences, and ready to monetize. Cisco 88-LC1-12TH24FH-E, Cisco 88-LC1-52Y8H-EM, Cisco 8712-MOD-M, Cisco 8711-48Z-M, Cisco 8011-32Y8L2H2FH, Cisco 8011-4G24Y4H-I, Cisco 8404, Coherent optics, Cisco QSFP-DD OLS, Cisco 8212-48FH-M, Cisco 8201-32FH, NCS 1010, NCS 1014, 2.4T Line Card for NCS 1014, CIM 8, MPO to LC Breakout, QSFP-DD 2x400G FR4, Cisco Optics for AI, Cisco Optics for Multimode Fiber, QSFP-DD 8x100G FR, OSFP 800G DR8, Cisco 8122-64EH-O, Cisco 8122-64EHF-O, Cisco 88-LC1-36EH, Cisco Silicon One A-Series, Cisco Silicon One K-Series, Cisco Silicon One Q-Series, Cisco Silicon One P-Series, Cisco Silicon One G-Series, ENC-10G-ONT-10, ENC-10G-ONT-14A, ENC-10G-ONT-01PR

#### **Cisco Showcase > Security Operations Center (SOC)**

Get a behind-the-scenes look at how active threats are detected by Cisco Security and Splunk in real-time traffic, in partnership with the Network Operations Center (NOC). Sign up for daily tours.

# **Alphabetical Index of Products and Solutions**

PRODUCTS / SOLUTIONS	AREA NAME	DEMO #	DEMO NAME
#			
10G DAC Nexus-to-UCS	Al-Ready Data Centers	AIDC-06	Improving power usage effectiveness: Immersion cooling   Energy management
100G Fiber for UCS-Nexus	Al-Ready Data Centers	AIDC-06	Improving power usage effectiveness: Immersion cooling   Energy management
64 LPO Optics	Al-Ready Data Centers	AIDC-02	Integrated rack design: Liquid cooling for networking   Linear pluggable optics   Rack system cooling
A			
Advanced Services	Digital Resilience	DR-21	Accelerate digital resilience: Deploy and adopt faster with professional services
Al Receptionist	Future-Proofed Workplaces	FPW-12	Modern Webex Calling: AI Receptionist   Customer Assist   Webex Go
Apple Vision Pro	Future-Proofed Workplaces	FPW-27	Future-ready collaboration: Webex Suite   Collaboration devices
Assurance Module	Secure Global Connectivity	SGC-10	Secure Global Connectivity Product Zone: Deploy Agile Services Networking   Embrace Routed Optical Networking   Unleash Al-Native Infrastructure   Power Networks with Silicon One
Assurance SFP	Secure Global Connectivity	SGC-10	Secure Global Connectivity Product Zone: Deploy Agile Services Networking   Embrace Routed Optical Networking   Unleash Al-Native Infrastructure   Power Networks with Silicon One
ASR 9903	Secure Global Connectivity	SGC-10	Secure Global Connectivity Product Zone: Deploy Agile Services Networking   Embrace Routed Optical Networking   Unleash Al-Native Infrastructure   Power Networks with Silicon One
AS-T	Cisco Customer Experience	CX-01	Simplified Cisco services portfolio: Full lifecycle coverage with flexible choices

	Cisco Customer Experience	CX-02	Professional services: Accelerate and optimize IT modernization
	Cisco Customer Experience	CX-03	Modern Al-powered support: Enable reliable, resilient, and secure operations
	Cisco Customer Experience	CX-04	Customer success: Value-boosting
В			
Bang & Olufsen Cisco 980	Future-Proofed Workplaces	FPW-39	Stay connected, anywhere you work: Cisco Headsets   Wireless Phones
Breach Protection Suite	Cisco Platform Advantage	CPA-05	XDR for the Meraki IT Pro: Meraki   XDR   Secure Access   Security Suites
	Cisco Platform Advantage	CPA-06	Distributed analytics: Cisco Secure Firewall   Secure Network analytics   Splunk
С			
C9350 Switching	Future-Proofed Workplaces	FPW-41	Modernizing campus networks: Agentic campus operations, Smart Switches   Post-quantum security, Campus Gateway   Wi- Fi 7
C9610 Smart Switches	Future-Proofed Workplaces	FPW-42	Cisco C9000 Smart Switches
CIM 8	Secure Global Connectivity	SGC-10	Secure Global Connectivity Product Zone: Deploy Agile Services Networking   Embrace Routed Optical Networking   Unleash Al-Native Infrastructure   Power Networks with Silicon One
Cisco 8000 Secure Routers in Security Cloud Control	Future-Proofed Workplaces	FPW-18	A new architecture for the unified branch: Simplified network and security operations   Branch as code
Cisco 8011-32Y8L2H2FH	Secure Global Connectivity	SGC-10	Secure Global Connectivity Product Zone: Deploy Agile Services Networking   Embrace Routed Optical Networking   Unleash Al-Native Infrastructure   Power Networks with Silicon One
Cisco 8011-4G24Y4H-I	Secure Global Connectivity	SGC-10	Secure Global Connectivity Product Zone: Deploy Agile Services Networking   Embrace Routed Optical Networking   Unleash Al-Native Infrastructure   Power Networks with Silicon One

Cisco 8100, 8200, 8300, 8400, and 8500 Series Secure Routers	Future-Proofed Workplaces	FPW-44	Cisco 8000 Secure Routers
Cisco 8122-64EHF-O	Secure Global Connectivity	SGC-10	Secure Global Connectivity Product Zone: Deploy Agile Services Networking   Embrace Routed Optical Networking   Unleash Al-Native Infrastructure   Power Networks with Silicon One
Cisco 8122-64EH-O	Secure Global Connectivity	SGC-10	Secure Global Connectivity Product Zone: Deploy Agile Services Networking   Embrace Routed Optical Networking   Unleash Al-Native Infrastructure   Power Networks with Silicon One
Cisco 8201-32FH	Secure Global Connectivity	SGC-10	Secure Global Connectivity Product Zone: Deploy Agile Services Networking   Embrace Routed Optical Networking   Unleash Al-Native Infrastructure   Power Networks with Silicon One
Cisco 8202-32FH-M	Secure Global Connectivity	SGC-10	Secure Global Connectivity Product Zone: Deploy Agile Services Networking   Embrace Routed Optical Networking   Unleash Al-Native Infrastructure   Power Networks with Silicon One
Cisco 8212-48FH-M	Secure Global Connectivity	SGC-10	Secure Global Connectivity Product Zone: Deploy Agile Services Networking   Embrace Routed Optical Networking   Unleash Al-Native Infrastructure   Power Networks with Silicon One
Cisco 8404	Secure Global Connectivity	SGC-10	Secure Global Connectivity Product Zone: Deploy Agile Services Networking   Embrace Routed Optical Networking   Unleash Al-Native Infrastructure   Power Networks with Silicon One
Cisco 8608	Secure Global Connectivity	SGC-10	Secure Global Connectivity Product Zone: Deploy Agile Services Networking   Embrace Routed Optical Networking   Unleash Al-Native Infrastructure   Power Networks with Silicon One

Cisco 8711-32FH-M	Secure Global Connectivity	SGC-10	Secure Global Connectivity Product Zone: Deploy Agile Services Networking   Embrace Routed Optical Networking   Unleash Al-Native Infrastructure   Power Networks with Silicon One
Cisco 8711-48Z-M	Secure Global Connectivity	SGC-10	Secure Global Connectivity Product Zone: Deploy Agile Services Networking   Embrace Routed Optical Networking   Unleash Al-Native Infrastructure   Power Networks with Silicon One
Cisco 8712-MOD-M	Secure Global Connectivity	SGC-02	Scale converged access services: Cisco Routed PON   Satellite solutions for global reach
	Secure Global Connectivity	SGC-10	Secure Global Connectivity Product Zone: Deploy Agile Services Networking   Embrace Routed Optical Networking   Unleash Al-Native Infrastructure   Power Networks with Silicon One
Cisco 88-LC1-12TH24FH-E	Secure Global Connectivity	SGC-10	Secure Global Connectivity Product Zone: Deploy Agile Services Networking   Embrace Routed Optical Networking   Unleash Al-Native Infrastructure   Power Networks with Silicon One
Cisco 88-LC1-36EH	Secure Global Connectivity	SGC-10	Secure Global Connectivity Product Zone: Deploy Agile Services Networking   Embrace Routed Optical Networking   Unleash Al-Native Infrastructure   Power Networks with Silicon One
Cisco 88-LC1-52Y8H-EM	Secure Global Connectivity	SGC-10	Secure Global Connectivity Product Zone: Deploy Agile Services Networking   Embrace Routed Optical Networking   Unleash Al-Native Infrastructure   Power Networks with Silicon One
Cisco Access Point	Security Operations Center (SOC)	SOC-01	Security Operations Center (SOC)
Cisco Accessory Hub - Desktop App	Future-Proofed Workplaces	FPW-39	Stay connected, anywhere you work: Cisco Headsets   Wireless Phones

Cisco Advanced Services	Al-Ready Data Centers	AIDC-24	Maximize value: Adoption- boosting automation and personalized guidance
	Al-Ready Data Centers	AIDC-25	Accelerate and optimize deployment: Implementation and modernization services
	Al-Ready Data Centers	AIDC-26	Enable resilient operations: Modern Al-powered proactive and predictive support
	Al-Ready Data Centers	FPW-43	Al-powered automation and expertise: Deploy with speed and confidence   Guidance to maximize value   Modern support for resilient ops
Cisco Agile Services Networking	Secure Global Connectivity	SGC-09	Agile Services Networking in action
Cisco Al Assistant and Agentic Workflows	Cisco Platform Advantage	CPA-16	AgenticOps for networking: Al Assistant   Cisco Workflows
	Future-Proofed Workplaces	FPW-41	Modernizing campus networks: Agentic campus operations, Smart Switches   Post-quantum security, Campus Gateway   Wi- Fi 7
Cisco AI Assistant	Future-Proofed Workplaces	FPW-11	All-in-one Al-powered collaboration: Webex Suite   Cisco Al Assistant
Cisco Al Defense	Al-Ready Data Centers	AIDC-18	Protecting AI applications: AI Defense   Hybrid Mesh Firewall
Cisco Board Pro	Future-Proofed Workplaces	FPW-22	Cisco on Cisco: Cisco IT: Future- proofing our workplaces
Cisco C9350 Series Smart Switches	Future-Proofed Workplaces	FPW-42	Cisco C9000 Smart Switches
Cisco Call for Microsoft Teams	Future-Proofed Workplaces	FPW-12	Modern Webex Calling: AI Receptionist   Customer Assist   Webex Go
Cisco Campus Gateway	Future-Proofed Workplaces	FPW-46	Cisco Wireless
Cisco Catalyst 9000 Switches	Future-Proofed Workplaces	FPW-22	Cisco on Cisco: Cisco IT: Future- proofing our workplaces
Cisco Catalyst 9136 Access Points	Future-Proofed Workplaces	FPW-22	Cisco on Cisco: Cisco IT: Future- proofing our workplaces
Cisco Catalyst 9200	Future-Proofed Workplaces	FPW-36	Campus and branch switching
Cisco Catalyst 9300	Al-Ready Data Centers	AIDC-06	Improving power usage effectiveness: Immersion cooling   Energy management

Cisco Catalyst 9300 and 9350 Switches with UPoE+ Energy Networking Capabilities	Future-Proofed Workplaces	FPW-50	IT Operations Center
Cisco Catalyst 9300-M	Future-Proofed Workplaces	FPW-36	Campus and branch switching
Cisco Catalyst 9300X-48H	Future-Proofed Workplaces	FPW-51	Energy networking: Splunk energy management
Cisco Catalyst 9400	Future-Proofed Workplaces	FPW-36	Campus and branch switching
Cisco Catalyst 9500	Future-Proofed Workplaces	FPW-36	Campus and branch switching
Cisco Catalyst 9500X-60L4D	Security Operations Center (SOC)	SOC-01	Security Operations Center (SOC)
Cisco Catalyst 9606R	Security Operations Center (SOC)	SOC-01	Security Operations Center (SOC)
Cisco Catalyst 9800-40 Wireless Controller	Security Operations Center (SOC)	SOC-01	Security Operations Center (SOC)
Cisco Catalyst 9800-80 Wireless Controller	Security Operations Center (SOC)	SOC-01	Security Operations Center (SOC)
Cisco Catalyst C8500-20X6C	Security Operations Center (SOC)	SOC-01	Security Operations Center (SOC)
Cisco Catalyst C9200CX	Future-Proofed Workplaces	FPW-36	Campus and branch switching
Cisco Catalyst Center	Digital Resilience	DR-14	Cisco on Cisco: Cisco IT: Enhancing our digital resilience
	Digital Resilience	DR-20	Observability and Networking: Splunk Observability and Cisco Networking
	Future-Proofed Workplaces	FPW-41	Modernizing campus networks: Agentic campus operations, Smart Switches   Post-quantum security, Campus Gateway   Wi- Fi 7
	Future-Proofed Workplaces	FPW-47	Unified IT management: Networking   Meraki Dashboard and Catalyst Center
	Security Operations Center (SOC)	SOC-01	Security Operations Center (SOC)
Cisco Catalyst Center Global Manager	Cisco Platform Advantage	CPA-13	On-prem network management: Catalyst Center Global Manager   RBAC
	Future-Proofed Workplaces	FPW-41	Modernizing campus networks: Agentic campus operations, Smart Switches   Post-quantum security, Campus Gateway   Wi- Fi 7
Cisco Catalyst IE3100 Rugged	Future-Proofed Workplaces	FPW-35	Industrial product portfolio
Cisco Catalyst IE3105 Rugged	Future-Proofed Workplaces	FPW-35	Industrial product portfolio

Cisco Catalyst IE3300-8T2S	Future-Proofed Workplaces	FPW-35	Industrial product portfolio
Cisco Catalyst IE3400-8T2S	Future-Proofed Workplaces	FPW-35	Industrial product portfolio
Cisco Catalyst IE9300	Future-Proofed Workplaces	FPW-35	Industrial product portfolio
Cisco Catalyst IR1101	Future-Proofed Workplaces	FPW-35	Industrial product portfolio
	Future-Proofed Workplaces	FPW-38	Wi-Fi 7 and IoT
Cisco Catalyst IR8340	Future-Proofed Workplaces	FPW-35	Industrial product portfolio
Cisco Catalyst IW9165D	Future-Proofed Workplaces	FPW-46	Cisco Wireless
Cisco Catalyst IW9165D Rugged Access Point and Wireless Client	Future-Proofed Workplaces	FPW-35	Industrial product portfolio
Cisco Catalyst IW9165E	Future-Proofed Workplaces	FPW-46	Cisco Wireless
Cisco Catalyst IW9165E Rugged Access Point and Wireless Client	Future-Proofed Workplaces	FPW-35	Industrial product portfolio
Cisco Catalyst IW9167E	Future-Proofed Workplaces	FPW-35	Industrial product portfolio
	Future-Proofed Workplaces	FPW-46	Cisco Wireless
Cisco Catalyst SD-WAN	Digital Resilience	DR-14	Cisco on Cisco: Cisco IT: Enhancing our digital resilience
	Future-Proofed Workplaces	FPW-07	SASE with Cisco: Secure Access and SD-WAN: Catalyst   Meraki   Secure Firewall
Cisco Ceiling Microphone Pro	Future-Proofed Workplaces	FPW-02	Distance zero experiences: Room Kit EQX   Room Vision PTZ   Ceiling Microphone Pro
Cisco Cloud Protection suite	Cisco Platform Advantage	CPA-01	Unify security management: Security Cloud Control   Cloud Protection Suite
Cisco Crosswork Network Automation	Secure Global Connectivity	SGC-05	Accelerate Al-powered automation: Autonomous networking with Crosswork Network Automation
Cisco Customer Experience	Al-Ready Data Centers	AIDC-24	Maximize value: Adoption- boosting automation and personalized guidance
	Al-Ready Data Centers	AIDC-25	Accelerate and optimize deployment: Implementation and modernization services
	Al-Ready Data Centers	AIDC-26	Enable resilient operations:  Modern Al-powered proactive and predictive support

	Cisco Customer Experience	CX-01	Simplified Cisco services portfolio: Full lifecycle coverage with flexible choices
	Cisco Customer Experience	CX-02	Professional services: Accelerate and optimize IT modernization
	Cisco Customer Experience	CX-03	Modern Al-powered support: Enable reliable, resilient, and secure operations
	Cisco Customer Experience	CX-04	Customer success: Value- boosting automation and personalized guidance
	Digital Resilience	DR-21	Accelerate digital resilience: Deploy and adopt faster with professional services
	Digital Resilience	DR-22	Resolve issues faster: Improve uptime with modern AI-powered support
	Digital Resilience	DR-23	Proactively resolve problems: Resolve beforehand with modern Al-powered support
	Digital Resilience	DR-24	Prevent risk: Avoid downtime with modern Al-powered support
	Future-Proofed Workplaces	FPW-20	Connected journeys, smart analytics: Webex Al-powered customer experience solutions
Cisco DBS110/210	Future-Proofed Workplaces	FPW-27	Future-ready collaboration: Webex Suite   Collaboration devices
Cisco Desk	Future-Proofed Workplaces	FPW-27	Future-ready collaboration: Webex Suite   Collaboration devices
Cisco Desk Camera	Future-Proofed Workplaces	FPW-22	Cisco on Cisco: Cisco IT: Future- proofing our workplaces
Cisco Desk Camera 1080p	Future-Proofed Workplaces	FPW-39	Stay connected, anywhere you work: Cisco Headsets   Wireless Phones
	Future-Proofed Workplaces	FPW-40	Collaboration at your desk: Cisco Desk Series   Desk phones

Cisco Desk Camera 4K	Future-Proofed Workplaces	FPW-39	Stay connected, anywhere you work: Cisco Headsets   Wireless Phones
	Future-Proofed Workplaces	FPW-40	Collaboration at your desk: Cisco Desk Series   Desk phones
Cisco Desk Hub	Future-Proofed Workplaces	FPW-22	Cisco on Cisco: Cisco IT: Future- proofing our workplaces
Cisco Desk Mini	Future-Proofed Workplaces	FPW-27	Future-ready collaboration: Webex Suite   Collaboration devices
	Future-Proofed Workplaces	FPW-40	Collaboration at your desk: Cisco Desk Series   Desk phones
Cisco Desk Phone 9800 Series	Future-Proofed Workplaces	FPW-40	Collaboration at your desk: Cisco Desk Series   Desk phones
Cisco Desk Phone 9841	Future-Proofed Workplaces	FPW-40	Collaboration at your desk: Cisco Desk Series   Desk phones
Cisco Desk Phone 9851	Future-Proofed Workplaces	FPW-40	Collaboration at your desk: Cisco Desk Series   Desk phones
Cisco Desk Phone 9861	Future-Proofed Workplaces	FPW-40	Collaboration at your desk: Cisco Desk Series   Desk phones
Cisco Desk Phone 9871	Future-Proofed Workplaces	FPW-39	Stay connected, anywhere you work: Cisco Headsets   Wireless Phones
	Future-Proofed Workplaces	FPW-40	Collaboration at your desk: Cisco Desk Series   Desk phones
Cisco Desk Pro	Future-Proofed Workplaces	FPW-22	Cisco on Cisco: Cisco IT: Future- proofing our workplaces
	Future-Proofed Workplaces	FPW-40	Collaboration at your desk: Cisco Desk Series   Desk phones
Cisco Devices	Future-Proofed Workplaces	FPW-03	One device, any meeting: Meeting interoperability   Microsoft Teams Rooms
	Future-Proofed Workplaces	FPW-49	Unified IT management: Workplaces   Webex Control Hub and Cisco Spaces
Cisco Duo	Future-Proofed Workplaces	FPW-10	Identity and user trust: Universal ZTNA: Cisco Secure Access   Duo   ISE
Cisco Email Threat Defense	Cisco Platform Advantage	CPA-03	Outsmart identity attacks: Trusted Identity Edge   Identity Intelligence   ISE   Duo

	Cisco Platform Advantage	CPA-04	Phish-proof your organization: Duo   Secure Access   XDR   User Protection Suite
Cisco Firepower 9300 Series	Security Operations Center (SOC)	SOC-01	Security Operations Center (SOC)
Cisco Foundation AI	Cisco Platform Advantage	CPA-02	Al for Security: Cisco Foundation Al   Talos   XDR
Cisco Headset 322	Future-Proofed Workplaces	FPW-39	Stay connected, anywhere you work: Cisco Headsets   Wireless Phones
Cisco Headset 522	Future-Proofed Workplaces	FPW-39	Stay connected, anywhere you work: Cisco Headsets   Wireless Phones
Cisco Headset 532	Future-Proofed Workplaces	FPW-39	Stay connected, anywhere you work: Cisco Headsets   Wireless phones
Cisco Headset 561	Future-Proofed Workplaces	FPW-39	Stay connected, anywhere you work: Cisco Headsets   Wireless Phones
Cisco Headset 562	Future-Proofed Workplaces	FPW-39	Stay connected, anywhere you work: Cisco Headsets   Wireless Phones
Cisco Headset 722 Webex	Future-Proofed Workplaces	FPW-39	Stay connected, anywhere you work: Cisco Headsets   Wireless Phones
Cisco Headset 730	Future-Proofed Workplaces	FPW-39	Stay connected, anywhere you work: Cisco Headsets   Wireless Phones
Cisco Hyperfabric AI	AI-Ready Data Centers	AIDC-05	Full-stack Al infrastructure: Al Infra: Nexus Hyperfabric Al   Experience: Nexus Hyperfabric Al
	AI-Ready Data Centers	AIDC-09	Cisco on Cisco: Cisco IT: Deploying Al-ready data centers
	AI-Ready Data Centers	AIDC-10	Cisco on Cisco: Cisco IT: Deploying Al-ready data centers
Cisco Identity Intelligence (CII)	Cisco Platform Advantage	CPA-03	Outsmart identity attacks: Trusted Identity Edge   Identity Intelligence   ISE   Duo
	Cisco Platform Advantage	CPA-04	Phish-proof your organization: Duo   Secure Access   XDR   User Protection Suite
Cisco IE3500H	Future-Proofed Workplaces	FPW-38	Wi-Fi 7 and IoT

Cisco Intersight	Al-Ready Data Centers	AIDC-11	Simplify IT operations: Cisco Intersight   Cisco Intersight add- on for Splunk
Cisco IP DECT Phone 6823	Future-Proofed Workplaces	FPW-39	Stay connected, anywhere you work: Cisco Headsets   Wireless Phones
Cisco IP DECT Phone 6825	Future-Proofed Workplaces	FPW-39	Stay connected, anywhere you work: Cisco Headsets   Wireless Phones
Cisco IP DECT Phone 6825 Ruggedized	Future-Proofed Workplaces	FPW-39	Stay connected, anywhere you work: Cisco Headsets   Wireless Phones
	Future-Proofed Workplaces	FPW-27	Future-ready collaboration: Webex Suite   Collaboration devices
Cisco ISE	Cisco Platform Advantage	CPA-03	Outsmart identity attacks: Trusted Identity Edge   Identity Intelligence   ISE   Duo
	Cisco Platform Advantage	CPA-04	Phish-proof your organization: Duo   Secure Access   XDR   User Protection Suite
	Future-Proofed Workplaces	FPW-10	Identity and user trust: Universal ZTNA: Cisco Secure Access   Duo   ISE
Cisco Lifecycle Services	Al-Ready Data Centers	AIDC-24	Maximize value: Adoption- boosting automation and personalized guidance
	AI-Ready Data Centers	AIDC-25	Accelerate and optimize deployment: Implementation and modernization services
	AI-Ready Data Centers	AIDC-26	Enable resilient operations: Modern Al-powered proactive and predictive support
	Digital Resilience	DR-21	Accelerate digital resilience: Deploy and adopt faster with professional services
	Future-Proofed Workplaces	FPW-43	Al-powered automation and expertise: Deploy with speed and confidence   Guidance to maximize value   Modern support for resilient ops
Cisco Meraki	Cisco Platform Advantage	CPA-05	XDR for the Meraki IT Pro: Meraki   XDR   Secure Access   Security Suites

	Digital Resilience	DR-20	Observability and Networking: Splunk Observability and Cisco Networking
Cisco Meraki Dashboard	Cisco Platform Advantage	CPA-14	Cloud network management: Cisco Meraki Dashboard   Al Assistant   RBAC
	Cisco Platform Advantage	CAP-16	AgenticOps for networking: Al Assistant   Cisco Workflows
	Future-Proofed Workplaces	FPW-18	A new architecture for the unified branch: Simplified network and security operations   Branch as code
	Future-Proofed Workplaces	FPW-19	Smarter, safer spaces: Physical security   Video analytics
	Future-Proofed Workplaces	FPW-34	Cloud-managed rugged networking: IE switching   MV cameras   Meraki Dashboard
Cisco Meraki MT15	Future-Proofed Workplaces	FPW-02	Distance zero experiences: Room Kit EQX   Room Vision PTZ   Ceiling Microphone Pro
Cisco Meraki MX	Digital Resilience	DR-07	Simplify security operations: Cisco XDR   Meraki MX
