CISCO Live !

- Security Demos
- Cisco Spaces Wayfinding Kiosks

Welcome to the new Cisco Showcase

Join Cisco experts and gain access to over 100 demos, immersive experiences, and inspirational sessions designed to accelerate your business growth and unlock incredible value. Experience firsthand how Cisco empowers you to build, scale, and protect your data centers, future-proof your workplaces, and ensure your organization's digital resilience. Step into the Cisco platform advantage, where infrastructure, security, observability, and intelligence don't just coexist, they compound to power your agentic enterprise.

Cisco Showcase > AI-Ready Data Centers

AI is evolving fast—agentic AI demands secure infrastructure that can keep up. Cisco's full-stack AI infrastructure, engineered as one system, unifies networking, compute, security, and observability to deliver AI-ready data centers anywhere, helping organizations accelerate AI initiatives with maximum agility and zero compromise.

LOCATION	DEMO NAME	DESCRIPTION	PRODUCTS AND SERVICES
AIDC-01	Powering real-world AI use cases: Healthcare Retail Manufacturing	Follow the customer journey from edge to core as AI moves from early use cases to broader business transformation. Across healthcare, manufacturing, and retail, see how Cisco helps turn data into real-world outcomes with the infrastructure, security, and visibility to scale.	Cisco UCS (AI Pods), Cisco Unified Edge, Intersight, Isovalent, Splunk, Cisco ThousandEyes, Cisco Cloud Control
AIDC-02	Internet infrastructure: Powering AI networks and services at scale	Learn how Cisco enables service providers to deliver AI infrastructure and services that are scalable, efficient, and ready for customer demand. A strong, flexible foundation helps support AI growth with confidence.	Live Protect, Cisco 400G, 800G, 1.6T optics, Splunk, IMI/mobile
AIDC-03	AgenticOps: Aligning speed with precision	Explore how Cisco Agentic Ops brings speed and precision together through AI-driven operations. See how teams can reduce manual effort, respond faster, and operate with greater confidence across modern IT environments.	Cisco Cloud Control, Cisco Nexus One, Cisco Cloud Control with AI Canvas
AIDC-04	Full-stack AI infrastructure: Engineered as one system with partners	Discover how Cisco's full-stack AI infrastructure and ISV partner ecosystem come together to make AI easier to deploy, operate, and scale. This demo highlights how customers can accelerate outcomes with an integrated system built for real-world AI.	Cisco UCS (AI PODs), Cisco Unified Edge, Intersight, Cisco Secure AI Factory, Cisco Cloud Control
AIDC-05	Scaling multi-agent systems: Interoperable multi-agent collaboration and cognition	Explore our multi-agent systems platform for open and interoperable agent collaboration. The Internet of Cognition enables multi-agent systems to share intent, accumulate knowledge, and innovate across distributed infrastructure. Discover agents, secure message transport and identity, and observe agent-to-agent	Multi-Agent Systems

		traffic across any framework with AGNTCY.org and the Internet of Agents.	
AIDC-06	Advancing quantum networking: Quantum networking hardware and software stack	Explore Cisco’s quantum networking innovations, like the quantum network entanglement chip and network-aware quantum compiler. Learn about our full-stack vision, our architecture for scaling, and its applications for both quantum and classical computing.	Quantum Networking
AIDC-07	Cisco Security: Distributed security, fused into every layer	Secure AI from the inside out. See how Cisco embeds protection across infrastructure, workloads, models, and applications.	Cisco Hybrid Mesh Firewall, Cisco Cloud Control, Live Protect, Isovalent, Splunk
AIDC-08	Maximize data center reliability: Cisco pluggable optics	AI performance starts at the optical layer. See how Cisco pluggable optics—including Silicon Photonics, LPO integrated designs, and BiDi innovations—enable high-performance connectivity across AI front-end and back-end networks, with optics link health monitoring to keep everything running when it matters most.	Cisco 400G, 800G and 1.6T optics
AIDC-09	Maximize GPU utilization: Cisco Silicon One	AI workloads demand extreme scale and efficiency. Cisco Silicon One powers AI-ready data centers with programmable architectures that optimize GPU utilization and reduce job completion times. Experience how shared packet buffers and intelligent collective networking deliver the performance, security, and energy efficiency required for distributed AI.	Cisco Silicon One
AIDC-10	Cisco Networking: End-to-end networking from silicon to containers	AI workloads are only as scalable as the network beneath them. See how Cisco networking connects silicon, fabrics, clusters, and containers—keeping workloads fast, visible, and resilient.	Cisco N9300 Smart Switches, Cisco Silicon One, Cisco Nexus One, Optics, Isovalent
AIDC-11	Cisco Compute: Computing with AI systems, not servers	Scale AI from edge to core. See how Cisco’s full-stack solutions unite compute, networking, security, management, and partners into one AI-ready platform.	Cisco UCS (AI PODs), Cisco Unified Edge, Intersight
AIDC-12	Deploy AI applications faster: ISV Workloads on AI PODs Cisco Unified Edge	Your business is asking for AI—how fast can you deliver it? Explore real AI use cases running on Cisco Compute and Unified Edge and understand the full solution architecture across Cisco and ISV	Cisco Unified Edge, UCS, SAIF

		ecosystem partners so you can deploy faster and with confidence.	
AIDC-13	Drive energy efficiency: From L10 servers to L12 clusters	AI clusters demand more power than most data centers were built to handle. Get early access to Cisco's L11 reference architecture—integrating Fault Managed Power with HVDC, cooling, optics, and orchestration—and help shape the infrastructure designs your next AI deployment will run on.	Compute, Switching
AIDC-14	Automate workflows with agents: Cisco AI PODs Cisco AI Defense Cisco Unified Edge	Eliminate manual ticketing and dashboards. See autonomous warehouse management in action—Vaidio computer vision and Nemotron LLMs detect stockouts at the edge, while Aible AI orchestrates automated reorders via Cisco AI PODs, ensuring shelves are restocked instantly to prevent lost revenue.	Cisco AI PODs, SAIF
AIDC-15	Simplify workload migration: Cisco Compute Hyperconverged with Nutanix	Modernize your infrastructure to keep pace with AI. See how Cisco UCS and Nutanix Cloud Platform work together to unify Day 1 management, simplify virtualization with AHV, and accelerate AI workloads with Cisco AI PODs from core to edge.	Cisco Compute Hyperconverged with Nutanix
AIDC-16	Simplify compute management: Cisco Intersight Cisco Cloud Control	Your data center and edge estate shouldn't require a different tool for every task. Discover Cisco Intersight—your cloud-native platform for unified IT operations. Scale faster with blueprint-driven fleet management and explore integration with Cisco Cloud Control to deliver secure, AI-ready infrastructure everywhere.	Cisco Intersight
AIDC-18	Achieve energy savings: Direct liquid-cooled switch	Less heat. More performance. See the Cisco fully liquid-cooled 102.4T switch, powered by Silicon One G300 NPU. Featuring redundant integrated power and intelligent leak detection, it cools up to 80% of system components and delivers 12%+ power savings over air-cooled solutions.	51.2T Switch, 102.4T Switch
AIDC-19	Safeguard edge operations: Cisco Unified Edge Immersion cooling	Extreme environments break traditional infrastructure. This one fights back. See how edge operations are protected by single-phase immersion cooling, which isolates compute, networking, security, and storage in dielectric fluid. This means Cisco Unified Edge stays operational in	Cisco Unified Edge, Cisco UCS XE

		environments where traditional hardware can't survive.	
AIDC-20	Services for AI-ready data centers: Accelerate time to first intelligence	Speed matters when deploying AI. Explore how Cisco Services helps you build, modernize, and optimize AI-ready data centers through expert guidance, automation, and proven methodologies to accelerate Time to First Intelligence by reducing the time from hardware delivery to validated, operational AI use cases that deliver measurable business value.	Cisco AI Defense, Cisco Hybrid Mesh Firewall, NVIDIA
AIDC-21	Services for AI-ready data centers: Master cost to true scale	As your AI infrastructure grows, managing economics becomes critical. Discover how Cisco Services brings expert guidance, automation, and proven methodologies to help you control Cost to True Scale by enabling resilient architecture, predictable performance, and sustainable economics as you expand from deployment to production scale.	Cisco AI Defense, Cisco Hybrid Mesh Firewall, NVIDIA
AIDC-22	Simplify with cloud management: Cisco Nexus One Nexus Hyperfabric Full-stack AI	Data center modernization doesn't have to be a multi-year project. Cisco Nexus Hyperfabric delivers a full-stack AI solution that's simple to deploy and manage—with dynamic resource allocation that scales to meet your business demands as they change.	Cisco Nexus One, Cisco Nexus Hyperfabric
AIDC-23	Unify ops from fabric to Kubernetes: Nexus One and Isovalent Isovalent Network Bridge	Multi-cloud is the reality—managing it securely shouldn't be the problem. See how Cisco Nexus One unifies network operations with fabric visibility, while Isovalent brings observability, security, and optimal performance for cloud-native applications—simplifying management and enabling proactive risk detection at scale.	Cisco Nexus One, Isovalent, Isovalent Network Bridge
AIDC-24	Troubleshoot with agentic AI: Cisco Cloud Control Cisco Nexus One Native Splunk	Troubleshoot complex network issues in seconds, not hours. Discover how Cisco Cloud Control and AgenticOps enable dynamic, AI-powered network management using multi-agent architectures and natural language. Learn how Splunk's integration with Nexus Dashboard delivers real-time insights, anomaly detection, and predictive analytics to help you proactively manage your network.	Cisco Cloud Control, Cisco Nexus One, Native Splunk

AIDC-25	Automate your data center fabric: Cisco Nexus Dashboard APIs Nexus-as-Code	Manual fabric operations are slow, error-prone, and don't scale. Learn how Cisco Nexus One uses Nexus Dashboard APIs and VXLAN-as-Code to automate data center fabric deployments—eliminating manual errors, accelerating rollouts, and scaling your core network without added complexity.	Cisco Nexus Dashboard APIs, Nexus-as-Code
AIDC-26	Build end-to-end AI networks: Cisco Nexus One NCP RA CRA	Don't let network latency throttle your AI workloads. See how Cisco Silicon One and NVIDIA Spectrum-X Ethernet silicon-based N9000 series switches maximize throughput and minimize job completion times—with Cisco Nexus One delivering reliable multi-tenancy and advanced job observability for your most complex AI workloads.	Cisco Nexus One, NCP RA, CRA
AIDC-27	Fuse security with networking: N9300 Smart Switches Post-quantum cryptography Live Protect	Stop bolting security onto your network. Cisco Nexus One fortifies infrastructure with Live Protect. The N9300 Smart Switch with Cisco Hypershield fuses security and networking to reduce hair pinning and streamline operations. Plus, native Nexus Dashboard integration provides the visibility needed for a modern, highly secure network environment.	Cisco N9300 Smart Switches, Post-Quantum Cryptography, Live Protect
AIDC-28	Enforce segmentation everywhere: Hybrid Mesh Firewall Cisco Secure Workload Cisco Smart Switch	Segmentation that meets you where you are. Learn how Cisco Hybrid Mesh Firewall minimizes the attack surface and stops unauthorized lateral movement with agentless and agent-based segmentation for your traditional and modern applications, including Kubernetes.	Cisco Hybrid Mesh Firewall, Cisco Secure Workload, Cisco Smart Switch
AIDC-29	Simplify workflows with AgenticOps: Hybrid Mesh Firewall Cisco Cloud Control	Security issues don't wait—but your team shouldn't have to chase them either. See how Cisco Cloud Control's agent-first operating model proactively identifies problems and recommends one-click resolutions tailored to your environment. Learn how it also unifies policies across multi-vendor firewalls without costly rip-and-replace projects.	Cisco Hybrid Mesh Firewall, Cisco Cloud Control
AIDC-30	Stop zero-day and encrypted threats: Hybrid Mesh Firewall Cisco Secure Firewall Talos	Malicious actors hide in encrypted traffic. Expose them. See how Cisco Secure Firewall uncovers hidden threats and applies AI-driven, threat-aware policies—using SnortML and user trust scores to enforce dynamic controls, gain deeper visibility, and stop advanced attacks earlier.	Cisco Hybrid Mesh Firewall, Cisco Secure Firewall, Talos

AIDC-31	Securely deploy 3rd-party agents: DefenseClaw	OpenClaw has 180,000 GitHub stars. Your employees are already using it. See how Cisco Agentic Security finds it on day one, quarantines it automatically, and applies the Discover, Register, Secure loop to link every agent to an owner and scope what it can do.	DefenseClaw
AIDC-32	Secure AI infrastructure: Hybrid Mesh Firewall Isovalent	No matter how well you secure your models, AI is still software running somewhere. See how Isovalent uses eBPF to unify network and runtime enforcement—delivering process-level visibility, runtime shields that block container escapes, and workload segmentation that contains threats at the source.	Cisco Hybrid Mesh Firewall, Isovalent
AIDC-33	Secure AI agents: Hybrid Mesh Firewall Cisco AI Defense	Your AI models are a prime target. Cisco AI Defense provides discovery and visibility across your entire AI ecosystem—defending against emerging threats targeting AI applications and ensuring compliance for your AI investments, all from a single point of control.	Cisco Hybrid Mesh Firewall, Cisco AI Defense
AIDC-34	Accelerate SecOps with network data: Hybrid Mesh Firewall Splunk Cisco Cloud Control	Stop hunting blindly. Integrate firewall logs into Splunk to enable federated search and advanced threat hunting with enriched context. See how correlating network and firewall telemetry uncovers hidden threats and accelerates response across your entire infrastructure.	Splunk, Cisco Cloud Control
AIDC-35	Optimize AI performance: Splunk	As AI stacks grow to include agents, LLMs, and infrastructure, visibility gaps are common. Splunk provides the clarity to regain control, helping you monitor performance, accuracy, and costs. Proactively optimize health, security, and costs across your entire AI environment with intelligent alerts on bottlenecks and performance spikes.	Splunk Observability Cloud

Cisco Showcase > Center Stage

Join us in the Cisco Showcase to hear from leaders and customers during sessions that will help you drive greater business impact and stay ahead of industry trends.

Cisco Showcase > Cisco Customer Experience

Cisco Services is revolutionizing how technology is deployed, adopted, and operated—blending agentic AI with human expertise to drive faster time-to-value, with every interaction personalized, proactive, and predictive.

LOCATION	DEMO NAME	DESCRIPTION	PRODUCTS AND SERVICES
CX-01	Cisco IQ: Where human expertise meets agentic intelligence	Get hands-on experience with Cisco IQ and see how it transforms IT support and lifecycle management. View how complete landscape clarity, proactive resilience, and rapid issue resolution combine to accelerate your operational excellence. Discuss how contextual professional services can accelerate time to value with tailored guidance for your unique environment.	Cisco IQ
CX-02	AI-powered support with Cisco IQ: Personalized Proactive Predictive	Experience a new era of IT support with agentic automation. Powered by Cisco IQ, our AI-driven approach delivers complete landscape clarity, proactive resilience, rapid resolution, and personalized learning to maximize uptime and minimize risk. With Cisco Support, you accelerate operational excellence and elevate your team's technical proficiency, while also achieving efficiency by pinpointing exactly where to invest for maximum impact.	Cisco IQ
CX-03	Professional Services with Cisco IQ: De-risk Accelerate value Measure	Discover how to de-risk operations, accelerate delivery, and achieve measurable results by leveraging 40 years of knowing how to design it right, migrate it clean, and deliver it faster. Explore innovations like Services as Code and automated validation, helping you streamline operations and execute changes 5x faster. Optimize capacity, strengthen reliability, and collapse the learning curve with data-driven best practices and guidance.	Cisco IQ
CX-04	Onboard agentic AI at scale: Align Secure Accelerate	Move beyond fragmented AI silos and into production-scale Agentic AI, securely and at speed. Explore the latest proven methodologies, industry-tailored AI use cases, and relevant best practices that align IT and LOB teams to onboard AI with confidence, efficiency, and measurable impact.	AI Advisory
CX-05	Customer success: Expediate Empower Optimize	Unlock the full potential of your Cisco investment. Explore how our Customer Success team uses automation and personalized insights to accelerate your time-to-value. Simplify operations, boost performance, and achieve your business outcomes faster than ever. Stop by to see how we turn technology into your greatest competitive advantage today.	

Cisco Showcase > Cisco Operations

Ever wonder how Cisco manages its extensive network? Meet our engineers and discover how we leverage our own technology to power global operations. Through AI, automation, and a "secure by design" approach, we build resilience into every layer of our infrastructure.

LOCATION	DEMO NAME	DESCRIPTION	PRODUCTS AND SERVICES
DR-21	Cisco Operations: AI-powered and secure: Innovation without compromise	Quantum and AI threats are the new reality. Is your infrastructure ready? Learn how Cisco secures enterprise AI applications, protects against emerging threats, and ensures compliance for regulated SaaS products.	Post-Quantum Cryptography, Cisco AI Defense
DR-22	Cisco Operations: AI-powered and secure: Automate for an intelligent lifecycle	The product lifecycle just got smarter. First, Commerce AI drives growth, productivity, and profitability through agentic workflows, real-time recommendations, and an AI-powered assistant-accelerating every deal from prospecting to closure. Then, explore how Intelligent RMA, Virtual RMA Assistant, and the Order Status Agent transform delivery and service, using AI-driven fault detection and real-time tracking to resolve issues faster and keep operations at peak performance.	Commerce AI, AI Agents, Intelligent RMA Experience, Virtual RMA Assistant, Order Status Management Bot
DR-23	Cisco Operations: AI-powered and secure: Cisco on Cisco Real-world solutions	Want to know how Cisco runs Cisco? Speak directly with Cisco IT engineers about our internal deployments. Discover real-world solutions and initiatives across network engineering and operations to see how Cisco uses its own technology to drive success.	Cisco ThousandEyes, Cisco Catalyst Center, Nexus, Cisco Secure Access, AI Canvas, Cisco Catalyst SD-WAN

Cisco Showcase > The Cisco Platform Advantage

The stakes of the agentic era have never been higher—neither has the opportunity. Step into an experience that shows what it means to power, secure, and run your agentic enterprise. Get hands-on with Cisco Cloud Control, the platform that makes AgenticOps real. Leave with a personalized demo roadmap.

LOCATION	DEMO NAME	DESCRIPTION	PRODUCTS AND SERVICES
CPA-01	Run your agentic enterprise with Cisco Cloud Control	Watch AgenticOps in action. AI agents investigate and execute across your entire estate at machine speed, while your team governs decisions and risk. Cisco Cloud Control: the unified platform where autonomous infrastructure becomes operational reality.	Cisco Cloud Control

CPA-02	Get started with Cisco Cloud Control	Step into the future of IT operations as Cisco Cloud Control with AI Canvas brings intelligent AI agents to life—autonomously executing complex tasks at machine speed across networking, security, observability, compute, and collaboration, all while keeping humans in control. Experience Cisco Cloud Control's AI-native platform firsthand, where a single, unified interface seamlessly connects your entire Cisco estate, transforming complex management into effortless simplicity.	Cisco Cloud Control
CPA-03	Power your agentic enterprise	Experience agentic traffic like you've never seen. Thousands of concurrent flows surge across your network at machine speed—Cisco Silicon One handles it without compromise. The industry's first unified architecture built to scale up, out, and across every network role, enabling AI-driven management through exceptional scale, visibility, and programmability.	Cisco Silicon One
CPA-04	Secure your agentic enterprise	Agents don't just generate answers—they take action, and every system they touch becomes a potential attack vector. That makes securing the agentic workforce fundamentally different from traditional security. See how Cisco protects the world from agents, protects agents from the world, and empowers your team to detect and respond at machine speed and scale.	Security, Splunk

Cisco Showcase > Cisco Security

Cisco shines when security meets the network. Learn why Cisco and Splunk are innovating to deliver security solutions that drive digital resilience for your organization. Understand our approach for leveraging AI to power your defenses for transformational cloud protection, user protection, and security analytics and response.

LOCATION	DEMO NAME	DESCRIPTION	PRODUCTS AND SERVICES
AIDC-28	Enforce segmentation everywhere: Hybrid Mesh Firewall Cisco Secure Workload Cisco Smart Switch	Segmentation that meets you where you are. Learn how Cisco Hybrid Mesh Firewall minimizes the attack surface and stops unauthorized lateral movement with agentless and agent-based segmentation for your traditional and modern applications, including Kubernetes.	Cisco Hybrid Mesh Firewall, Cisco Secure Workload, Smart Switch

AIDC-29	Simplify workflows with AgenticOps: Hybrid Mesh Firewall Cisco Cloud Control	Security issues don't wait—but your team shouldn't have to chase them either. See how Cisco Cloud Control's agent-first operating model proactively identifies problems and recommends one-click resolutions tailored to your environment. Learn how it also unifies policies across multi-vendor firewalls without costly rip-and-replace projects.	Cisco Hybrid Mesh Firewall, Cisco Cloud Control
AIDC-30	Stop zero-day and encrypted threats: Hybrid Mesh Firewall Cisco Secure Firewall Talos	Malicious actors hide in encrypted traffic. Expose them. See how Cisco Secure Firewall uncovers hidden threats and applies AI-driven, threat-aware policies—using SnortML and user trust scores to enforce dynamic controls, gain deeper visibility, and stop advanced attacks earlier.	Cisco Hybrid Mesh Firewall, Cisco Secure Firewall, Talos
AIDC-31	Securely deploy 3rd-party agents: DefenseClaw	OpenClaw has 180,000 GitHub stars. Your employees are already using it. See how Cisco Agentic Security finds it on day one, quarantines it automatically, and applies the Discover, Register, Secure loop to link every agent to an owner and scope what it can do.	DefenseClaw
AIDC-32	Secure AI infrastructure: Hybrid Mesh Firewall Isovalent	No matter how well you secure your models, AI is still software running somewhere. See how Isovalent uses eBPF to unify network and runtime enforcement—delivering process-level visibility, runtime shields that block container escapes, and workload segmentation that contains threats at the source.	Cisco Hybrid Mesh Firewall, Isovalent
AIDC-33	Secure AI agents: Hybrid Mesh Firewall Cisco AI Defense	Your AI models are a prime target. Cisco AI Defense provides discovery and visibility across your entire AI ecosystem—defending against emerging threats targeting AI applications and ensuring compliance for your AI investments, all from a single point of control.	Cisco Hybrid Mesh Firewall, Cisco AI Defense
DR-09	Confirm attacks with agentic AI: Cisco XDR	Can your SOC outpace an AI-driven attack? See how Cisco XDR fights modern threats with Instant Attack Verification. Powered by agentic AI, it automatically validates threats, builds tailored investigation plans, and launches rapid responses. Stop sophisticated attacks at machine speed.	Cisco XDR

DR-10	Optimize TDIR workflows with AI: SOAR in Splunk Enterprise Security Premier	Stop wasting time on manual SOC tasks. Accelerate time to value and enable teams to identify, configure, and validate automation content faster. Turn natural language prompts into tested SOAR playbooks that work immediately, requiring no deep platform expertise.	Splunk Enterprise Security
DR-11	Accelerate the agentic enterprise: Cisco Data Fabric powered by Splunk	Cisco Data Fabric powered by Splunk fuels AgenticOps with contextualized machine data and AI native capabilities to active agentic workflows. Explore key innovations such as Splunk AITK, Splunk AI Assistant, Splunk MCP Server and AI Canvas as critical building blocks to enable the agentic enterprise.	Splunk Platform, Cisco Data Fabric
DR-12	Unify data and insights at scale: Cisco Data Fabric powered by Splunk	Cisco Data Fabric powered by Splunk unifies data and insights at scale with better economics no matter where data lives. This demo will showcase how we do this with new innovations across data management, federation, and machine data lake to build the data foundation to enable the agentic enterprise.	Splunk Platform, Cisco Data Fabric
DR-13	Author and tune detections: Detection Studio in Splunk Enterprise Security Essentials	Experience the full detection engineering lifecycle with Detection Studio. As a fully integrated feature of Splunk ES, detection engineers can seamlessly plan, develop, test, deploy, and monitor detections for faster mean time to detect.	Splunk Enterprise Security, Detection Studio
DR-14	Power AWS Security: Splunk Enterprise Security for AWS Security Hub Extended	Your SOC shouldn't stop at the cloud. See how Splunk Enterprise Security integrates with AWS Security Hub to deliver end-to-end visibility across hybrid environments— with OCSF-normalized correlation, bidirectional enrichment, and automated response workflows to accelerate threat detection where it matters.	Splunk Enterprise Security, AWS
FPW-40	Enforce zero trust for agents: Zero trust access Cisco Duo Cisco Secure Access	Explore how Agentic AI is reshaping enterprise security. Discover how Cisco powers visibility, identity, and access controls purpose-built for agentic AI— enabling enterprises to safely deploy autonomous systems built for zero trust security.	Cisco Firewall, Cisco Duo, Cisco Secure Access
FPW-41	Safeguard GenAI usage: Zero trust access Cisco Secure Access	AI introduces new risks—Cisco keeps them in check. Automated guardrails enforce safe access to GenAI apps, while AI Supply Chain Risk Management secures your AI application development. And as AI agents enter your network, Secure Access monitors agentic communications and then controls the approved traffic flows.	Cisco Secure Access

FPW-42	Segment with identity context: Cisco Identity Services Engine	Segment your network based on identity, not just location. See how ISE and TrustSec enforce identity-based segmentation by tying network access to who or what the user or device is. Enforce these policies dynamically across other Cisco solutions in the campus and data center.	Cisco ISE, Cisco Secure Firewall, Secure Router, SASE, Cisco Secure Access
FPW-43	Simplify SASE with AgenticOps: Zero trust access Cisco SASE Cisco Cloud Control	Simplify management, deployment, and procurement. Cisco SASE delivers unified management of SSE and SD-WAN—packaged into a single SASE SKU and site license model. Learn about new Meraki and Secure Access integrations with AutoVPN—delivering seamless, secure connectivity without the complexity.	Cisco Secure Access, Cisco SD-WAN
FPW-44	Enforce zero trust for the branch: Meraki dashboard Cisco Access Manager Cisco Secure Access	Bring advanced security to your Meraki dashboard. Learn how new capabilities are integrated into the Meraki experience to deliver cloud-based security, from a full SSE suite to NAC, and threat detection and response. These advanced security integrations fold into the dashboard experience while maintaining Meraki simplicity and delivering high levels of protection.	Cisco Access Manager, Cisco Secure Access, Cisco XDR
FPW-45	Close the identity trust gap: Zero trust access Cisco Duo Cisco Identity Intelligence	Identity is the new perimeter and the cause of most breaches—are you protecting it? Learn how Cisco's security-first IAM solution fortifies against identity-based attacks with end-to-end phishing resistance. See how Cisco Identity Intelligence risk insights enrich your security portfolio to deliver continuous identity visibility and dynamic access policies.	Cisco Duo, Cisco Identity Intelligence, Cisco Secure Access

Cisco Showcase > Digital Resilience

Disruption is inevitable. Downtime isn't. Cisco provides complete visibility across your digital footprint—combining the power of the network with security, observability, and assurance to keep your organization securely up and running, no matter what.

LOCATION	DEMO NAME	DESCRIPTION	PRODUCTS AND SERVICES
----------	-----------	-------------	-----------------------

DR-01	Digital Resilience Pulse Wall	Your entire digital enterprise—one wall. The Pulse Wall visualizes live traffic, threats, and performance across networking, infrastructure, and apps. See Cisco Data Fabric and Splunk in action, and watch agentic AI respond to real-time security and observability events.	Cisco Data Fabric, Splunk
DR-02	Power network assurance with AI: Cisco AI Assistant Cisco Assurance MCP Server	Explore the Cisco AI Assistant for Assurance, featuring event summarization, dashboards, and AI Canvas. Use natural language to monitor, troubleshoot, and resolve user experience issues faster and more intuitively than ever.	Cisco ThousandEyes, Cisco Assurance MCP Server
DR-03	Unify network and app insights: Cisco ThousandEyes Splunk Observability	See how ThousandEyes and Splunk work together, combining bi-directional AIOps assurance with ITSI. Gain unified insights across network and application performance to accelerate cross-domain troubleshooting.	Cisco ThousandEyes, Splunk
DR-04	Assure end-to-end connectivity: Cisco ThousandEyes	What if you could resolve issues before users notice? See how Cisco ThousandEyes SD-WAN Assurance uses AI-driven predictions and agentic workflows to identify and resolve network issues faster—keeping your enterprise connected without the firefighting.	Cisco ThousandEyes SD-WAN Assurance
DR-05	Assure cloud and SaaS: Cisco ThousandEyes	Cloud environments are notoriously opaque—until something breaks. See how Cisco ThousandEyes Cloud Insights delivers AI-powered visibility inside AWS and Azure, connecting cloud performance to broader data center and end-to-end observability so you can assure the full path, not just your piece of it.	Cisco ThousandEyes Cloud Insights
DR-06	Assure every digital experience: Cisco ThousandEyes	Most network problems don't happen on infrastructure you control. See how Cisco ThousandEyes delivers end-to-end visibility across owned and unowned networks—with AI Assistant guidance across mobile, Azure, and IIoT environments—and drill from a global view down to individual endpoint health.	Cisco ThousandEyes
DR-07	Assure wireless experiences: Cisco ThousandEyes	Wireless issues are notoriously hard to pin down. See how Cisco ThousandEyes surfaces key Wi-Fi events with new assurance capabilities—giving you the targeted visibility to cut through the noise and troubleshoot faster, before users lose patience.	Cisco ThousandEyes

DR-08	Visualize your data with Splunk	Drowning in data but starving for context? Splunk dashboards transform complex telemetry into clear, actionable insights in real time. Explore interactive dashboards that surface what matters—so you can make better decisions and respond faster when it counts.	Splunk Enterprise Security, SOAR, Asset and Risk Intelligence (ARI), Splunk Attack Analyzer (SAA), Splunk Observability Cloud, Splunk ITSI, Splunk AI, Splunk Platform
DR-09	Confirm attacks with agentic AI: Cisco XDR	Can your SOC outpace an AI-driven attack? See how Cisco XDR fights modern threats with Instant Attack Verification. Powered by agentic AI, it automatically validates threats, builds tailored investigation plans, and launches rapid responses. Stop sophisticated attacks at machine speed.	Cisco XDR
DR-10	Optimize TDIR workflows with AI: SOAR in Splunk Enterprise Security Premier	Stop wasting time on manual SOC tasks. Accelerate time to value and enable teams to identify, configure, and validate automation content faster. Turn natural language prompts into tested SOAR playbooks that work immediately, requiring no deep platform expertise.	Splunk Enterprise Security
DR-11	Accelerate the agentic enterprise: Cisco Data Fabric powered by Splunk	Cisco Data Fabric powered by Splunk fuels AgenticOps with contextualized machine data and AI native capabilities to active agentic workflows. Explore key innovations such as Splunk AITK, Splunk AI Assistant, Splunk MCP Server and AI Canvas as critical building blocks to enable the agentic enterprise.	Splunk Platform, Cisco Data Fabric
DR-12	Unify data and insights at scale: Cisco Data Fabric powered by Splunk	Cisco Data Fabric powered by Splunk unifies data and insights at scale with better economics no matter where data lives. This demo will showcase how we do this with new innovations across data management, federation, and machine data lake to build the data foundation to enable the agentic enterprise.	Splunk Platform, Cisco Data Fabric
DR-13	Author and tune detections: Detection Studio in Splunk Enterprise Security Essentials	Experience the full detection engineering lifecycle with Detection Studio. As a fully integrated feature of Splunk ES, detection engineers can seamlessly plan, develop, test, deploy, and monitor detections for faster mean time to detect.	Splunk Enterprise Security, Detection Studio
DR-14	Power AWS Security: Splunk Enterprise Security for AWS Security Hub Extended	Your SOC shouldn't stop at the cloud. See how Splunk Enterprise Security integrates with AWS Security Hub to deliver end-to-end visibility across hybrid environments—with OCSF-normalized correlation, bidirectional enrichment, and automated response workflows to accelerate threat detection where it matters.	Splunk Enterprise Security, AWS

DR-15	Unify observability and networking: Splunk Observability and Cisco Networking	See how Splunk and Cisco ThousandEyes, Catalyst Center, Meraki, and Nexus Dashboards work together to help you pinpoint network impact on application performance, deliver cross-domain visibility, alert correlation, and noise reduction across owned and unowned networks, infrastructure, and applications.	Splunk Observability, Cisco ThousandEyes, Cisco Catalyst Center, Meraki, Nexus
DR-16	Explore unified observability: Splunk Observability	Discover how Splunk Observability seamlessly delivers troubleshooting workflows to see the business impact of every performance problem across N-tier and microservices applications.	Splunk Observability
DR-17	Observe AI: Splunk Observability	Discover how Splunk Observability for AI monitors the performance, quality, security, and cost of the AI stack, including agents, LLMs, and infrastructure. Gain visibility with AI Infrastructure Monitoring into vector databases and other specialized AI components, and ensure LLM and agentic applications are reliable, safe, and effective with AI Agent Monitoring.	Splunk Observability
DR-18	Resolve issues with agentic AI: Splunk Observability	Use agentic AI to resolve issues fast. Learn how AI agents and assistants help teams detect, troubleshoot, and remediate issues fast. Reduce MTTR through AI-driven root cause, automated workflows, and human-verified remediation plans.	Splunk Observability
DR-19	Services for digital resilience: Reactive to proactive resilience for call centers	Cisco Services deliver digital resilience to your Contact Center environment by combining deep domain expertise with AI/ML-powered predictive analytics. Discover how to transform reactive operations into proactive management by forecasting critical KPIs such as call volume, handle time, SLA compliance, and staffing needs, turning predictive insights into action before issues impact customers.	Cisco ThousandEyes, Splunk Observability, Cisco IQ
DR-20	Services for digital resilience: Unified observability for AI and network infrastructure	Explore the latest Cisco Services that deliver digital resilience through deep expertise in designing and implementing unified observability across AI and network infrastructure. Leveraging validated best practices at every stage, we enable correlation of application, compute, and network telemetry for precise issue isolation from GPU to network edge, minimized alert noise, and dramatically reduced time to resolution.	Cisco ThousandEyes, Splunk Observability, Cisco IQ

DR-21	Cisco Operations: AI-powered and secure: Innovation without compromise	Quantum and AI threats are the new reality. Is your infrastructure ready? Learn how Cisco secures enterprise AI applications, protects against emerging threats, and ensures compliance for regulated SaaS products.	Post-Quantum Cryptography, Cisco AI Defense
DR-22	Cisco Operations: AI-powered and secure: Automate for an intelligent lifecycle	The product lifecycle just got smarter. First, Commerce AI drives growth, productivity, and profitability through agentic workflows, real-time recommendations, and an AI-powered assistant-accelerating every deal from prospecting to closure. Then, explore how Intelligent RMA, Virtual RMA Assistant, and the Order Status Agent transform delivery and service, using AI-driven fault detection and real-time tracking to resolve issues faster and keep operations at peak performance.	Commerce AI, AI Agents, Intelligent RMA Experience, Virtual RMA Assistant, Order Status Management Bot
DR-23	Cisco Operations: AI-powered and secure: Cisco on Cisco Real-world solutions	Want to know how Cisco runs Cisco? Speak directly with Cisco IT engineers about our internal deployments. Discover real-world solutions and initiatives across network engineering and operations to see how Cisco uses its own technology to drive success.	Cisco ThousandEyes, Cisco Catalyst Center, Nexus, Cisco Secure Access, Cisco Cloud Control with AI Canvas, Cisco Catalyst SD-WAN

Cisco Showcase > Future-Proofed Workplaces

Agentic AI is reshaping how and where work happens. Is your workplace ready? Experience how Cisco uniquely unifies networking, security, observability, and collaboration to power future-proofed workplaces that deliver agile, resilient experiences for employees, customers, and IT teams.

LOCATION	DEMO NAME	DESCRIPTION	PRODUCTS AND SERVICES
FPW-01	Cisco Cafe: See agentic AI ordering in action	Discover the future of customer experience—one espresso at a time. At the Cisco Cafe, Webex AI Agent and Webex Customer Experience handle seamless text and voice ordering through rich media channels, autonomous AI, and workflow orchestration, while a working wiring closet shows how Unified Branch enables the network behind every interaction.	Webex AI Agent, Webex Connect
FPW-02	Say "hello" to your AI Concierge. Step inside to try the Webex AI Agent: Autonomous Scripted Voice Digital. Solutions for every industry: Healthcare Travel Finance	Step into a distraction-free environment and experience the true power of autonomous AI. Interact directly with Webex AI Agents across three popular industries, each showcasing real-world use cases that demonstrate how voice AI transforms customer experiences.	Webex AI Agent

FPW-03	Supercharge human agents with AI: Real-time AI assistant Cloud On-premises	Elevate every customer interaction with AI empowering your contact center teams. Cisco AI Assistant delivers real-time insights and suggestions to agents to better serve customers. Experience the AI Assistant for both cloud and on-premises contact centers.	Webex Contact Center, Cisco AI Assistant, On-prem Contact Center
FPW-05	Unleash CX intelligence: Supervisor desktop Reporting Topic analytics	Contact Center managers and supervisors need varying degrees of visibility and AI-powered assistance to best support their teams and customers. Through reporting and AI-powered Topic Analytics, you'll be able to understand how certain metrics and data provide a level of visibility into contact center operations to help supervisors on a daily basis make adjustments to improve team performance.	Webex Contact Center
FPW-07	Has Networking or Webex transformed your business? Share your experience with a review. Get rewarded.	Help your peers succeed by sharing your experience. Submit a product review detailing how you use Cisco networking or Webex in your environment, and receive a reward for providing valuable feedback to the practitioner community.	Webex Suite, Cisco Devices, Webex Calling, Webex Contact Center, Webex Connect
FPW-08	Power Cisco Café with unified branch: Unified branch Cisco AI Assistant Agentic workflows Cisco Validated Designs	AgenticOps is still a new concept for our customers. The goal would be to demonstrate how AgenticOps can help them in their day-to-day jobs	Cisco Secure Routers
FPW-09	Deploy branches in minutes: Unified branch Secure routers Meraki dashboard Agentic workflows	Slow site rollouts slowing your momentum? See how AgenticOps automates branch configuration and management—dramatically reducing deployment times while ensuring consistent policy enforcement across every location.	Cisco Secure Routers
FPW-10	Scalable devices for unified branch: Unified branch Secure routers Wireless Switches	Additional space to showcase the new Cisco Secure Routers - the foundation for Unified Branch and Secure Networking	Cisco Secure Routers
FPW-11	Security for branch and WAN: Secure routers SASE Post-quantum cryptography	How do you secure branch and WAN connectivity against emerging threats? This demo highlights how SASE, NGFW, and Post-Quantum Cryptography (PQC) protect critical data and operational integrity. Ensure communications between branch locations and headquarters remain safe from external threats.	Cisco Secure Routers, Cisco SD-WAN Manager
FPW-13	Scale agentic AI in campus: Cisco Silicon One	Agentic AI is rewriting the rules of network demand. See how Cisco Silicon One's programmable architecture delivers the hardware scale, congestion isolation, and identity-native visibility needed to handle AI-driven flow density and policy complexity—keeping your campus secure, optimized, and future-ready.	Cisco Silicon One

FPW-16	Experience Distance Zero meetings: Cisco Room Kit Pro G2 PTZ Camera Ceiling Mic Pro	Close the gap between remote and in-person attendees. Experience cinematic meetings with the new Room Kit Pro G2, Room Vision PTZ camera, and Ceiling Microphone Pro. Make collaboration more equitable and ensure everyone feels like they are in the room, no matter where they work.	Cisco Room Vision PTZ Camera, Cisco Room Kit Pro G2, Cisco Ceiling Microphone Pro, Cisco Table Microphone Pro, PoE Switch, Cisco Room Navigator for Table, Cisco Room Navigator for Wall
FPW-17	Take the stage in meetings: Cisco Desk Pro G2 Powered by NVIDIA	Meet the new Desk Pro G2. This all-in-one solution brings dual-lens cameras, vibrant video, and advanced audio to any huddle room or individual workspace—turning every meeting into a distraction-free, high-performing collaboration experience.	Cisco Desk Pro G2
FPW-18	Meet on any platform: Cisco Room Bar Pro Cisco Room Bar	Your meeting room, your choice. See how Cisco devices powered by NVIDIA let you join Microsoft Teams, Google Meet, or Zoom with one touch — or deliver a native Microsoft Teams Rooms experience certified under MDEP — all with industry-leading AI features like intelligent framing and noise removal.	Cisco Room Bar Pro, Cisco Room Bar, Cisco Room Navigator for Table, Cisco Room Navigator for Wall
FPW-19	Transform workplace experiences: Networking Collaboration Splunk	Step into a fully automated, data-driven smart space where Cisco's PoE, switching, collaboration tools, sensors, cameras, and third-party devices unite. See how Splunk analytics delivers actionable insights and trends, driving automation, efficiency, and intelligent decision-making across your building ecosystem.	
FPW-20	Power smart, efficient workplaces: End-to-end touch-safe power	The workplace of the future runs on smarter power. See how Cisco's Energy Networking Systems bring together Fault Managed Power and PoE across collaboration devices, switches, lighting, and sensors—optimizing energy use, delivering real-time occupancy insights, and creating sustainable, efficient workplaces.	Cisco Catalyst 9300 Switch; Panduit 380v AC Receiver; Panduit 48v Receiver; Panduit Transmitter, Thinlabs 55-inch Monitor
FPW-21	Secure campus architecture: Scalable network fabric	The rapid growth of edge devices and workloads creates a complex challenge for IT: maintaining performance while defending an expanding attack surface. Discover how Cisco's AI-ready campus architecture helps IT teams simplify operations, mitigate sophisticated security risks, and build a resilient foundation that evolves alongside your business.	Cisco IOS XE

FPW-22	Collaborate without limits: Webex Suite Agents AI ecosystem	Your meetings, messages, and workflows just got smarter. See how Webex Suite's new AI Agents—Prep, Notetaker, and Polling—keep collaboration proactive across a unified AI ecosystem spanning Copilot and Gemini, with seamless context and automation. Plus, get a first look at Collaboration AI PODs for teams that need secure, on-premises AI with full sovereign control.	Webex Suite
FPW-23	Collaborate without limits: On-prem AI	Elevate your workflow with the Webex Suite, featuring new AI Agents like Prep, Notetaker, and Polling for proactive collaboration. Experience a unified AI Ecosystem across Copilot and Gemini for seamless context and automation. Plus, get a first look at Collaboration AI PODs, bringing secure, on-premises AI innovation with full sovereign control.	Webex Suite
FPW-24	Desk productivity starts here: Cisco Wireless Phone 9821 Desk phones Headsets	Transform your workspace with the Desk Phone 9800 Series and the new Wireless Phone 9821, both powered by PhoneOS for seamless, flexible communication. Pair with Cisco's range of wired, wireless, and DECT headsets for superior audio and productivity, wherever you work.	Cisco Desk Phone 9871, Cisco Desk Phone 9861, Cisco Desk Phone 9851, Cisco Desk Phone 9841, Cisco Desk Phone 9821, Cisco Desk Phone 9811, Cisco Headset 860, Cisco Headset 840S, Cisco Headset 6823, Cisco Headset 6825, Cisco Headset 980, Cisco Headset 950, Cisco Headset 730, Cisco Headset 722, Cisco Headset 562, Cisco Headset 532, Cisco Headset 522, Cisco Headset 322, Cisco Headset 321Q, Cisco Headset 561, Cisco Headset 721Q, Desk Cam 4K, Desk Cam 1080p
FPW-25	Transform calling with AI: CUCM Hybrid Webex Calling	Bring intelligence to every conversation. Get hands-on with Cisco Calling across on-premises, cloud, and hybrid deployments—and experience how AI Receptionist, Translator Agent, and AI Assistant drive efficiency, productivity, and customer satisfaction.	Webex Calling, AI Assistant for Webex Calling, AI Receptionist for Webex Calling, Translator Agent for Webex Calling, Webex Calling Customer Assist
FPW-26	Routing Switching Wireless Rugged enterprise Cisco smart cameras Collaboration	Get hands-on with the networking hardware powering the AI era. Explore our next-generation routing, switching, wireless, and rugged enterprise portfolio. Paired with advanced cameras, sensors, and collaboration devices, this infrastructure delivers the high performance and embedded security required for modern branch, campus, and industrial environments.	CW9178 Wi-Fi APs (9178I), CW9171I, CW9174I, Campus Gateway (CW9800H1-MCG), CW9179 Wi-Fi APs (CW9179F), CW9178 Wi-Fi APs (CW9178I), CW9176 Wi-Fi APs (CW9176D1), CW9172 Wi-Fi APs (CW9172I), CW9172H Wi-Fi APs (CW9172H), CW9171 Wi-Fi APs (CW9171I), CW9174 Wi-Fi APs (CW9174I), CW9174 Wi-Fi APs (CW9174E), Campus Gateway (CW9800L-MCG)

FPW-28	AgenticOps: Simplify collaboration management: Cisco Cloud Control for collaboration	Less complexity. Faster resolution. See how Cisco Cloud Control unifies insights from Control Hub, ThousandEyes, and Meraki insights to accelerate troubleshooting across Webex and device management. AI Assistant answers questions and generates reports on demand—while AI Agent integrations meet administrators in the AI tools they already use.	Webex Suite, Cisco Devices, Webex Calling, Webex Contact Center, Webex Connect
FPW-29	AgenticOps: Agents at work: Agents Agentic Capabilities AI Assistant	End-to-end agentic investigations across campus, branch, and industrial networks triage connectivity and experience issues, cutting MTTR to minutes. Applies reasoning from telemetry to root cause, validating multiple hypotheses simultaneously and executing deterministic remediations with CCIE-grade precision.	Agentic Workflows, Cisco AI Assistant
FPW-30	Cisco AgenticOps for networking: Cisco Cloud Control Agents Agentic capabilities	AgenticOps is reshaping the NetOps experience—and this is where you see it all come together. Catch fast-paced demos every 15 minutes, from immersive "day in the life" scenarios to interactive experiences that show how AI, workflows, and domain intelligence connect as one system.	Cisco AI Assistant, Global Overview, Cisco Catalyst Center
FPW-31	AgenticOps: Maximize industrial outcomes: AI troubleshooting for industrial networks	Watch your OT team resolve network issues in real time using natural language. This demo shows how AI-powered troubleshooting translates complex data into familiar asset names, performs rapid root-cause analysis, and provides step-by-step remediation guidance, restoring operations quickly without requiring specialized networking expertise.	Cisco AI, Industrial Ethernet Switches
FPW-32	AgenticOps: Agents in action: Cisco AI Assistant for agentic workflows	Your network deserves better than reactive IT. Get a unified view of how Cisco simplifies operations across the workplace stack—from intelligent wireless to predictive control-plane insights, see how AI Assistant and agentic workflows reduce risk and deliver a more autonomous, efficient, and resilient workplace.	Cisco AI Assistant, Agentic Workflows
FPW-33	AgenticOps: Assess fabric readiness: Cisco AI Assistant for cloud-managed fabric	Just ask AI Assistant. See how AI Assistant and Agentic Workflows run a fabric readiness assessment in minutes—analyzing your switches, configurations, and firmware to deliver a clear readiness summary and recommended actions toward a modern, cloud-managed fabric architecture.	Cisco AI Assistant
FPW-34	AgenticOps: Unified platform experience: Cisco AI Assistant for Global Overview Meraki dashboard Cisco Catalyst Center	Your entire network. One view. Powered by AgenticOps. Get hands-on with Global Overview in the Meraki dashboard and Catalyst Center Global Manager—and watch AI Assistant surface real-time insights, accelerate troubleshooting, and automate manual tasks across every campus and	Cisco AI Assistant, Global Overview, Cisco Catalyst Center

		branch connection. All without downtime or security gaps	
FPW-35	Turn buildings into smart spaces: Cisco Spaces	Turn your building into an intelligent environment. See how the Smart Spaces Stack—powered by Cisco Wireless, Collaboration, and Spaces—uses AI-driven maps to deliver indoor navigation, asset tracking, occupancy insights, guest onboarding, and device management from a single platform.	Cisco Spaces
FPW-36	Stay ahead of wireless issues: Troubleshoot Validate Optimize	Discover how to leverage Cisco Wireless AgenticOps to troubleshoot, validate, and optimize your wireless network proactively. In this demo, you will learn how AgenticOps transforms wireless operations from manual, reactive tasks into intelligent, automated workflows that save time and improve user experience. Explore how to use AI-powered tools to quickly identify and resolve issues, validate network performance and continuously optimize seamless connectivity. To bring these concepts to life, this demo includes a real-world troubleshooting scenario, a channel interference challenge, and the steps taken to solve it saving your team valuable time.	Cisco AgenticOps Wireless
FPW-37	Drive industry impact: Cisco Industry Portfolio Explorer	Discover how Cisco solves your industry's toughest challenges. This interactive tool maps industry-specific use cases and architectures across education, healthcare, manufacturing, retail, and more—connecting your business problems directly to Cisco products, solutions, and partner engagements.	Cisco Industry Portfolio Explorer
FPW-38	Learn from Cisco customers: Healthcare Finance Education Retail Manufacturing Public Sector	See how organizations across industries drive transformation and achieve measurable outcomes with Cisco enterprise networking solutions. Review real-world customer success stories, then use the Industry Portfolio Explorer to find specific architectures and solutions designed for your operational requirements.	Cisco Industry Portfolio Explorer
FPW-39	Supercharge outdoor wireless: Outdoor Wi-Fi 7	Don't let walls limit your network. Cisco's CW9177 Series Wi-Fi 7 access points deliver reliable, enterprise-grade outdoor connectivity—from parking lots to EV charging stations. See how AI-driven management simplifies deployment and security beyond the building footprint.	Wireless Outdoor Access Points
FPW-40	Enforce zero trust for agents: Zero trust access Cisco Duo Cisco Secure Access	Explore how Agentic AI is reshaping enterprise security. Discover how Cisco powers visibility, identity, and access controls are purpose-built for agentic AI—enabling enterprises to safely deploy	Cisco Firewall, Cisco Duo, Cisco Secure Access

		autonomous systems built for zero trust security.	
FPW-41	Safeguard GenAI usage: Zero trust access Cisco Secure Access	AI introduces new risks—Cisco keeps them in check. Automated guardrails enforce safe access to GenAI apps, while AI Supply Chain Risk Management secures your AI application development. And as AI agents enter your network, Secure Access monitors agentic communications and then controls the approved traffic flows.	Cisco Secure Access
FPW-42	Segment with identity context: Cisco Identity Services Engine	Segment your network based on identity, not just location. See how ISE and TrustSec enforce identity-based segmentation by tying network access to who or what the user or device is. Enforce these policies dynamically across other Cisco solutions in the campus and data center.	Cisco ISE, Cisco Secure Firewall, Cisco Secure Router, SASE, Cisco Secure Access
FPW-43	Simplify SASE with AgenticOps: Zero trust access Cisco SASE Cisco Cloud Control	Simplify management, deployment, and procurement. Cisco SASE delivers unified management of SSE and SD-WAN—packaged into a single SASE SKU and site license model. Learn about new Meraki and Secure Access integrations with AutoVPN—delivering seamless, secure connectivity without the complexity.	Cisco Secure Access, Cisco SD-WAN
FPW-44	Enforce zero trust for the branch: Meraki dashboard Cisco Access Manager Cisco Secure Access	Bring advanced security to your Meraki dashboard. Learn how new capabilities are integrated into the Meraki experience to deliver cloud-based security, from a full SSE suite to NAC, and threat detection and response. These advanced security integrations fold into the dashboard experience while maintaining Meraki simplicity and delivering high levels of protection.	Cisco Access Manager, Cisco Secure Access, Cisco XDR
FPW-45	Close the identity trust gap: Zero trust access Cisco Duo Cisco Identity Intelligence	Identity is the new perimeter and the cause of most breaches—are you protecting it? Learn how Cisco's security-first IAM solution fortifies against identity-based attacks with end-to-end phishing resistance. See how Cisco Identity Intelligence risk insights enrich your security portfolio to deliver continuous identity visibility and dynamic access policies.	Cisco Duo, Cisco Identity Intelligence, Cisco Secure Access
FPW-46	Protect people and assets: Physical security Video analytics	See what's happening across your branches in real time. Modernize physical security and remote branch monitoring with AI-powered, cloud-managed smart cameras for data-driven insights. Get a peek inside a retail branch and see how pairing these devices	Cisco Smart Cameras

		with a cloud-managed network protects people, spaces, and critical infrastructure.	
FPW-47	Extend your network further, faster: Cisco Wireless with URWB	Need more reliability than standard Wi-Fi? Ultra-Reliable Wireless Backhaul delivers near-zero latency and continuous roaming for your most demanding applications. Cisco Wireless with URWB lets you run both technologies simultaneously from a single access point, simplifying operations with unified management.	IW9165E, IW9167, CW9176I, Wireless Controller
FPW-48	Cisco Cyber Vision Security fused into the network: Visibility, segmentation, and secure remote access	<p>Industrial networks power critical infrastructure—and attackers know it. Cisco Cyber Vision is a comprehensive OT security solution fused into the industrial network. Purpose-built for OT, it delivers visibility, segmentation, and secure remote access in a single solution. Secure your industrial operations at the lowest TCO in the industry.</p> <p>You can't protect what you can't see. Most organizations lack full visibility into their OT environments — leaving critical assets exposed. Cisco Cyber Vision discovers and classifies every connected device, protocol, and communication flow in real time. No SPAN networks. No blind spots.</p> <p>The evolving threat landscape is driving the urgency for zone segmentation below the DMZ. Cyber Vision addresses this need with automated policy recommendations and stress-free segmentation simulation. Stop the threat of lateral movement – segment your OT network without risking uptime.</p> <p>Third parties, contractors, and remote teams need access to your OT environment — but unchecked access is a top attack vector. Cisco Cyber Vision enforces zero trust remote access purpose-built for industrial operations. Authenticate, authorize, and audit every session. Know exactly who's in your network and what they're doing.</p>	Cisco Cyber Vision, Secure Equipment Access, Splunk, OT Security
FPW-49	See and secure every OT Asset: Cisco Cyber Vision: OT visibility and secure remote access	Eliminate blind spots in your industrial networks. Cisco OT Defense delivers visibility tailored for OT and secure, least-privilege remote access to assets. See how Splunk acts as a unified SIEM platform, consolidating IT and OT data for real-time threat monitoring, analytics, and automated response.	Cisco Cyber Vision, IE3400, Secure Equipment Access, Splunk

FPW-50	Power AI-ready manufacturing: Virtualization Machine vision Security	Don't just imagine the factory of the future—experience it. See how a high-performance, resilient, AI-ready industrial network delivers virtualized operations and machine vision-powered quality control on a fully functional factory floor, right here in the World of Solutions.	IE-3500-8U3X, IE-3500-8T3S, Cisco Cyber Vision, Splunk, Secure Equipment Access
FPW-51	Reduce the blast radius against OT attacks: Cisco Cyber Vision: OT network segmentation	Stop lateral threats in your OT environment. Cisco OT Defense provides network visibility to inform your segmentation strategy. It suggests policies based on communication patterns, allows for manual creation, and simulates the impact of those policies on an active network before deployment.	Cisco Cyber Vision, IE3400, Secure Equipment Access, Splunk
FPW-52	Industrial product portfolio	Experience industry-leading solutions to simplify and scale IT for industrial networks. Rely on tougher, smarter IT solutions that bring IT and OT together, enhance efficiencies, and pave the way for AI-ready industrial operations.	IE3100, IE3100H, IE3105, IE3500, IE3505, IE3500H, IE9300, IR1001-G2, IR1101, IR8340, IR1835, IR8140, P-5GS6-R16SA-GL, P-LTEA7-EAL, P-LTE-450, P-LTE-GB, IW9165D, IW9165E, IW9167E, IW9167I, IW9167E-HZ
FPW-53	Build resilient power grids: Distribution automation Renewables	A grid failure isn't just an outage—it's a crisis. See how Cisco delivers secure, reliable connectivity across substations, distribution, and renewables—enabling real-time remote monitoring, resilient operations, and cybersecurity, while optimizing performance and supporting smart grid transformation for modern energy infrastructure.	IR1101, IR8340, IE9300, P-5GS6-R16SA-GL, P-LTEA7-EAL, P-LTE-450, P-LTE-GB, Field Network Director, SD-WAN
FPW-54	Build resilient power grids: Substation automation OT WAN	A grid failure isn't just an outage—it's a crisis. See how Cisco delivers secure, reliable connectivity across substations, distribution, and renewables—enabling real-time remote monitoring, resilient operations, and cybersecurity, while optimizing performance and supporting smart grid transformation for modern energy infrastructure.	IR1101, IR8340, IE9300, P-5GS6-R16SA-GL, P-LTEA7-EAL, P-LTE-450, P-LTE-GB, Field Network Director, SD-WAN
FPW-55	Power smart transportation: Roadways Intersections Rail	Roads, intersections, and rail lines can't afford downtime. See how Cisco powers secure, reliable connectivity across transportation infrastructure—enabling smart systems, seamless communication, real-time data sharing, and enhanced safety and protection where it matters most.	SD-WAN, IR1101, Cisco Catalyst Center, IE3500, Meraki Camera MV93X
FPW-56	Extend your IT networks anywhere: Rugged switches Cameras APs Meraki dashboard	Bring enterprise-grade networking to the harshest environments. Cisco Rugged IE Switches on the Meraki dashboard deliver effortless management. Use the intuitive cloud platform to control PoE devices in extreme conditions—whether cold, hot, or humid—ensuring a resilient, high-performance network that stands up to any environment.	IE3500, MV84X, MV73X, MV93X

FPW-57	Services for future-proofed workplaces: Proactive resilience and rapid resolution with Cisco IQ	Discuss with experts how to supercharge your IT operations with Cisco IQ. By embedding decades of Cisco TAC expertise into an always-available AI assistant, we accelerate root-cause analysis and remediation. Benefit from proactive support, unified case tracking, and topology-aware troubleshooting. Achieve proactive resilience and rapid resolution for a truly future-proofed workplace.	Cisco IQ for Landscape Clarity (Intelligent Asset Management + Quantum-Safe Infrastructure Network Assessments)
FPW-58	Services for future-proofed workplaces: Complete landscape clarity with Cisco IQ	Experience how to achieve complete landscape clarity with Cisco IQ. Stop managing noise and start driving the future. AI-powered dashboards provide personalized analytics and security assessments to proactively identify and remediate blind spots. Future-proof your workplace with intelligent asset insights and quantum-safe readiness assessments for total peace of mind.	Cisco IQ for Landscape Clarity (Intelligent Asset Management + Quantum-Safe Infrastructure Network Assessments)

Cisco Showcase > Lightning Theaters

Join Cisco experts for 15-minute sessions that dive deeper into product features and announcements connected to the Cisco Showcase demos.

Cisco Showcase > Network Operations Center

Come visit the heartbeat of Cisco Live—the Network Operations Center. Check out our network dashboards, powered by Splunk, and talk to the experts about what it takes to deploy, manage, and secure the Cisco Live network. Be sure to take a selfie in front of the live network infrastructure that connects and secures the entire event.

PRODUCTS AND SERVICES

Cisco Catalyst 9800-40 Wireless Controller, Cisco Catalyst 9800-80 Wireless Controller, Cisco Catalyst 9500X-60L4D, Cisco Secure Firewall Management Center, Cisco Secure Firewall 4245, Cisco Catalyst 9606R Switch, Cisco Catalyst C8500-20X6C, Cisco Nexus 9504, Cisco UCS 6536 Fabric Interconnect, Cisco UCS X-Series, Cisco Nexus 9336C-FX2, Cisco Nexus 93180YC-FX, Cisco Catalyst Center, Cisco Nexus Dashboard Data Broker, Cisco Secure Firewall 3110 Series, Cisco UCS C220 M5, Cisco Nexus 9372PX, Cisco Wireless Access Points, Cisco FlexPod AI

Cisco Showcase > Secure Global Connectivity

AI is reshaping the world—and connectivity is the catalyst. For network providers, enterprises, and the public sector, secure and high-performance connectivity isn't just infrastructure—it's the foundation for unlocking AI's full potential. Cisco's architecture maximizes digital resilience, accelerates revenue growth, and powers operational, excellence for your most critical missions.

LOCATION	DEMO NAME	DESCRIPTION	PRODUCTS AND SERVICES
SGC-01	Resilient infrastructure AgenticOps Monetizable services	Experience the future of secure global connectivity. Discover how resilient infrastructure, AgenticOps, and monetizable services create a unified, autonomous network. Join us to see Cisco's vision and transform your infrastructure into a powerful catalyst for growth. Your blueprint for a smarter, more profitable network starts here.	Cisco Agile Services Networking, Cisco Silicon One A100, Cisco Silicon One K100, Cisco Silicon One E100, Cisco Silicon One P200, Cisco Silicon One G200

SGC-02	<p>Deploy Cisco Agile Services Networking Embrace Cisco Routed Optical Networking Power networks with Cisco Silicon One Unleash disaggregated AI infrastructure</p>	<p>Discover how Cisco’s innovations in silicon, optics, routing, assurance, and AI redefine network economics. Our simplified architecture empowers flexible service deployment, ensures resilient experiences, and drives monetization. See how we’re transforming infrastructure to help you scale, secure, and succeed in a digital-first world.</p>	<p>Assurance Module, ENC-10G-ONT-10, ENC-10G-ONT-14A, ENC-10G-ONT-01PR, Cisco 8011-4G24Y4H-I, Cisco 8011-32Y8L2H2FH, NCS 540, Pluggable OLT (EML), Pluggable OLT (DML), Assurance SFP, Cisco 8711-32FH-M, Cisco 8711-48Z-M, Cisco 8712-MOD-M, Cisco 8404, Cisco 88-LC1-12TH24FH-E, Cisco 88-LC1-52Y8H-EM, Cisco 88-LC1-48Y8H-EM, 8711-28H8F-EM, Cisco N540-8Z12G-SYS, Cisco 6100, 88-LC1-16H16F-EM, NCS 57C3, NCS 1014, CIM8 – pluggable optic, Cisco 8212-48FH-M, Cisco NCS 1010, 2.4T Line Card for NCS 1014, Cisco ONS QDD OLS and ONS-BRK-CS-8LC, Cisco 8608, ASR 9903, Cisco 8201-32FH, Cisco Bright 100G ZR QSFP28, Cisco QSFP-DD 400G ZR+ High Tx Power, Cisco QSFP-DD 400G ZR/ZR+, Cisco QSFP-DD 400G ULH, Cisco QSFP-DD 800G ZR/ZR+, Cisco OSFP 800G ZR/ZR+, Cisco 12.8T Line Card for NCS 1014, Cisco QSFP-DD PSM, Cisco NCS EDFA Line Card, Cisco ONS QSFP OTDR pluggable, Cisco 3.2T Line Card for NCS 1014, Cisco Silicon One A100, Cisco Silicon One K100, Cisco Silicon One E100, Cisco Silicon One P200, Cisco Silicon One G200, Cisco 8122x-64EF-O, Cisco 8223-64E-M, Cisco 88-LC2-36EF-M, QSFP-DD 800G ZR/ZR+, OSFP 800G ZR/ZR+, QSFP-DD 2x400G FR4, QSFP-DD 8x100G FR, OSFP 800G DR8, OSFP 2x400G FR4, OSFP 800G LPO, Cisco 8122-64EH-O - Fixed Box (new), Cisco 88-LC1-36EH - Line Card, Cisco Silicon One P200 – New, Cisco Silicon One G200 – New, Cisco OSFP 1.6T DR8, Cisco OSFPR 2x400G LR4, 8001-48T4Y-O, 8101-32FH, 8102-64H-O, 8102-28FH-DPU-O, Cisco 8223-64E-M</p>

SGC-03	Simplify network operations: Services for Cisco Agile Services Networking	Accelerate your AI-era digital transformation with Cisco Professional Services. We optimize performance, enhance agility, and streamline lifecycle management. Leverage our expert guidance and tools to reduce risk and drive innovation. Discover how migrating to 8000 Series Routers delivers faster, impactful business outcomes.	Cisco 8000 Series Routers, Cisco IOS XR
SGC-04	Deliver unified access anywhere: Cisco Routed PON Non-Terrestrial Networks (Satellite)	See how converged access takes connectivity further. By integrating Cisco Routed PON with Cisco's satellite networking, providers can deliver seamless, secure, AI-ready experiences—no matter where operations take them.	Routed PON, Non-Terrestrial (Satellite) Networking, NCS 540/5500, XGS PON Pluggable, Cisco ONT, Cisco Provider Connectivity Assurance
SGC-05	Resolve issues before impact: Cisco Crosswork Network Automation and Assurance	Stop reacting and start resolving. See how Cisco Crosswork uses AI agents to fix network issues faster—leveraging real-time visibility and autonomous troubleshooting to resolve performance problems before they ever impact your services.	Cisco Crosswork Network Automation (Crosswork AI), Cisco Crosswork Assurance
SGC-06	Scale AI networks seamlessly: Cisco Routed Optical Networking and SRv6	Experience how Cisco Routed Optical Networking and SRv6 scale AI connectivity. Converge IP and optical infrastructure to transform network economics, simplify operations, and ensure robust, policy-driven performance across data center, campus, and metro environments. Learn to streamline AI traffic management from local fabrics to ultra-long-haul networks.	Cisco Routed Optical Networking, Cisco 100G, 400G, and 800G ZR/ZR+ Coherent Pluggable Optics, SRv6, Cisco Crosswork Network Automation, Cisco Hierarchical Controller, Cisco NCS 1010, Cisco NCS 1014, Cisco 2000
SGC-07	Unlock growth, launch faster: Cisco Mobility Services Platform	5G, IoT, and enterprise services represent a massive revenue opportunity—if you can move fast enough. See how Cisco Mobility Services Platform helps CSPs and enterprises accelerate service launch, simplify operations, and unlock new monetization models with a cloud-native, scalable architecture that protects existing investments.	Cisco Mobility Services Platform
SGC-08	Protect critical infrastructure: Cisco Service Provider Security	See how Cisco Agile Services Networking delivers end-to-end security for AI-driven infrastructure. Autonomous security features protect critical assets from silicon to service—giving service providers the confidence to innovate and unlock new revenue opportunities.	Cisco TAm Chip, Cisco DDoS Edge Protection, Cisco SKIP/SKS (for QKD), Cisco 6100 Firewall, Cisco Secure Gateway, Cisco AI Defense, Splunk

Cisco Showcase > Security Operations Center (SOC)

Get an exclusive, behind-the-scenes look at how Cisco detects and responds to active threats in real-time conference traffic, in collaboration with the Network Operations Center (NOC) and Endace in the Security Operations Center. Take a tour of the SOC of the Future, powered by Cisco Security Cloud and Splunk Enterprise Security. Sign up for daily tours.

PRODUCTS AND SERVICES

Splunk Platform, Splunk Enterprise Security, Cisco Secure Firewall Management Center, Cisco Firepower 9300 Series, Cisco XDR, Cisco Secure Network Analytics, Cisco Secure Malware Analytics, Cisco Secure Access, Cisco Duo, Cisco AI Defense, Cisco UCS M8, Cisco Secure Client

Alphabetical Index of Products and Solutions

PRODUCT/SOLUTIONS	AREA NAME	DEMO #	DEMO NAME
#			
1.6T optics	AI-Ready Data Centers	AIDC-02	Internet infrastructure: Powering AI networks and services at scale
1.6T optics	AI-Ready Data Centers	AIDC-08	Maximize data center reliability: Cisco pluggable optics
102.4T Switch	AI-Ready Data Centers	AIDC-18	Achieve energy savings: Direct liquid-cooled switch
2.4T Line Card for NCS 1014	Secure Global Connectivity	SGC-02	Deploy Cisco Agile Services Networking Embrace Cisco Routed Optical Networking Power networks with Cisco Silicon One Unleash disaggregated AI infrastructure
5 1.2T Switch	AI-Ready Data Centers	AIDC-18	Achieve energy savings: Direct liquid-cooled switch
8001-48T4Y-O	Secure Global Connectivity	SGC-02	Deploy Cisco Agile Services Networking Embrace Cisco Routed Optical Networking Power networks with Cisco Silicon One Unleash disaggregated AI infrastructure
800G	AI-Ready Data Centers	AIDC-02	Internet infrastructure: Powering AI networks and services at scale
8101-32FH	Secure Global Connectivity	SGC-02	Deploy Cisco Agile Services Networking Embrace Cisco Routed Optical Networking Power networks with Cisco Silicon One Unleash disaggregated AI infrastructure
8102-28FH-DPU-O	Secure Global Connectivity	SGC-02	Deploy Cisco Agile Services Networking Embrace Cisco Routed Optical Networking Power networks with Cisco Silicon One Unleash disaggregated AI infrastructure
8102-64H-O	Secure Global Connectivity	SGC-02	Deploy Cisco Agile Services Networking Embrace Cisco Routed Optical Networking Power networks with Cisco Silicon One Unleash disaggregated AI infrastructure
8711-28H8F-EM	Secure Global Connectivity	SGC-02	Deploy Cisco Agile Services Networking Embrace Cisco Routed Optical Networking Power networks with Cisco Silicon One Unleash disaggregated AI infrastructure
88-LC1-16H16F-EM	Secure Global Connectivity	SGC-02	Deploy Cisco Agile Services Networking Embrace Cisco Routed Optical Networking Power networks with Cisco Silicon One Unleash disaggregated AI infrastructure
A			
Agentic Workflows	Future-Proofed Workplaces	FPW-29	AgenticOps: Agents at work: Agents Agentic Capabilities AI Assistant
	Future-Proofed Workplaces	FPW-32	AgenticOps: Agents in action: Cisco AI Assistant for agentic workflows
AI Advisory	Cisco Customer Experience	CX-04	Onboard agentic AI at scale: Align Secure Accelerate

AI Agents	Digital Resilience	DR-22	Cisco Operations: AI-powered and secure: Automate for an intelligent lifecycle
AI Assistant for Webex Calling	Future-Proofed Workplaces	FPW-25	Transform calling with AI: CUCM Hybrid Webex Calling
AI Receptionist for Webex Calling	Future-Proofed Workplaces	FPW-25	Transform calling with AI: CUCM Hybrid Webex Calling
ASR 9903	Secure Global Connectivity	SGC-02	Deploy Cisco Agile Services Networking Embrace Cisco Routed Optical Networking Power networks with Cisco Silicon One Unleash disaggregated AI infrastructure
Asset and Risk Intelligence (ARI)	Digital Resilience	DR-08	Visualize your data with Splunk
Assurance Module	Secure Global Connectivity	SGC-02	Deploy Cisco Agile Services Networking Embrace Cisco Routed Optical Networking Power networks with Cisco Silicon One Unleash disaggregated AI infrastructure
Assurance SFP	Secure Global Connectivity	SGC-02	Deploy Cisco Agile Services Networking Embrace Cisco Routed Optical Networking Power networks with Cisco Silicon One Unleash disaggregated AI infrastructure
AWS Security	Digital Resilience	DR-14	Power AWS Security: Splunk Enterprise Security for AWS Security Hub Extended
C			
Campus Gateway (CW9800H1-MCG)	Future-Proofed Workplaces	FPW-26	Routing Switching Wireless Rugged enterprise Cisco smart cameras Collaboration
Campus Gateway (CW9800L-MCG)	Future-Proofed Workplaces	FPW-26	Routing Switching Wireless Rugged enterprise Cisco smart cameras Collaboration
CIM8 – pluggable optic	Secure Global Connectivity	SGC-02	Deploy Cisco Agile Services Networking Embrace Cisco Routed Optical Networking Power networks with Cisco Silicon One Unleash disaggregated AI infrastructure
Cisco 12.8T Line Card for NCS 1014	Secure Global Connectivity	SGC-02	Deploy Cisco Agile Services Networking Embrace Cisco Routed Optical Networking Power networks with Cisco Silicon One Unleash disaggregated AI infrastructure
Cisco 2000	Secure Global Connectivity	SGC-06	Scale AI networks seamlessly: Cisco Routed Optical Networking and SRv6
Cisco 3.2T Line Card for NCS 1014	Secure Global Connectivity	SGC-02	Deploy Cisco Agile Services Networking Embrace Cisco Routed Optical Networking Power networks with Cisco Silicon One Unleash disaggregated AI infrastructure
Cisco 400G	AI-Ready Data Centers	AIDC-02	Internet infrastructure: Powering AI networks and services at scale
	AI-Ready Data Centers	AIDC-08	Maximize data center reliability: Cisco pluggable optics

Cisco 6100 Firewall	Secure Global Connectivity	SGC-02	Deploy Cisco Agile Services Networking Embrace Cisco Routed Optical Networking Power networks with Cisco Silicon One Unleash disaggregated AI infrastructure
	Secure Global Connectivity	SGC-08	Protect critical infrastructure: Cisco Service Provider Security
Cisco 8000 Series Routers	Secure Global Connectivity	SGC-03	Simplify network operations: Services for Cisco Agile Services Networking
Cisco 800G	AI-Ready Data Centers	AIDC-08	Maximize data center reliability: Cisco pluggable optics
Cisco 800G ZR/ZR+ Coherent Pluggable Optics	Secure Global Connectivity	SGC-06	Scale AI networks seamlessly: Cisco Routed Optical Networking and SRv6
Cisco 8011-32Y8L2H2FH	Secure Global Connectivity	SGC-02	Deploy Cisco Agile Services Networking Embrace Cisco Routed Optical Networking Power networks with Cisco Silicon One Unleash disaggregated AI infrastructure
Cisco 8011-4G24Y4H-I	Secure Global Connectivity	SGC-02	Deploy Cisco Agile Services Networking Embrace Cisco Routed Optical Networking Power networks with Cisco Silicon One Unleash disaggregated AI infrastructure
Cisco 8122-64EH-O - Fixed Box (new)	Secure Global Connectivity	SGC-02	Deploy Cisco Agile Services Networking Embrace Cisco Routed Optical Networking Power networks with Cisco Silicon One Unleash disaggregated AI infrastructure
Cisco 8122x-64EF-O	Secure Global Connectivity	SGC-02	Deploy Cisco Agile Services Networking Embrace Cisco Routed Optical Networking Power networks with Cisco Silicon One Unleash disaggregated AI infrastructure
Cisco 8201-32FH	Secure Global Connectivity	SGC-02	Deploy Cisco Agile Services Networking Embrace Cisco Routed Optical Networking Power networks with Cisco Silicon One Unleash disaggregated AI infrastructure
Cisco 8212-48FH-M	Secure Global Connectivity	SGC-02	Deploy Cisco Agile Services Networking Embrace Cisco Routed Optical Networking Power networks with Cisco Silicon One Unleash disaggregated AI infrastructure
Cisco 8223-64E-M	Secure Global Connectivity	SGC-02	Deploy Cisco Agile Services Networking Embrace Cisco Routed Optical Networking Power networks with Cisco Silicon One Unleash disaggregated AI infrastructure
	Secure Global Connectivity	SGC-02	Deploy Cisco Agile Services Networking Embrace Cisco Routed Optical Networking Power networks with Cisco Silicon One Unleash disaggregated AI infrastructure
Cisco 8404	Secure Global Connectivity	SGC-02	Deploy Cisco Agile Services Networking Embrace Cisco Routed Optical Networking Power networks with Cisco Silicon One Unleash disaggregated AI infrastructure

Cisco 8608	Secure Global Connectivity	SGC-02	Deploy Cisco Agile Services Networking Embrace Cisco Routed Optical Networking Power networks with Cisco Silicon One Unleash disaggregated AI infrastructure
Cisco 8711-32FH-M	Secure Global Connectivity	SGC-02	Deploy Cisco Agile Services Networking Embrace Cisco Routed Optical Networking Power networks with Cisco Silicon One Unleash disaggregated AI infrastructure
Cisco 8711-48Z-M	Secure Global Connectivity	SGC-02	Deploy Cisco Agile Services Networking Embrace Cisco Routed Optical Networking Power networks with Cisco Silicon One Unleash disaggregated AI infrastructure
Cisco 8712-MOD-M	Secure Global Connectivity	SGC-02	Deploy Cisco Agile Services Networking Embrace Cisco Routed Optical Networking Power networks with Cisco Silicon One Unleash disaggregated AI infrastructure
Cisco 88-LC1-12TH24FH-E	Secure Global Connectivity	SGC-02	Deploy Cisco Agile Services Networking Embrace Cisco Routed Optical Networking Power networks with Cisco Silicon One Unleash disaggregated AI infrastructure
Cisco 88-LC1-36EH - Line Card	Secure Global Connectivity	SGC-02	Deploy Cisco Agile Services Networking Embrace Cisco Routed Optical Networking Power networks with Cisco Silicon One Unleash disaggregated AI infrastructure
Cisco 88-LC1-48Y8H-EM	Secure Global Connectivity	SGC-02	Deploy Cisco Agile Services Networking Embrace Cisco Routed Optical Networking Power networks with Cisco Silicon One Unleash disaggregated AI infrastructure
Cisco 88-LC1-52Y8H-EM	Secure Global Connectivity	SGC-02	Deploy Cisco Agile Services Networking Embrace Cisco Routed Optical Networking Power networks with Cisco Silicon One Unleash disaggregated AI infrastructure
Cisco 88-LC2-36EF-M	Secure Global Connectivity	SGC-02	Deploy Cisco Agile Services Networking Embrace Cisco Routed Optical Networking Power networks with Cisco Silicon One Unleash disaggregated AI infrastructure
Cisco Access Manager	Future-Proofed Workplaces	FPW-44	Enforce zero trust for the branch: Meraki dashboard Cisco Access Manager Cisco Secure Access
Cisco AgenticOps Wireless	Future-Proofed Workplaces	FPW-36	Stay ahead of wireless issues: Troubleshoot Validate Optimize
Cisco Agile Services Networking	Secure Global Connectivity	SGC-01	Resilient infrastructure AgenticOps Monetizable services
Cisco AI	Future-Proofed Workplaces	FPW-31	AgenticOps: Maximize industrial outcomes: AI troubleshooting for industrial networks
Cisco AI Assistant	Future-Proofed Workplaces	FPW-03	Supercharge human agents with AI: Real-time AI assistant Cloud On-premises
	Future-Proofed Workplaces	FPW-29	AgenticOps: Agents at work: Agents Agentic Capabilities AI Assistant

	Future-Proofed Workplaces	FPW-30	Cisco AgenticOps for networking: Cisco Cloud Control Agents Agentic capabilities
	Future-Proofed Workplaces	FPW-32	AgenticOps: Agents in action: Cisco AI Assistant for agentic workflows
	Future-Proofed Workplaces	FPW-33	AgenticOps: Assess fabric readiness: Cisco AI Assistant for cloud-managed fabric
	Future-Proofed Workplaces	FPW-34	AgenticOps: Unified platform experience: Cisco AI Assistant for Global Overview Meraki dashboard Cisco Catalyst Center
Cisco AI Defense	AI-Ready Data Centers	AIDC-20	Services for AI-ready data centers: Accelerate time to first intelligence
	AI-Ready Data Centers	AIDC-21	Services for AI-ready data centers: Master cost to true scale
	AI-Ready Data Centers	AIDC-33	Secure AI agents: Hybrid Mesh Firewall Cisco AI Defense
	Digital Resilience	DR-21	Cisco Operations: AI-powered and secure: Innovation without compromise
	Secure Global Connectivity	SGC-08	Protect critical infrastructure: Cisco Service Provider Security
	Security Operations Center (SOC)	SOC	Security Operations Center (SOC)
Cisco AI PODs	AI-Ready Data Centers	AIDC-14	Automate workflows with agents: Cisco AI PODs Cisco AI Defense Cisco Unified Edge
Cisco Assurance MCP Server	Digital Resilience	DR-02	Power network assurance with AI: Cisco AI Assistant Cisco Assurance MCP Server
Cisco Bright 100G ZR QSFP28	Secure Global Connectivity	SGC-02	Deploy Cisco Agile Services Networking Embrace Cisco Routed Optical Networking Power networks with Cisco Silicon One Unleash disaggregated AI infrastructure
Cisco Catalyst 9300 Switch	Future-Proofed Workplaces	FPW-20	Power smart, efficient workplaces: End-to-end touch-safe power
Cisco Catalyst 9500X-60L4D	Network Operations Center (NOC)	NOC	Network Operations Center (NOC)
Cisco Catalyst 9606R Switch	Network Operations Center (NOC)	NOC	Network Operations Center (NOC)
Cisco Catalyst 9800-40 Wireless Controller	Network Operations Center (NOC)	NOC	Network Operations Center (NOC)
Cisco Catalyst 9800-80 Wireless Controller	Network Operations Center (NOC)	NOC	Network Operations Center (NOC)
Cisco Catalyst C8500-20X6C	Network Operations Center (NOC)	NOC	Network Operations Center (NOC)
Cisco Catalyst Center	Digital Resilience	DR-15	Unify observability and networking: Splunk Observability and Cisco Networking
	Digital Resilience	DR-23	Cisco Operations: AI-powered and secure: Cisco on Cisco Real-world solutions
	Future-Proofed Workplaces	FPW-30	Cisco AgenticOps for networking: Cisco Cloud Control Agents Agentic capabilities

	Future-Proofed Workplaces	FPW-34	AgenticOps: Unified platform experience: Cisco AI Assistant for Global Overview Meraki dashboard Cisco Catalyst Center
	Future-Proofed Workplaces	FPW-55	Power smart transportation: Roadways Intersections Rail
	Network Operations Center (NOC)	NOC	Network Operations Center (NOC)
Cisco Catalyst SD-WAN	Digital Resilience	DR-23	Cisco Operations: AI-powered and secure: Cisco on Cisco Real-world solutions
Cisco Ceiling Microphone Pro	Future-Proofed Workplaces	FPW-16	Experience Distance Zero meetings: Cisco Room Kit Pro G2 PTZ Camera Ceiling Mic Pro
Cisco Cloud Control	AI-Ready Data Centers	AIDC-01	Powering real-world AI use cases: Healthcare Retail Manufacturing
	AI-Ready Data Centers	AIDC-04	Full-stack AI infrastructure: Engineered as one system with partners
	AI-Ready Data Centers	AIDC-03	AgenticOps: Aligning speed with precision
	AI-Ready Data Centers	AIDC-07	Cisco Security: Distributed security, fused into every layer
	AI-Ready Data Centers	AIDC-24	Troubleshoot with agentic AI: Cisco Cloud Control Cisco Nexus One Native Splunk
	AI-Ready Data Centers	AIDC-29	Simplify workflows with AgenticOps: Hybrid Mesh Firewall Cisco Cloud Control
	AI-Ready Data Centers	AIDC-34	Accelerate SecOps with network data: Hybrid Mesh Firewall Splunk Cisco Cloud Control
	Cisco Platform Advantage	CPA-01	Run your agentic enterprise with Cisco Cloud Control
	Cisco Platform Advantage	CPA-02	Get started with Cisco Cloud Control
Cisco Cloud Control with AI Canvas	AI-Ready Data Centers	AIDC-03	AgenticOps: Aligning speed with precision
	Digital Resilience	DR-23	Cisco Operations: AI-powered and secure: Cisco on Cisco Real-world solutions
Cisco Compute Hyperconverged with Nutanix	AI-Ready Data Centers	AIDC-15	Simplify workload migration: Cisco Compute Hyperconverged with Nutanix
Cisco Crosswork Assurance	Secure Global Connectivity	SGC-05	Resolve issues before impact: Cisco Crosswork Network Automation and Assurance
Cisco Crosswork Network Automation	Secure Global Connectivity	SGC-06	Scale AI networks seamlessly: Cisco Routed Optical Networking and SRv6
Cisco Crosswork Network Automation (Crosswork AI)	Secure Global Connectivity	SGC-05	Resolve issues before impact: Cisco Crosswork Network Automation and Assurance
Cisco Cyber Vision	Future-Proofed Workplaces	FPW-48	Cisco Cyber Vision Security fused into the network: Visibility, segmentation, and secure remote access
	Future-Proofed Workplaces	FPW-50	Power AI-ready manufacturing: Virtualization Machine vision Security

	Future-Proofed Workplaces	FPW-51	Reduce the blast radius against OT attacks: Cisco Cyber Vision: OT network segmentation
	Future-Proofed Workplaces	FPW-49	See and secure every OT asset: Cisco Cyber Vision: OT visibility and secure remote access
Cisco Data Fabric	Digital Resilience	DR-01	Digital Resilience Pulse Wall
	Digital Resilience	DR-11	Accelerate the agentic enterprise: Cisco Data Fabric powered by Splunk
	Digital Resilience	DR-12	Unify data and insights at scale: Cisco Data Fabric powered by Splunk
Cisco DDoS Edge Protection	Secure Global Connectivity	SGC-08	Protect critical infrastructure: Cisco Service Provider Security
Cisco Desk Phone 9811	Future-Proofed Workplaces	FPW-24	Desk productivity starts here: Cisco Wireless Phone 9821 Desk phones Headsets
Cisco Desk Phone 9821	Future-Proofed Workplaces	FPW-24	Desk productivity starts here: Cisco Wireless Phone 9821 Desk phones Headsets
Cisco Desk Phone 9841	Future-Proofed Workplaces	FPW-24	Desk productivity starts here: Cisco Wireless Phone 9821 Desk phones Headsets
Cisco Desk Phone 9851	Future-Proofed Workplaces	FPW-24	Desk productivity starts here: Cisco Wireless Phone 9821 Desk phones Headsets
Cisco Desk Phone 9861	Future-Proofed Workplaces	FPW-24	Desk productivity starts here: Cisco Wireless Phone 9821 Desk phones Headsets
Cisco Desk Phone 9871	Future-Proofed Workplaces	FPW-24	Desk productivity starts here: Cisco Wireless Phone 9821 Desk phones Headsets
Cisco Desk Pro G2	Future-Proofed Workplaces	FPW-17	Take the stage in meetings: Cisco Desk Pro G2 Powered by NVIDIA
Cisco Devices	Future-Proofed Workplaces	FPW-07	Has Networking or Webex transformed your business? Share your experience with a review. Get rewarded.
	Future-Proofed Workplaces	FPW-28	AgenticOps: Simplify collaboration management: Cisco Cloud Control for collaboration
Cisco Duo	Future-Proofed Workplaces	FPW-40	Enforce zero trust for agents: Zero trust access Cisco Duo Cisco Secure Access
	Future-Proofed Workplaces	FPW-45	Close the identity trust gap: Zero trust access Cisco Duo Cisco Identity Intelligence
	Security Operations Center (SOC)	SOC	Security Operations Center (SOC)
Cisco Firepower 9300 Series	Security Operations Center (SOC)	SOC	Security Operations Center (SOC)
Cisco Firewall	Future-Proofed Workplaces	FPW-40	Enforce zero trust for agents: Zero trust access Cisco Duo Cisco Secure Access
Cisco FlexPod AI	Network Operations Center (NOC)	NOC	Network Operations Center (NOC)

Cisco Headset 321Q	Future-Proofed Workplaces	FPW-24	Desk productivity starts here: Cisco Wireless Phone 9821 Desk phones Headsets
Cisco Headset 322	Future-Proofed Workplaces	FPW-24	Desk productivity starts here: Cisco Wireless Phone 9821 Desk phones Headsets
Cisco Headset 522	Future-Proofed Workplaces	FPW-24	Desk productivity starts here: Cisco Wireless Phone 9821 Desk phones Headsets
Cisco Headset 532	Future-Proofed Workplaces	FPW-24	Desk productivity starts here: Cisco Wireless Phone 9821 Desk phones Headsets
Cisco Headset 561	Future-Proofed Workplaces	FPW-24	Desk productivity starts here: Cisco Wireless Phone 9821 Desk phones Headsets
Cisco Headset 562	Future-Proofed Workplaces	FPW-24	Desk productivity starts here: Cisco Wireless Phone 9821 Desk phones Headsets
Cisco Headset 6823	Future-Proofed Workplaces	FPW-24	Desk productivity starts here: Cisco Wireless Phone 9821 Desk phones Headsets
Cisco Headset 6825	Future-Proofed Workplaces	FPW-24	Desk productivity starts here: Cisco Wireless Phone 9821 Desk phones Headsets
Cisco Headset 721Q	Future-Proofed Workplaces	FPW-24	Desk productivity starts here: Cisco Wireless Phone 9821 Desk phones Headsets
Cisco Headset 722	Future-Proofed Workplaces	FPW-24	Desk productivity starts here: Cisco Wireless Phone 9821 Desk phones Headsets
Cisco Headset 730	Future-Proofed Workplaces	FPW-24	Desk productivity starts here: Cisco Wireless Phone 9821 Desk phones Headsets
Cisco Headset 840S	Future-Proofed Workplaces	FPW-24	Desk productivity starts here: Cisco Wireless Phone 9821 Desk phones Headsets
Cisco Headset 860	Future-Proofed Workplaces	FPW-24	Desk productivity starts here: Cisco Wireless Phone 9821 Desk phones Headsets
Cisco Headset 950	Future-Proofed Workplaces	FPW-24	Desk productivity starts here: Cisco Wireless Phone 9821 Desk phones Headsets
Cisco Headset 980	Future-Proofed Workplaces	FPW-24	Desk productivity starts here: Cisco Wireless Phone 9821 Desk phones Headsets
Cisco Hierarchical Controller	Secure Global Connectivity	SGC-06	Scale AI networks seamlessly: Cisco Routed Optical Networking and SRv6
Cisco Hybrid Mesh Firewall	AI-Ready Data Centers	AIDC-07	Cisco Security: Distributed security, fused into every layer
	AI-Ready Data Centers	AIDC-20	Services for AI-ready data centers: Accelerate time to first intelligence
	AI-Ready Data Centers	AIDC-21	Services for AI-ready data centers: Master cost to true scale
	AI-Ready Data Centers	AIDC-28	Enforce segmentation everywhere: Hybrid Mesh Firewall Cisco Secure Workload Cisco Smart Switch

	AI-Ready Data Centers	AIDC-29	Simplify workflows with AgenticOps: Hybrid Mesh Firewall Cisco Cloud Control
	AI-Ready Data Centers	AIDC-30	Stop zero-day and encrypted threats: Hybrid Mesh Firewall Cisco Secure Firewall Talos
	AI-Ready Data Centers	AIDC-32	Secure AI infrastructure: Hybrid Mesh Firewall Isovalent
	AI-Ready Data Centers	AIDC-33	Secure AI agents: Hybrid Mesh Firewall Cisco AI Defense
Cisco Identity Intelligence	Future-Proofed Workplaces	FPW-45	Close the identity trust gap: Zero trust access Cisco Duo Cisco Identity Intelligence
Cisco Industry Portfolio Explorer	Future-Proofed Workplaces	FPW-37	Drive industry impact: Cisco Industry Portfolio Explorer
	Future-Proofed Workplaces	FPW-38	Learn from Cisco customers: Healthcare Finance Education Retail Manufacturing Public Sector
Cisco Intersight	AI-Ready Data Centers	AIDC-16	Simplify compute management: Cisco Intersight Cisco Cloud Control
Cisco IOS XE	Future-Proofed Workplaces	FPW-21	Secure campus architecture: Scalable network fabric
Cisco IOS XR	Secure Global Connectivity	SGC-03	Simplify network operations: Services for Cisco Agile Services Networking
Cisco IQ	Cisco Customer Experience	CX-01	Cisco IQ: Where human expertise meets agentic intelligence
	Cisco Customer Experience	CX-02	AI-powered support with Cisco IQ: Personalized Proactive Predictive
	Cisco Customer Experience	CX-03	Professional Services with Cisco IQ: De-risk Accelerate value Measure
	Digital Resilience	DR-19	Services for digital resilience: Reactive to proactive resilience for call centers
	Digital Resilience	DR-20	Services for digital resilience: Unified observability for AI and network infrastructure
Cisco IQ for Landscape Clarity (Intelligent Asset Management + Quantum-Safe Infrastructure Network Assessments)	Future-Proofed Workplaces	FPW-58	Services for future-proofed workplaces: Complete landscape clarity with Cisco IQ
	Future-Proofed Workplaces	FPW-57	Services for future-proofed workplaces: Proactive resilience and rapid resolution with Cisco IQ
Cisco ISE	Future-Proofed Workplaces	FPW-42	Segment with identity context: Cisco Identity Services Engine
Cisco Mobility Services Platform	Secure Global Connectivity	SGC-07	Unlock growth, launch faster: Cisco Mobility Services Platform
Cisco N540-8Z12G-SYS	Secure Global Connectivity	SGC-02	Deploy Cisco Agile Services Networking Embrace Cisco Routed Optical Networking Power networks with Cisco Silicon One Unleash disaggregated AI infrastructure

Cisco N9300 Smart Switches	AI-Ready Data Centers	AIDC-10	Cisco Networking: End-to-end networking from silicon to containers
	AI-Ready Data Centers	AIDC-27	Fuse security with networking: N9300 Smart Switches Post-quantum cryptography Live Protect
Cisco NCS 1010	Secure Global Connectivity	SGC-02	Deploy Cisco Agile Services Networking Embrace Cisco Routed Optical Networking Power networks with Cisco Silicon One Unleash disaggregated AI infrastructure
	Secure Global Connectivity	SGC-06	Scale AI networks seamlessly: Cisco Routed Optical Networking and SRv6
Cisco NCS 1014	Secure Global Connectivity	SGC-06	Scale AI networks seamlessly: Cisco Routed Optical Networking and SRv6
Cisco NCS EDFA Line Card	Secure Global Connectivity	SGC-02	Deploy Cisco Agile Services Networking Embrace Cisco Routed Optical Networking Power networks with Cisco Silicon One Unleash disaggregated AI infrastructure
Cisco Nexus 93180YC-FX	Network Operations Center (NOC)	NOC	Network Operations Center (NOC)
Cisco Nexus 9336C-FX2	Network Operations Center (NOC)	NOC	Network Operations Center (NOC)
Cisco Nexus 9372PX	Network Operations Center (NOC)	NOC	Network Operations Center (NOC)
Cisco Nexus 9504	Network Operations Center (NOC)	NOC	Network Operations Center (NOC)
Cisco Nexus Dashboard APIs	AI-Ready Data Centers	AIDC-25	Automate your data center fabric: Cisco Nexus Dashboard APIs Nexus-as-Code
Cisco Nexus Dashboard Data Broker	Network Operations Center (NOC)	NOC	Network Operations Center (NOC)
Cisco Nexus Hyperfabric	AI-Ready Data Centers	AIDC-22	Simplify with cloud management: Cisco Nexus One Nexus Hyperfabric Full-stack AI
Cisco Nexus One	AI-Ready Data Centers	AIDC-03	AgenticOps: Aligning speed with precision
	AI-Ready Data Centers	AIDC-10	Cisco Networking: End-to-end networking from silicon to containers
	AI-Ready Data Centers	AIDC-22	Simplify with cloud management: Cisco Nexus One Nexus Hyperfabric Full-stack AI
	AI-Ready Data Centers	AIDC-23	Unify ops from fabric to Kubernetes: Nexus One and Isovalent Isovalent Network Bridge
	AI-Ready Data Centers	AIDC-24	Troubleshoot with agentic AI: Cisco Cloud Control Cisco Nexus One Native Splunk
	AI-Ready Data Centers	AIDC-26	Build end-to-end AI networks: Cisco Nexus One NCP RA CRA
Cisco ONS QDD OLS and ONS-BRK-CS-8LC	Secure Global Connectivity	SGC-02	Deploy Cisco Agile Services Networking Embrace Cisco Routed Optical Networking Power networks with Cisco Silicon One Unleash disaggregated AI infrastructure
Cisco ONS QSFP OTDR pluggable	Secure Global Connectivity	SGC-02	Deploy Cisco Agile Services Networking Embrace Cisco Routed Optical Networking Power networks with Cisco Silicon One Unleash disaggregated AI infrastructure

Cisco ONT	Secure Global Connectivity	SGC-04	Deliver unified access anywhere: Cisco Routed PON Non-Terrestrial Networks (Satellite)
Cisco OSFP 1.6T DR8	Secure Global Connectivity	SGC-02	Deploy Cisco Agile Services Networking Embrace Cisco Routed Optical Networking Power networks with Cisco Silicon One Unleash disaggregated AI infrastructure
Cisco OSFP 800G ZR/ZR+	Secure Global Connectivity	SGC-02	Deploy Cisco Agile Services Networking Embrace Cisco Routed Optical Networking Power networks with Cisco Silicon One Unleash disaggregated AI infrastructure
Cisco OSFP 2x400G LR4	Secure Global Connectivity	SGC-02	Deploy Cisco Agile Services Networking Embrace Cisco Routed Optical Networking Power networks with Cisco Silicon One Unleash disaggregated AI infrastructure
Cisco Provider Connectivity Assurance	Secure Global Connectivity	SGC-04	Deliver unified access anywhere: Cisco Routed PON Non-Terrestrial Networks (Satellite)
Cisco QSFP28 100G ZR	Secure Global Connectivity	SGC-06	Scale AI networks seamlessly: Cisco Routed Optical Networking and SRv6
Cisco QSFP-DD 400G ULH	Secure Global Connectivity	SGC-02	Deploy Cisco Agile Services Networking Embrace Cisco Routed Optical Networking Power networks with Cisco Silicon One Unleash disaggregated AI infrastructure
Cisco QSFP-DD 400G ZR/ZR+	Secure Global Connectivity	SGC-02	Deploy Cisco Agile Services Networking Embrace Cisco Routed Optical Networking Power networks with Cisco Silicon One Unleash disaggregated AI infrastructure
	Secure Global Connectivity	SGC-06	Scale AI networks seamlessly: Cisco Routed Optical Networking and SRv6
Cisco QSFP-DD 400G ZR+ High Tx Power	Secure Global Connectivity	SGC-02	Deploy Cisco Agile Services Networking Embrace Cisco Routed Optical Networking Power networks with Cisco Silicon One Unleash disaggregated AI infrastructure
Cisco QSFP-DD 800G ZR/ZR+	Secure Global Connectivity	SGC-02	Deploy Cisco Agile Services Networking Embrace Cisco Routed Optical Networking Power networks with Cisco Silicon One Unleash disaggregated AI infrastructure
Cisco QSFP-DD PSM	Secure Global Connectivity	SGC-02	Deploy Cisco Agile Services Networking Embrace Cisco Routed Optical Networking Power networks with Cisco Silicon One Unleash disaggregated AI infrastructure
Cisco Room Bar	Future-Proofed Workplaces	FPW-18	Meet on any platform: Cisco Room Bar Pro Cisco Room Bar
Cisco Room Bar Pro	Future-Proofed Workplaces	FPW-18	Meet on any platform: Cisco Room Bar Pro Cisco Room Bar
Cisco Room Kit Pro G2	Future-Proofed Workplaces	FPW-16	Experience Distance Zero meetings: Cisco Room Kit Pro G2 PTZ Camera Ceiling Mic Pro

Cisco Room Navigator for Table	Future-Proofed Workplaces	FPW-16	Experience Distance Zero meetings: Cisco Room Kit Pro G2 PTZ Camera Ceiling Mic Pro
	Future-Proofed Workplaces	FPW-18	Meet on any platform: Cisco Room Bar Pro Cisco Room Bar
Cisco Room Navigator for Wall	Future-Proofed Workplaces	FPW-16	Experience Distance Zero meetings: Cisco Room Kit Pro G2 PTZ Camera Ceiling Mic Pro
	Future-Proofed Workplaces	FPW-18	Meet on any platform: Cisco Room Bar Pro Cisco Room Bar
Cisco Room Vision PTZ Camera	Future-Proofed Workplaces	FPW-16	Experience Distance Zero meetings: Cisco Room Kit Pro G2 PTZ Camera Ceiling Mic Pro
Cisco Routed Optical Networking	Secure Global Connectivity	SGC-06	Scale AI networks seamlessly: Cisco Routed Optical Networking and SRv6
Cisco SD-WAN	Future-Proofed Workplaces	FPW-43	Simplify SASE with AgenticOps: Zero trust access Cisco SASE Cisco Cloud Control
Cisco SD-WAN Manager	Future-Proofed Workplaces	FPW-11	Security for the branch and WAN: Secure routers SASE Post-quantum cryptography
Cisco Secure Access	Digital Resilience	DR-23	Cisco Operations: AI-powered and secure: Cisco on Cisco Real-world solutions
	Future-Proofed Workplaces	FPW-40	Enforce zero trust for agents: Zero trust access Cisco Duo Cisco Secure Access
	Future-Proofed Workplaces	FPW-41	Safeguard GenAI usage: Zero trust access Cisco Secure Access
	Future-Proofed Workplaces	FPW-42	Segment with identity context: Cisco Identity Services Engine
	Future-Proofed Workplaces	FPW-43	Simplify SASE with AgenticOps: Zero trust access Cisco SASE Cisco Cloud Control
	Future-Proofed Workplaces	FPW-44	Enforce zero trust for the branch: Meraki dashboard Cisco Access Manager Cisco Secure Access
	Future-Proofed Workplaces	FPW-45	Close the identity trust gap: Zero trust access Cisco Duo Cisco Identity Intelligence
Cisco Secure Access	Security Operations Center (SOC)	SOC	Security Operations Center (SOC)
Cisco Secure AI Factory	AI-Ready Data Centers	AIDC-04	Full-stack AI infrastructure: Engineered as one system with partners
Cisco Secure Client	Security Operations Center (SOC)	SOC	Security Operations Center (SOC)
Cisco Secure Firewall	AI-Ready Data Centers	AIDC-30	Stop zero-day and encrypted threats: Hybrid Mesh Firewall Cisco Secure Firewall Talos
	Future-Proofed Workplaces	FPW-42	Segment with identity context: Cisco Identity Services Engine
Cisco Secure Firewall 3110 Series	Network Operations Center (NOC)	NOC	Network Operations Center (NOC)
Cisco Secure Firewall 4245	Network Operations Center (NOC)	NOC	Network Operations Center (NOC)

Cisco Secure Firewall Management Center	Network Operations Center (NOC)	NOC	Network Operations Center (NOC)
	Security Operations Center (SOC)	SOC	Security Operations Center (SOC)
Cisco Secure Malware Analytics	Security Operations Center (SOC)	SOC	Security Operations Center (SOC)
Cisco Secure Network Analytics	Security Operations Center (SOC)	SOC	Security Operations Center (SOC)
Cisco Secure Gateway	Secure Global Connectivity	SGC-08	Protect critical infrastructure: Cisco Service Provider Security
